You suggest a course of activity (limited to a sentence or two) and magically influence a creature you can see within range that can hear and understand you. Creatures that can't be charmed are immune to this effect. The suggestion must be worded in such a manner as to make the course of action sound reasonable. Asking the creature to stab itself, throw itself onto a spear, immolate itself,

Hypnose et suggestion (Book, 1989) [WorldCat.org]

There is already some evidence that targeted hypnotic suggestion could be viable to improve cognition following acquired brain injury. Sullivan et al. found that a single hypnotic suggestion caused superior improvement in performance on one of two cognitive outcome measures as compared to a relaxation control intervention. The effect was positive but clinically irrelevant [standardized mean difference (SMD) = 0.18], possibly due to the short single-session suggestion offered to the patients.

Hypnosis is a human condition involving focused attention, reduced peripheral awareness, and an enhanced capacity to respond to suggestion.. There are competing theories explaining hypnosis and related phenomena. Altered state theories see hypnosis as an altered state of mind or trance, marked by a level of awareness different from the ordinary state of consciousness.
