Once the ICH E2B document was adopted as a Step 4 guideline in July 1997, the ICH M2 EWG finalised the relational model and the message definition, and the first official release of the ICH\_ICSR.DTD was agreed in October 1997 in Washington, DC. The maintenance EWG for E2B was established in October 1999.

[ICH M2 Electronic common technical document \(eCTD ...](#)

The specification is based on the Common Technical Document (CTD) format and was developed by the International Council for Harmonisation (ICH) Multidisciplinary Group 2 Expert Working Group (ICH M2 EWG).

ICH M2 EWG concluded that the best approach would be to recommend a technological framework consisting of open international standards and interoperable products, or to identify proprietary solutions that are de facto standards, since the products offer all the required functionality.
