*Use of ICT in Primary School Classrooms - UKEssays.com*

Computers in the classroom. Information and Communication Technology (ICT) is important in primary education because it enables kids to search for the information they need and to organize what they have found. As children progress through the school system, they become increasingly responsible for their own learning.

*Importance Of ICT And The Role Of ICT In Education*

ICT Software Used in Infant Classes at Primary Level There is a range of educational ICT software being used in primary schools today. This software is being developed daily, to enhance children's learning and development. The NCCA (2004) recognises that different software products may be more appropriate for children in different classrooms.

Book Description This invaluable new text on ICT offers support, guidance and inspiration to anyone training to teach or currently teaching in primary schools, as well as those studying Education Studies

at undergraduate or postgraduate level. The book encourages teachers - and pupils - to realise the potential of the full range of ICT resources.

pg. 10 2.3 Role of ICT in a primary school  
The uses of ICT are making major differences in the learning of students and teaching and learning approaches. Several studies reveal that students using ICT tools and facilities mostly show better learning gains than those who do not use.

Across England, Wales and Northern Ireland, the ICT Mark, administered by Naace, is a good indicator of the maturity achieved by schools in their use of ICT in Leadership and Management, Planning, Learning, Assessment, Professional Development and use of Resources.

The new edition of Teaching and Learning with ICT in the Primary School introduces practising and student teachers to the range of ways in which ICT can be used to support and extend teaching and learning opportunities in their classrooms.

This book brings together a team of well known international writers and educationalists to discuss why ICT can make a critical contribution to children's learning in the primary school. As our perception of the 'Information Society' develops and we consider its impact upon social, economic and cultural life, our expectations of children's experiences in schools will also alter.
