In his provocative analysis, Benson (economics, Florida State U.; The Independent Institute, Oakland, CA) argues for contracting out and other controversial "private justice" options as preferable to government's pervasive and misguided criminal justice role. "Why the timing may be right" is the theme of the preface by Marvin Wolfgang, Director of the U. of Pennsylvania's Sellin Center for Studies in Criminology and Criminal Law. The Austrian School of the series title favors less government economic control. Annotation copyrighted by Book News, Inc., Portland, OR

"In most societies, courts are where the rubber of government meets the road of the people. If a state cannot settle disputes and enforce its decisions, to all intents and purposes it is no longer in charge. This is why successful rebels put courts and justice at the top of their agendas. Rebel Law explores this key weapon in the arsenal of insurgent groups, from the IRA's 'Republican Tribunals' of the 1920s to Islamic State's 'Caliphate of Law,' via the ALN in Algeria of the 50s and 60s and the Afghan Taliban of recent years. Frank Ledwidge delineates the battle in such ungoverned spaces between counterinsurgents seeking to retain the initiative and the insurgent courts undermining them. Contrasting colonial judicial strategy with the chaos of stabilisation operations in Iraq and Afghanistan, he offers compelling lessons for today's conflicts"--Book jacket.

Social Justice, Criminal Justice is a thought-provoking examination of the U.S. legal system, focusing on how criminal justice and social justice are related. The book provides a solid foundation of key philosophical and theoretical issues and goes on to examine

the function of the law as it relates to social justice issues. The authors present and explain the foundational legal documents of the United States, and critically examine how those same documents, which espoused the rhetoric of equality for all, contribute toward the perpetuation and maintenance of a system of exclusion for groups with minority status, such as racial and ethnic minorities, the poor, women, and the LGBT (lesbian, gay, bisexual, transgender) community. Succinct but comprehensive, this text offers a careful examination of possible relationships between social justice theory and criminal justice practice and illuminates the role that the legal system has played in both preventing and assisting social change and power dynamics. For each identified group, important landmark court decisions are used to demonstrate the plight of the powerless and the quest for equal rights. The book provides an important perspective and understanding of the relationships among criminal justice, social justice, and the law. Suitable for undergraduate and early graduate courses in Social Justice, Justice Studies, Critical Issues, Ethics, and American Government and Law, this text provides easily digestible content for those interested in thinking critically about the U.S. legal system.

From NY Times bestselling author of the Carmel Cove Cozy Mystery Series Lucy Diamond has one main ambition in life, to write a bestselling novel. After giving up her full-time job as a journalist with the local paper, she finally sets up her office ready to write. However, things soon go awry when her friend, Marnie, fires a shotgun from her window, Lucy fears Marnie, who is agoraphobic, is losing her mind. Problem solved when Winnie shows up looking for a job as a companion and moves in next door, or is it? Meanwhile, Lucy's new beau, Sergeant Brendon Colt is working all hours, investigating the murder of one of the town's local dignitaries. Lucy finds it difficult to ignore the intriguing investigation and decides to set her writing aside to chase the clues, but in doing so, she stumbles across information which puts her own life in

mortal danger. Other books in this series are: *Death on the Coast*. "In the 2020s, no informed person disagrees that punishment policies and practices in the United States are unprincipled, chaotic, and much too often unjust. The financial costs are enormous. The moral cost is greater: countless individual injustices; mass incarceration; the world's highest imprisonment rate; extreme disparities, especially affecting members of racial and ethnic minority groups; high rates of wrongful conviction; assembly line case processing; and a general absence of respectful consideration of offenders' interests, circumstances, and needs. The main ideas in this book about doing justice and preventing crime are simple: Treat people charged with and convicted of crimes justly, fairly, and even-handedly, as anyone would want done for themselves or their children. Take sympathetic account of the circumstances of peoples' lives. Punish no one more severely than he or she deserves. Those propositions are implicit in the Rule of Law and its requirement that the human dignity of every person be respected. Three major structural changes are needed. First, selection of judges and prosecutors, and their day-to-day work, must be insulated from political influence. Second, mandatory minimum sentence, three-strikes, life without parole, truth in sentencing, and similar laws must be repealed. Third, correctional and prosecution systems must be centralized in unified state agencies"-- Builds on micro-level critiques of transitional justice to debate a more comprehensive alternative at the level of theory and practice.
