This edition of Larry Kitchens' **EXPLORING STATISTICS** is a quintessentially modern introduction to statistics. To an unprecedented degree, the book emphasizes data analysis throughout, continually illustrating key role data analysis plays in modern statistics. Kitchens also stresses hands-on experience, working with real data (more than 400 real data sets are included), and discovery through graphical displays and

computer simulations. Preparing students to be both "consumers" and "producers" of statistics, Kitchens' approach gives them the tools and information they need to succeed in both roles.

Law, Business and Society, 11e fits both upper-division undergraduate and masters levels courses in the legal environment of business, government and business, and business and society. Law, Business and Society, takes an interdisciplinary ap-

proach, using elements of law, political economy, international business, ethics, social responsibility, and management. Students will find an interesting, provocative reading experience filled with contemporary legal and ethical conflicts emerging from today's news, as well as scholarly results, surveys, polls, data, anecdotes, and other specific details that lend credibility, immediacy, and interest to the reading experience.
