The UNT MA in Interaction Design is designed to foster leaders who help guide public and private organizations into the future. We challenge students to develop disruptive thinking and persuasive leadership skills while instilling industry-focused methods and social responsibility.

### **UNT MA in Interaction Design - Masters In Interaction Design**

Interaction design and instructional design both rely on cognitive psychology theories to focus on how users will interact with software. They both take an in-depth approach to analyzing the user's needs and goals. A needs analysis is often performed in both disciplines. Both approach the design from the user's perspective.

### **Talk:Interaction design - Wikipedia**

Interdisciplinarity or interdisciplinary studies involves the combining of two or more academic disciplines into one activity (e.g., a research project). It draws

knowledge from several other fields like sociology, anthropology, psychology, economics etc. It is about creating something by thinking across boundaries.

### **Interdisciplinarity - Wikipedia**

Interaction design is an interdisciplinary field, and colleges often have to partner with companies, which, in turn, gives students internships, networking, and opportunity they wouldn't have on their own.
