Providing the most up-to-date and thorough coverage of cost management topics, Hansen/Mowen's CORNERSTONES OF COST ACCOUNTING provides students with a solid foundation with its unique Cornerstones approach. Created from our research on student learning behavior, this step-by-step format helps students understand the How, Why, and What Ifs of solving and mastering basic cost management topics, while also getting at the conceptual nature of each equation or topic. This relevant text also addresses some of the most recent processes affecting the discipline such as a chapter on productivity measurement and lean accounting.

Fundamentals of Advanced Accounting, 5th edition, is ideal for those schools wanting to cover 12 chapters in their advanced accounting course. This brief yet concise text allows students to think critically about accounting, just as they will do preparing for the CPA exam. With this text, students gain a well-balanced appreciation of the Accounting profession. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future as it originates from Hoyle's big text Advanced Accounting. The writing style of the four previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made Hoyle the market leading franchise in the Advanced Accounting market. The 5th edition includes increased integration of IFRS, as well as updated accounting standards.

Contributions to International Accounting aims to address a vital gap in research by focusing on providing relevant and timely studies on International Financial Reporting Standards implementation for local and international policymakers.

Includes research papers that examines various issues including the adoption of International Financial Reporting Standards (IFRS) and International Public Sector Accounting Standards (IPSASs), management accounting change in the context of public sector reforms, corporate reporting disclosures, auditing, etcetera.

This book provides rare, insider accounts of the academic research process, revealing the human stories and lived experiences behind research projects; the joys and mistakes of a wide range of international researchers principally from the fields of accounting and finance, but also from related fields in management, economics and the social studies of science.

Covers each chapter and appendix with reviews of learning objectives, outlines of the chapters, summaries of chapter materials, and additional problems with solutions.

A comprehensive review of contemporary research in management accounting. Provides a thorough critical analysis of recent issues published in the management accounting literature and identifies gaps for future research in each issue reviewed.

This is a ground-breaking casebook, complete with the FARS CD, is designed to support the use of FARS as a tool for accountants to effectively use case studies and databases as a source of information. In spring 04, when the CPA exam goes electronic, FASB case studies will be incorporated into the exam. This books presents and analyzes case studies so readers can hone their analytical abilities, learn how to properly identify the scope of relevant guidance, design effective search phrases using Boolean logic, and cope with contradictions and ever-changing guidance in regulation and business practices.

College Accounting by Wild, Richardson, and Shaw draws upon the success of Wild's Fundamental Accounting Principles text. Its innovation is reflected in its extensive use of small business examples, the integration of new computerized learning

tools, superior end-of-chapter material, and a highly engaging, pedagogical design. Inclusion of technology products such as Connect, Connect, Excel Templates, and QuickBooks Pro 2010 software provides students with every possible advantage as they strive to understand the key concepts of accounting and their role in business.

TARGET AUDIENCE • MBA • BBA

What is my theory? How do I choose a theory? Why and how should I employ a particular method for collecting the empirical data? These basic questions concern everyone involved in research. A research study can be a voyage of discovering or choice of theoretical perspective as well as gathering empirics or facts on a problem

or situation. This book provides a good guideline as to why and how to choose a particular theory or method to study an organisational phenomenon such as accounting. All the chapters provide both retrospective and contemporary views by scholars in the field. Each chapter documents the latest developments and research in accounting and control systems and provides valuable insights into methodological perspectives in accounting research. This second edition has also introduced a number of new chapters covering strategy-management control as practice, grounded theory approach, institutional logic and rhetoric, social interaction theory, actor-network theory and practice theory. The book is primarily intended for research students and academic researchers. It can also be used for undergraduate Honours course as well as postgraduate accounting and business methodology courses. Research organisations and consulting firms in accounting and business fields may also find this book useful. The principal aims of this second edition are (1) to update the chapters previously published in 2006 and (2) to introduce new chapters documenting recent developments in accounting research.

This is a refereed, academic research annual, devoted to publishing articles about advancements in the development of accounting and its related disciplines from an international perspective. This serial examines how these developments affect the financial reporting and disclosure practices, taxation, management accounting practices, and auditing of multinational corporations, as well as their effect on the education of professional accountants worldwide.

This e-book aims to investigate users, use and usefulness of voluntary disclosure narrative. There has been a substantial increase in voluntary disclosure narrative provided by companies over the last decade. This increase has been seen within company annual reports, stand alone social and environmental reports and specific web site disclosure.

This is a refereed, academic research annual that is devoted to publishing articles about advancements of accounting and its related disciplines from an international perspective. This serial examines how these developments affect the financial reporting and disclosure practices, taxation, management accounting practices, and auditing of multinational corporations as well as their effect on the education of professional accountants worldwide.

This text contains current and relevant information about the global marketplace.

Written by authors with multinational and multicultural backgrounds, this text is free of cultural bias and therefore provides complete coverage of issues from every viewpoint.

The most practical, real-world presentation of cost accounting on the market, this book blends a traditional and proven method of teaching cost accounting with the integration of innovative topics. Cost topics are covered in the context of organizational strategy and operational tactics, as cost management decisions are sensitive to strategies driven by quality, cost, and innovation. Kinney, Prather-Kinsey, and Raiborn reinforce the material with real-world examples and visual illustrations that bring cost management techniques into the student's sphere of understanding. A flexible organization appropriate for either a one- or two- semester course--coupled with clear and abundant visual presentations--allows students to clearly understand difficult topics. The text's revised organizational structure streamlines chapter materials as well as reduces redundancy between cost accounting and other business courses.

The Fourth Edition of International Accounting provides an overview of the broadly defined area of international accounting, but also focuses on the accounting issues related to international business activities and foreign operations. This edition also includes substantially updated coverage of the International Accounting Standards Board (IASB) and International Financial Reporting Standards (IFRS). The unique benefits of this textbook include its up-to-date coverage of relevant material, extensive numerical examples provided in most chapters, two chapters devoted to the application of International Financial Reporting Standards (IFRS), and coverage of non-traditional but important topics such as strategic accounting issues of multinational companies, international corporate governance, and corporate social responsibility reporting.

This is the first and only book to offer a comprehensive survey of accounting research on a broad international scale for the last two centuries. Its main emphasis is on accounting research in the English, German, Italian, French and Spanish language areas; it also contains chapters dealing with research in Finland, the Netherlands, Scand

This book is a full guidebook among more than 218 accounting international journals with an evaluation of 3,000 publications for over the last two years. It aims to help readers for selecting an appropriate journal for publishing own research in the inter-

national arena or to find the required topic for conducting further investigating or to be informed about so large-scale science as accounting. Here a reader will find detailed information about accounting journals in terms of Scopus, Web of Science and SCImago databases. In addition, there are highlighted accounting journals in terms of IFRS and blockchain concentration in accounting researches nowadays. The relevant aims and scope of each journal are also presented. Anyway, this book is an indispensable assistant for students while getting the "Accounting" specialization, as well as teachers and scientists while conducting empirical researches in the practice and theory of the accounting field.

Selecting from the wide range of research methodologies remains a dilemma for all scholars, not least those looking to study the world of accounting. Both established and emerging research methods are frequently advocated, creating a challengingly broad range of choices. Covering a selection of qualitative methodological issues, research strategies and methods, this comprehensive compilation provides an essential guide to the choice and execution of qualitative research approaches in this field. The contributions are grouped into four sections: Worldview and paradigms Methodologies and strategies Data collection methods and analysis Experiencing qualitative field research: personal reflections Edited by leading scholars, with contributions from experts and rising stars, this volume will be essential reading for anyone looking to undertake research in the qualitative accounting field.

The Fifth Edition of International Accounting provides an overview of the broadly defined area of international accounting, but also focuses on the accounting issues related to international business activities and foreign operations. This edition also includes substantially updated coverage of the International Accounting Standards Board (IASB) and International Financial Reporting Standards (IFRS). The unique benefits of this textbook include its up-to-date coverage of relevant material, extensive numerical examples provided in most chapters, two chapters devoted to the application of International Financial Reporting Standards (IFRS), and coverage of non-traditional but important topics such as strategic accounting issues of multinational companies, international corporate governance, and corporate social responsibility reporting.

This volume is a publication of quality applied research in management accounting. The volumes purpose is to publish

thought-provoking articles that advance knowledge in the management accounting discipline and are of interest to both academics and practitioners.
