International Management: Text and Cases: Paul W. Beamish ...

International Management focuses on how firms become and remain international in scope. It is about the experiences of firms of all sizes, from any countries, as they come to grips with an increasingly competitive global environment.

International management control (IMC) refers to a set of control mechanisms that an international business engages in to direct, monitor, evaluate, regulate, and integrate its international trade and/or global activities to achieve its desired purpose(s). IMC mechanisms can be classified into three types: regulative, financial, and normative.
