How to Communicate Effectively With Older Adults...

Timothy A. Storlie PhD, in Person-Centered Communication with Older Adults, 2015. Three Special C's. Because poor quality interpersonal communication can be a major source of stress and create significant problems for providers, older adults, and aging services-related organizations, Chapter 7 focuses on a special C—calmness. It includes detailed suggestions about how to develop a stress management plan of care—both for individual providers and employing organizations.

Thus, older adults are likely to engage in interpersonal communication within a myriad of health contexts. Despite diversity of patient-provider interactions and health conditions, older adults may develop long-term, close relationships with physicians, nurses, or other health workers.

Incorporating Peplau's Theory of Interpersonal Relations to Promote Holistic Communication Between Older Adults and Nursing Students J Holist Nurs. 2016 Mar;34(1):35-41; quiz 42-3. doi: 10.1177/0898010115577975. Epub 2015 Apr 8. Authors William H Deane 1 ...

Communication plays a pivotal role in the establishment, management, and dissolution of interpersonal relationships in emerging adulthood. Arnett (2004 ) observes that for emerging adults, "the late teens and early twenties become a time for exploring their options, falling in and out of love with different people, and gaining sexual experience" ( p. 73).

Let's Grow Old Together: Time Spent With a Spouse in Encore Adulthood. Presented by: Katie Genadek, Sarah Flood, Phyllis Moen. While previous research has focused on time spent with a spouse for working-age adults, encore adulthood is a phase of life during which individuals face different kinds of constraints impacting time with a spouse.

Older adults are becoming increasingly dissatisfied with service quality citing deficits in provider communication and relationship skills. The author argues this dissatisfaction is largely related to three widespread issues: ageism, use of professional jargon, and age-related changes in the older adult.
