Interqual Criteria - EM DOT PHRASES

Change Healthcare Introduces InterQual 2019 - OR Today
Criteria. InterQual Criteria are objective and specific to better help ensure the most appropriate care and more consistent, defensible decision-making. Our four criteria suites provide comprehensive coverage for medical and behavioral health across all levels of care as well as ambulatory care planning.

The ASAM Criteria text describes treatment as a continuum marked by four broad levels of service and an early intervention level. Within the five broad levels of care, decimal numbers are used to further express gradations of intensity of services. These levels of care provide a standard nomenclature...

Industry-Leading Evidence-Based Care Guidelines. Care guidelines from MCG provide fast access to evidence-based best practices and care-planning tools across the continuum of care, supporting clinical decision-making and documentation as well as enabling efficient transitions between care settings.

InterQual long-term acute care criteria Blue Cross will implement the 2019 InterQual LTAC criteria on Aug. 1, 2019. On this date, the modification outlined below will take effect, and all previous modifications and InterQual criteria will be replaced with this guideline. • For Blue Cross members, "Pain management" can't be used as a
