Offender profiling, also known as criminal profiling, is an investigative strategy used by law enforcement agencies to identify likely suspects and has been used by investigators to link cases that may have been committed by the same perpetrator. Multiple crimes may be linked to a specific offender and the profile may be used to predict the identified offender's future actions.

### **Offender profiling - Wikipedia**

Etymology and definitions. The word psychology derives from Greek roots meaning study of the psyche, or soul (ψυχή psychē, "breath, spirit, soul" and -λογία -logia, "study of" or "research"). The Latin word psychologia was first used by the Croatian humanist and Latinist Marko Marulić in his book, Psychiologia de ratione animae humanae in the late 15th century or early 16th century.
