- Refining theory is a mathematical way to describe refining action.
- The first to introduce refining theory was Jagenberg in 1887. This consists term such as beating area and beating force, which are still used as a basis.
- The common feature of theories is that the total refining power is divided into two components, net and no-load power.

Papermaking - Stock Prep Courses Our online stock preparation training courses provide essential training for paper manufacturers. These courses cover stock prepara-

tion systems and concepts in the papermaking process.

However, several independent refining companies trade on public stock markets, which gives investors seeking direct exposure to the sector a few options. The five largest ones are on the following ...
