The story of films is the story of human development. From the very first story that defined the birth of our civilization—the Sumerian Epic of Gilgamesh, a story of immortality, aging and death—comes a tale of why we age. We are a species of storytellers. The stories we tell to each other define who we are. However, since we are living in a world marked by age apartheid, our interaction with people across different generations is becoming more limited. As a result, the information we gain about older people comes mostly from secondary sources. For the general public, films remain the most accessible form of information regarding getting older. From the early exposure of cartoons to more elaborate dramas, our knowledge of what it means to become old relies on our exposure to films. This volume provides insight into how accurate these representations are in line with current knowledge that we have about aging and older adults. Arguing that films present a simplified view of aging, this analysis relies on scientific evidence to explore why and how such stereotypes affect us. Stereotypes have the ability of being internalized and becoming prescriptive of our behavior. Numerous studies have attempted different ways of understanding the impact films have on aging. Theories as seemingly disparate as feminism and disability have contributed to our understanding of how stereotypes influence our aging process. This text builds upon this knowledge and provides new insights by applying current gerontological knowledge—the science of aging—to unpack and analyze the images of aging that films are providing. By readdressing this focus on gerontological theories—as diverse as biology and psychology—the book readdresses an overlooked approach.

Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's *Italian Literature before 1900 in English Translation*, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature.

The world might be in the throes of a global recession but when an author on the brink of despair, an enigmatic musician, a supermodel and a Satanic sect meet with the cream of Italian high society at the home of a Roman property tycoon, the world outside the mansion's walls is soon forgotten. There's going to be one hell of a party. And you've got a VIP ticket.

Looking at media coverage of three very prominent murder cases, *Murder Made in Italy* explores the cultural issues raised by the murders and how they reflect developments in Italian civil society over the past 20 years. Providing detailed descriptions of each murder, investigation, and court case, Ellen Nerenberg addresses the perception of lawlessness in Italy, the country's geography of crime, and the generalized fear for public safety among the Italian population. Nerenberg examines the fictional and nonfictional representations of these crimes through the lenses of moral panic, media spectacle, true crime writing, and the abject body. The worldwide publicity given the recent case of Amanda Knox, the American student tried for murder in a Perugia court, once more drew attention to crime and punishment in Italy and is the subject of the epilogue.

From the unbridled sensuality of silent Italian films, to the neorealist classic *Bitter Rice*, to the astonishing imagination of Fellini and the more cerebral and fascinating movies of Antonioni, Italy has a filmic legacy unlike that of any other nation. And then there are the popular movies: the lively sword and sandal epics of the peplum era through to the inextricable mix of sexuality and violence in the gialli of such directors as Mario Bava and Dario Argento. All the glory of Italian cinema is celebrated here in comprehensive essays, along with every key film in an easy-to-use reference format. This new and greatly expanded edition takes in major modern hits such as *The Great Beauty/La Grande Bellezza*. The new generation of Italian film and TV successes, important directors and movements of the past are all given fresh and incisive evaluations, with every kind of film examined, from arthouse classics to the Spaghetti Westerns of Sergio Leone and co., and the stylish, blood-drenched thrillers and horror films that redefined their respective genres. 'Italian cinema is celebrated here with astute analysis in the sharply informative essays of Barry Forshaw' - John Pitt, *New Classics* 'No one -- but no one -- composes brief essays on films that are as expert, as complete and as engaging as Barry Forshaw' - Donald Spoto Look out for Barry Forshaw's Noir series, which includes Euro Noir, Nordic Noir, Brit Noir, American Noir and Historical Noir, and for his latest book, *Crime Fiction: A Reader's Guide*.

The mafia has always fascinated filmmakers and television producers. Al Capone, Salvatore Giuliano, Lucky Luciano, Ciro Di Marzio, Roberto Saviano, Don Vito and Michael Corleone, and Tony Soprano are some of the historical and fictional figures that contribute to the myth of the Italian and Italian-American mafias perpetuated onscreen. This collection looks at mafia movies and television over time and across cultures, from the early classics to the Godfather trilogy and contemporary Italian films and television series. The only comprehensive collection of its type, *Mafia Movies* treats over fifty films and TV shows created since 1906, while introducing Italian and Italian-American mafia history and culture. The second edition includes new original essays on essential films and TV shows that have emerged since the publication of the first edition, such as *Boardwalk Empire* and *Mob Wives*, as well as a new roundtable section on Italy's "other" mafias in film and television, written as a collaborative essay by more than ten scholars. The edition also introduces a new section called "Double Takes" that elaborates on some of the most popular mafia films and TV shows (e.g. *The Godfather* and *The Sopranos*) organized around themes such as adaptation, gender and politics, urban spaces, and performance and stardom.

A fully illustrated primer on Italian culture goes beyond the parameters of travel and phrase books to inform readers on the nation's history, values and character, covering everything from regional identity and famous figures to Italian art and architecture. Original.

*European Film Noir* is the first book to bring together specialist discussions of film noir in specific European national cinemas. Written by leading scholars, this groundbreaking study provides an authoritative understanding of an important aspect of European cinema and of film noir itself, for too long considered as a solely American form. The Introduction reviews the problems of defining film noir, its key characteristics and discusses its significance to the development of European film, the relationship of specific national films noirs to each other, to American noir and to historical and social change. Eight chapters then discuss film noir in France, Germany, Britain and Spain, analysing both

earlier developments and the evolution of neo-noir through to the present. A further chapter explores film noir in Italian cinema where its presence is not so well defined. Each piece provides a critical overview of the most significant films in relation to their industrial and social contexts. *European Film Noir* is an important contribution to the study of European cinema that will have a broad appeal to undergraduates, cinéastes, film teachers and researchers.

While Italian cinema has long been popular with international audiences, a surprising unfamiliarity remains regarding the rich traditions from which its most fascinating moments arose. *Directory of World Cinema: Italy* aims to offer a wide film and cultural context for Italian cinema's key aspects, from political radicalism to opera, from the art house to popular cinema. Essays by leading academics about prominent genres, directors, and themes provide insight into the cinema of Italy and are bolstered by reviews of significant titles. From the silent spectacle of the giallo, the spaghetti western to the neorealist masterworks of Rossellini, this book offers a comprehensive historical sweep of Italian cinema that will appeal to film scholars and cinephiles alike.

Examines the works of a noted Italian film director through a political lens, answering questions about subjectivity, objectivity and political commentary in modes of filmmaking.

Italian cinema is now regarded as one of the great cinemas of the world. Historically, however, its fortunes have varied. Following a brief moment of glory in the early silent era, Italian cinema appeared to descend almost into irrelevance in the early 1920s. A strong revival of the industry which gathered pace during the 1930s was abruptly truncated by the advent of World War II. The end of the war, however, initiated a renewal as films such as *Roma città aperta* (*Rome Open City*), *Sciuscià* (*Shoeshine*, 1946), and *Ladri di biciclette* (*Bicycle Thieves*, 1948), flagbearers of what soon came to be known as Neorealism, attracted unprecedented international acclaim and a reputation that only continued to grow in the following years as Italian films were feted worldwide. Ironically, they were celebrated nowhere more than in the United States, where Italian films consistently garnered the lion's share of the Oscars, with Lina Wertmüller becoming the first woman to ever be nominated for the Best Director award. This second edition of *Historical Dictionary of Italian Cinema* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on major movements, directors, actors, actresses, film genres, producers, industry organizations and key films. This book is an excellent resource for students, researchers, and anyone wanting to know more about Italian Cinema.

Nell'attuale mondo occidentale, la figura paterna sembra aver perso la propria identità. Attraverso l'analisi di alcuni dei film più significativi dell'ultimo decennio, questo libro esamina il tentativo del cinema di raccontare il "viaggio" dei padri...

In *Recent Italian Cinema*, two fundamental questions are asked: the first concerns whether Italian cinema, as national cinema, is in reality reduced to a niche market in its own territory. The second relates to what Italian audiences do with domestic films. For nearly two decades, most Italian films have been produced outside box office returns, through a practice of subsidy and co-financing between many institutional and private entities. Thus Italian cinema has had to define its mode of production and use-value of films in a different way. It is clear that it is no longer possible to separate national cinemas from the grip that the American film industry has on world markets, in terms of imagination and modes of production, distribution and exhibition. It is thus only by examining the multiple layers of description and analysis, which take into account the presence of Hollywood, that we can come to an understanding of what recent Italian cinema actually is.

It consists of a chronology, an introductory essay, a bibliography, a filmography, and over 400 cross-referenced dictionary entries on every aspect of film noir and neo-noir, including key films, personnel (actors, cinematographers, composers, directors, producers, set designers, and writers), themes, issues, influences, visual style, cycles of films (e.g. amnesiac noirs), the representation of the city and gender, other forms (comics/graphic novels, television, and videogames), and noir's presence in world cinema. It is an essential reference work for all those interested in this important cultural phenomenon.

*New Approaches to Teaching Italian Language and Culture* fills a major gap in existing scholarship and textbooks devoted to the teaching of Italian language and culture. A much-needed project in Italianistica, this collection of essays offers case studies that provide a coherent and organized overview of contemporary Italian pedagogy, incorporating the expertise of scholars in the field of language methodology and language acquisition from Italy and four major countries where the study of Italian has a long tradition: Australia, Canada, Great Britain and the United States. The twenty four essays, divided into six main parts, offer a tremendous variety of up-to-date approaches to the teaching of Italian as a foreign language and L2, ranging from theoretical to more practical, hands-on strategies with essays on curricular innovations, technology, study abroad programs, culture, film and song use as effective pedagogical tools. Each case study introduces a systematic approach with an overview of theory, activities and assessment suggestions, collection of research data and syllabi. The book addresses the needs of instructors and teacher trainers, putting in perspective different examples that can be used for more effective teaching techniques according to the ACTFL guidelines and the Common European Framework of Reference for Languages.

The *Encyclopedia of Italian Literary Studies* is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The *Encyclopedia* is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The *Encyclopedia* also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

In the summer of 1978 in a small Italian village, nine-year-old Michele Amitrano loses his innocence of childhood when he accidentally uncovers a dark secret being kept by the adults of Acqua Traversa.

The Italian cinema is regarded as one of the great pillars of world cinema. Films like *Ladri di biciclette* (1948), *La dolce vita* (1960), and *Nuovo cinema Paradiso* (1988) attracted unprecedented international acclaim and a reputation, which only continue to grow. Italian cinema has produced such acting legends as Sophia Loren and Roberto Benigni, as well as world-renowned filmmakers like Federico Fellini, Sergio Leone, Mario Bava, Dario Argento, and Lina Wertmüller, the first woman to ever be nominated for the Best Director award. The A to Z of Italian Cinema provides a better understanding of the role Italian cinema has played in film history through a chronology, an introductory essay, a bibliography, appendixes, black-&-white photos, and hundreds of cross-referenced dictionary entries on actors, actresses, movies, producers, organizations, awards, film credits, and terminology.

Italian cinema is internationally well-known for the ground-breaking experience of Neo-Realism, comedy "Italian-Style," Spaghetti Westerns, and the horror movies of the seventies. However, what is rather unfamiliar to wider audiences is Italian cinema's crucial and enduring affair with literature. In fact, since the very beginning, literature has deeply influenced how Italian cinema has defined itself and grown. This book provides an empirical approach to this complex and fruitful relationship. The aim is to present discussions dealing with significant Italian film adaptations from literary materials which greatly exemplify the variety of styles, view-points, and attitudes produced by such an alliance, throughout the different periods. Among the adaptations discussed, are those that have followed trends and critical debates, making them, at times, rather problematic.

It's one of the most successful - and surprising - of phenomena in the entire crime fiction genre: detectives (and proto-detectives) solving crimes in earlier eras. There is now an army of historical sleuths operating from the mean streets of ancient Rome to the Cold War era of the 1950s. And this astonishingly varied offshoot of the crime genre, as well as keeping bookshop tills ringing, is winning a slew of awards, notably the prestigious CWA Historical Dagger. Barry Forshaw, one of the UK's leading experts on crime fiction, has written a lively, wide-ranging and immensely informed history of the genre, which might be said to have begun in earnest with Ellis Peters crime-solving monk Brother Cadfael in the 1970s and Umberto Eco's *The Name of the Rose* in 1980 (with another monkish detective), but which has now taken readers to virtually every era and locale in the past. As in earlier entries in his Noir series, Forshaw has produced the perfect reader's guide to a fascinating field; every major writer is considered, often through a concentration on one or two key books, and exciting new talents are highlighted. 'Historical Noir covers crime novels (and their authors) set in ancient Greece and beyond to the 1950s ... what a splendid, varied bunch Forshaw provides' - *Times* 'A very worthy addition to this great series' - *Crime Squad* Look out for the other books in Barry Forshaw's Noir series, *Euro Noir*, *Nordic Noir*, *Brit Noir* and *American Noir*, and for his latest book, *Crime Fiction: A Reader's Guide*.

This collection of essays examines the themes and styles that characterize the new millennium work of Italian film directors from different generations. These artists range from Marco Bellocchio, Dario Argento, Marco Tullio Giordana, and Nanni Moretti, who made their name in the 1960s and 1970s, to Oscar winners such as Gabriele Salvatores who forged their careers in the late 1980s. The volume also features essays on Cipri and Maresco, Emanuele Crialese, Cristina Comencini, as well as work on successful new millennium directors such as Paolo Sorrentino and Matteo Garrone whose controversial films examine the nature of interpersonal relations and the individual's rapport with Italian society today. The essays illustrate the way in which contrasting images of Italy and its provinces emerge in the work of different directors; what links new millennium Italian screen protagonists, film directors, and even individual spectators is often a sense of being at the centre of oppressively converging social, economic, and political forces and having diminishing opportunities and space for self-realization. The contributors to the volume are academics who have also worked as film critics, visual artists, film industry administrators, and, indeed, as film-makers, and the book's foreword has been written by Geoffrey Nowell-Smith.

In *Crossover Fiction*, Sandra L. Beckett explores the global trend of crossover literature and explains

how it is transforming literary canons, concepts of readership, the status of authors, the publishing industry, and bookselling practices. This study will have significant relevance across disciplines, as scholars in literary studies, media and cultural studies, visual arts, education, psychology, and sociology examine the increasingly blurred borderlines between adults and young people in contemporary society, notably with regard to their consumption of popular culture.

This book covers two lesser known but important members of the Italian Mafia: the 'Ndrangheta and the Sacra Corona Unita. Italian criminal organizations, in particular Mafia, are one of the most commonly researched organized crime groups, usually focusing on the Sicilian Mafia, Cosa Nostra, or the Neapolitan Mafia, Camorra. However, Italy has other two other Mafias, one in Apulia, Sacra Corona Unita, and the other in Calabria, 'Ndrangheta. Although an extensive literature is available on Cosa Nostra and Camorra, less is known about the other two organizations, particularly their operations in the United States. Territory is one of the most important elements in the Mafia because the criminal organization operates its signoria territoriale, controlling every illegal activity in its sphere of action. This territorial power goes beyond the Italian boundaries reaching the United States of America and other non-European countries, with the mere aim of developing their drug/weapon deals and money laundering businesses. Mafia, therefore, is not a uniquely Italian phenomenon as it might appear, but a worldwide phenomenon, affecting many societies and economies. This unique volume is its interest into a field as yet completely provides new information about the 'Ndrangheta and Sacra Corona Unita written by an interdisciplinary group of Italian scholars. It covers organizational, hierarchic, and operative aspects: that is, the role that they have in politics, in their own families, in business relations in Italy and abroad. It also highlights the particular role that Cosa Nostra and Camorra had in their development. This work will be of interest to criminology researchers studying organized crime, corruption, money laundering and trafficking, as well as researchers from related fields, such as political science, economics, and international relations.

This book is a collection of selected articles based on talks given by established academics and translators, as well as younger researchers, at the third postgraduate symposium organized by the School of Literature and Creative Writing at the University of East Anglia, UK. The objective of the third postgraduate translation symposium at the University of East Anglia was to explore the current relevance of theory to the practice of translation. This volume builds on the key ideas and discussion that arose from the symposium, bringing together, amongst others, the current debates concerning the complex relationship between theory and practice in the field of translation studies, taking into consideration a wide range of perspectives, both modern and traditional. A broad cross-section of research exploring the present relevance of translation theory to practice is presented by many of the individual contributors to this volume. These papers provide both current theoretical insights into the relevance of theory to translation and also, in some examples, offer first-hand experiences of applying appropriate strategies and methods to the practice and description of translation.

The bestselling author of *I'm Not Scared* "elegizes adolescence fiercely and sympathetically" in a novel that's "scary, lovely and at last a heartbreaker" (*Kirkus Reviews*). Lorenzo Cuni is a fourteen-year-old loner. His wealthy parents think he is away on a school skiing trip, but in fact he has stowed away in a forgotten cellar. For a week he plans to live in perfect isolation, keeping the adult world at bay. Then a visit from his estranged half-sister, Olivia, changes everything. Evoking the fierce intensity and the pulse-quickening creepiness of *I'm Not Scared*, Ammaniti's bestselling first novel, *Me and You* is a breathtaking tale of alienation, acceptance, and wanting to be loved by "a fearsomely gifted writer" (*The Independent*). "Immensely engaging . . . Both tender and emotionally arresting, Ammaniti's novel is unforgettable." —*Publishers Weekly*, starred review "Italian author Niccolò Ammaniti does a lot in 160 pages, including surprise, humor, and frighten you—sometimes simultaneously." —*Daily Candy* "Ammaniti's prose is nimble, perceptive and economical . . . There's a lot to love about this book—its reticent empathy, its delicate and pragmatic treatment of addiction, its remarkable use of restricted physical space." —*Full Stop* "Me and You takes a short time to read but offers a memorable experience in a mutual recognition of loneliness and grief." —*Curled Up With a Good Book* "Me And You, at just over one hundred pages . . . [is a] perfect book . . . Niccolò Ammaniti disgusts me for how talented he is . . . He has written a masterpiece." —Antonio D'Orrico, *Corriere della Sera*
