Iraq Oil & Gas Outlook - Amazon S3

Iraq holds abundant oil and gas resources and has strong solar PV potential. Its production to 2030 is set to be third largest contributor to global oil supply. By the same year, the government expects that renewable capacity will amount for 5% of the cou

Iraq - Countries & Regions - IEA

As oil production has soared, so has the amount of associated gas produced alongside. However the capacity to capture and process this gas has not kept pace. The inability to utilise its gas riches means that the country's gas deficit has grown, and Iraq now relies on imports from Iran to meet increasing demand.

Erbil Oil & Gas is opening its doors ! 6 th Erbil Oil & Gas Exhibition will take place in Erbil International Fair Ground between 22- 25 June 2020 as the foremost gas and oil exhibition of the region. This event will be allowing a huge number of industrialists dealing with unexplored oil and gas reserves and taking great advantages for investors in Northern region of Iraq.

6th erbil Oil Gas 22 - 25 June 2020

Iraqi oil production has surged after years of disorder. Iraq was the world's 5th largest oil producer in 2009, and has the world's fifth largest proven petroleum reserves. Just a fraction of Iraq's known fields are in development, and Iraq may be one of the few places left where vast reserves, proven and unknown, have barely been exploited.
