County Donegal Railways CDR Railcar No.1. 1906: built Allday & Onions as 10hp petrol engined inspection car; 1920: rebuilt to seat 10, 22hp petrol engine

Ken Lennan attempts to classify known Irish railway signs etc. Irish Railwayana These web pages cover Irish railway memorabilia (for US visitors - railroadiana), with information on the existence of brass, enamel and cast iron signs, plus photos or sketches, where available.

Paul Stevenson has started an email list for modellers of Irish and Manx narrow gauge railways in 15mm to the foot or 1:20.3 scale, on 45mm gauge track. (With sixteen new members in the first day, it looks like he may have struck a chord with some of us!)

She was out of use by the 1960s and was sold to the Hampshire Narrow Gauge Railway Society in 1970 for £60. She was stripped of parts including the boiler, the remains passed to Alan Keef Ltd. In 1988 the Irish Narrow Gauge Trust located its remains and negotiated the purchase of the loco and commissioned Alan Keef to rebuild the engine.

Irish railwayana/railroadiana classification

With the Giants Causeway line having gone non-steam as well, it's been a bit backwards for Irish narrow gauge. At least the C&L and West Clare have some good recent developments. Sent from my Pixel 3a using Tapatalk

Narrow gauge. Numerous narrow-gauge systems were built, usually as three foot gauge railways (3 ft or 914 mm). Most are now closed, including one of the largest narrow-gauge systems, that of the County Donegal Railways Joint Committee. The Irish narrow gauge today survives as heritage railways in both the Republic and in Northern Ireland.

Co Donegal once had marvellously intricate narrow-gauge railways. At 225 miles long, it was the longest narrow-gauge system in these islands, a true marvel of railway engineering. By the end of 1959, the last sections of the system had closed. The first lines in the county opened in 1863 and 1864, including Strabane to Stranorlar.
