The American Girl's Handy Book was one of the earliest works written primarily for girls' amusement and enjoyment. It introduced original and novel ideas to open new routes for enterprise and entertainment for girls. The main goal was to engrave upon the girls' minds that they all have talent and

the ability to achieve more than what they think is possible. During the time of this book's publication, it was unusual to promote girls to be inventive. But the writer desired to awaken this creative side in them by giving detailed methods of new tasks and amusements, to put them on the road they could travel and explore alone. Anyone curious about knowing the initiatives taken for girls' empowerment in the olden days will find this work beneficial.

My First Book of Japanese Words is a beautifully illustrated book that introduces young children to Japanese language and culture through everyday words. The words profiled in this book are all commonly used in the Japanese language and are both informative and fun for English-speaking children to learn. The goals of My First Book of Japanese Words are multiple: to familiarize children with the sounds and structure of Japanese speech, to introduce core elements of Japanese culture, to illustrate the ways in which languages differ in their treatment of everyday sounds and to show how, through cultural importation, a single word can be shared between languages. Both teachers and parents will welcome the book's cultural and linguistic notes and appreciate how the book is organized in a familiar ABC structure. Each word is presented in Kanji (when applicable), Kana, and Romanized form (Romaji). With the help of this book, we hope more children (and adults) will soon be a part of the 125 million people worldwide that speak Japanese!

The soaring peaks of the greatest mountain range on Earth have long drawn visitors from around the globe, and one of the most famous of the 19th century was British adventurer and scholar Laurence Waddell, who spent most of a decade and a half exploring the nations that cling to the sides of the mighty mountains, learning the ways of their peoples, and sharing his experiences with Western readers. Here, in this 1899 classic of Himalayan travel, Waddell introduces us to the challenges of traveling in the region, takes us on visits to Nepalese and Tibetan tea gardens, journeys to monas-

teries, palaces, and temples, and much more. Beautiful photos and drawings complement Waddell's exciting and gripping tales—he offers some of the first "evidence" for the mysterious creatures known as "yeti," for instance—and make this an essential work for anyone drawn to the dangerous beauty of the Himalayas. British archaeologist and Orientalist LAURENCE AUSTINE WADDELL (1854-1938) also wrote *The Buddhism of Tibet or Lamaism* (1894) and *Lhasa and Its Mysteries* (1905).

****Independent Publisher Book Award (IPPY) Winner**** ****Middle School Book of the Year-- Northern Lights Book Awards**** ****Skipping Stones Honor Award Winner**** For the first time, middle readers can learn the complete story of the courageous girl whose life, which ended through the effects of war, inspired a worldwide call for peace. In this book, author Sue DiCicco and Sadako's older brother Masahiro tell her complete story in English for the first time--how Sadako's courage throughout her illness inspired family and friends, and how she became a symbol of all people, especially children, who suffer from the impact of war. Her life and her death carry a message: we must have a whole-hearted desire for peace and be willing to work together to achieve it. Sadako Sasaki was two years old when the atomic bomb was dropped on her city of Hiroshima at the end of World War II. Ten years later, just as life was starting to feel almost normal again, this athletic and enthusiastic girl was fighting a war of a different kind. One of many children affected by the bomb, she had contracted leukemia. Patient and determined, Sadako set herself the task of folding 1000 paper cranes in the hope that her wish to be made well again would be granted. Illustrations and personal family photos give a glimpse into Sadako's life and the horrors of war. Proceeds from this book are shared equally between The Sadako Legacy NPO and The Peace Crane Project.

These early years are the most crucial when children are curious about the world around them, but are also quick to form stereotypes and biases that can become deeply ingrained as they grow older. These are the people who are going to inherit this world, and we owe it to them to lay a strong foundation for the next phases of their lives. *Wish We Knew What to Say* is a timely and urgent book that gives scenarios, questions, thought starters, resources and advice in an accessible manner on how to tackle tricky conversations around race and racism with confidence and awareness. It brings in the science of how children perceive race and form racial identity, combining it with personal stories and experiences to create a handy guide that every parent would refer to again and again. Written by behavioural and data scientist, Dr Pragya Agarwal, *Wish We Knew What to Say* will help all parents, carers and educators give children the tools and vocabulary to talk about people's differences and similarities in an open, non-judgemental, curious way, and help them address any unfairness they might see or encounter.
