Mark McCourt is a global authority on the mastery model, one of the most powerful and proven models of schooling

The new edition of this bestselling book provides an accessible guide to a wide range of research evidence about teaching and learning mathematics. --

Vocabulary has to be the single most important aspect of a modern curriculum. Explicit and engaging vocabulary teaching has the power to promote independence in learners, ignite imaginations, deliver understanding and raise education standards in schools. From the creator of the Vocabulary Ninja website and app comes an essential toolkit of strategies and resources to supercharge primary pupils and transform them into vocabulary ninjas! With a focus on English and rich language banks associated with genres and topics, the ideas for reading and writing can be applied to any National Curriculum area and are perfect for modelling and scaffolding writing. This practical guide also features theory, teaching approaches and photocopiable activities, as well as vocabulary, etymology and phrases to bring the primary curriculum to life. If you're searching for an exciting and captivating approach to bring vocabulary into the primary classroom and see a significant impact on pupil confidence, oracy and academic out-

comes, look no further than Vocabulary Ninja.

matic way of assessing maths in your school.

A study book for Year 5 Maths students, with study notes covering Year 5 topics. It includes colourful pictures and is suitable for key stage two children.

The format of Mental Arithmetic differs from that of traditional mental arithmetic materials in that pupils read the questions themselves, use rough paper for workings out, and write down their answers. It provides intensive practice in all areas of the maths curriculum.
