Students preparing to take the Medical College Admission Test will value this set of flash cards as they brush up on questions typical of those that appear on the actual MCAT. The cards—with questions or concepts on the front and answers or concept explanations on the reverse sides—are divided into four sections: General Chemistry, Organic Chemistry, Physics, and Biology. Cards measure 4 1/2" by 2 3/4", and have a hole in one corner to accommodate a metal key-ring-style card holder that is included with the cards. The ring allows students to arrange the flash cards for study sessions in any sequence that suits their needs. These flash cards make excellent study aids when used alone, but are even more effective when used in tandem with Barron's MCAT test preparation manual.

Davidson's Assessment in Medicine is a collection of 1250 best-of-five multiple choice questions, arranged to correspond with the chapters of the Twenty-third Edition of Davidson's Principles and Practice. The questions follow the style used in many international undergraduate and early postgraduate exams. For each question the answers are accompanied by a short piece of remediation/ feedback with references back to the main textbook for further information. This book is an excellent broad assessment text and forms a highly useful complement to the main textbook. It will help students increase the efficiency with which they acquire the factual knowledge necessary for both passing examinations and good medical practice. Although written to accompany Davidson's Principles and Practice of Medicine, this book can be used alongside any clinical medicine textbook. 1250 best-of-five multiple choice questions with detailed answers and remediation feedback. Closely linked to the world-renowned Davidson's Principles and Practice of Medicine textbook.

This edited monograph provides a compelling analysis of the interplay between neuroscience and aesthetics. The book broaches a wide spectrum of topics including, but not limited to, mathematics and creator algorithms, neurosciences of artistic creativity, paintings and dynamical systems as well as computational research for architecture. The international authorship is genuinely interdisciplinary and the target audience primarily comprises readers interested in transdisciplinary research between neuroscience and the broad field of aesthetics.

The MCAT is changing in 2015. With the addition of three semesters' worth of material, more advanced critical thinking skills, a longer duration, and changes in Behavioral Sciences content, the

new exam requires even more diligent prep with resources from Kaplan Test Prep. If you are taking the MCAT by January 23, 2015, and need advanced prep, this is your book. This book has intensive practice for each test section of the MCAT for the high-achieving student aiming to score in the top percentiles. Less than 40% of students who apply to medical school get accepted, and top medical schools routinely accept less than 10%. A student's MCAT score is one of the most important factors considered by the medical school admissions committee. Competitive students seeking admission to top medical schools need high MCAT scores—and, therefore, the most intensive MCAT practice available. Kaplan's MCAT 45 features the toughest practice, strongest strategies, and the hardest questions on the MCAT. Kaplan's MCAT 45 features: Strategies for scoring high on the current MCAT The hardest practice sets for each MCAT subject Detailed answer explanations Focused guidelines for tackling each question type Time-saving study outlines for each subject Proven strategies for getting a high score If you are studying for the new MCAT, launching on April 17, 2015, and want advanced material you should prep with Kaplan's MCAT 528: Advanced Prep for Advanced Students, on sale now.
