Morality is one of the fundamental structures of any society, enabling complex groups to form, negotiate their internal differences and persist through time. In the first book-length study of Roman popular morality, Dr Morgan argues that we can recover much of the moral thinking of people across the Empire. Her study draws on proverbs, fables, exemplary stories and gnomic quotations, to explore how morality worked as a system for Roman society as a whole and in individual lives. She examines the range of ideas and practices and their relative importance, as well as questions of authority and the relationship with high philosophy and the ethical vocabulary of documents and inscriptions. The Roman Empire incorporated numerous overlapping groups, whose ideas varied according to social status, geography, gender and many other factors. Nevertheless it could and did hold together as an ethical community, which was a significant factor in its socio-political success.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. His death in 1839 found the frontiers of Sikh and British power in confrontation; in the 1840s the inevitable trial of strength brought British crown and East India Company troops into battle against the most formidable Indian army they ever faced. Its story is told here in fascinating detail, illustrated with rare early paintings and with colourful reconstructions of Punjabi regular soldiers and feudal warriors.
