

### KS3 Science - BBC Bitesize

Key stage 3 science resources Develop your students' scientific understanding and build up their skills for working scientifically. Our resources include ideas for practical investigations, class exercises, worksheets and games.

### KS3 Science Resources | Secondary Science | Beyond

Key Stage 3 is the first three years of secondary school education in England, Wales and Northern Ireland, for pupils aged 11 to 14.

Our new KS3 Science Syllabus organises the big ideas and topics of the programme of study into clear objectives. It outlines what your students need to know, what they must be able to apply and how to extend that knowledge where appropriate. The syllabus is easy to use. Just like a specification, it lays out clearly the key requirements.

Science is study of how the world goes around - from the smallest bug to the largest solar system. Our teachers write quizzes that make it a joy for you to learn KS3 Science in Years 7, 8 and 9. Amongst other subjects you will find Acid, Atoms, Energy, Food, Health, Light, Speed and Reproduction

#### Science | CCEA

AIMS AND PURPOSES OF SCIENCE. The principal focus of science teaching in the national curriculum at key stage 3 is to develop a deeper understanding of a range of scientific ideas in the subject disciplines of biology, chemistry and physics. Pupils should begin to see the connections between these subject areas and become aware of some of the big ideas underpinning scientific knowledge and understanding.
