### Projective Drawings: Administration Instructions

The Kinetic-House-Tree-Person (KHTP) drawing test is widely used by psychiatric occupational therapists in Taiwan; however, very little support has been provided through studies examining its psychometric properties. The aim of the study is to validate a scoring system for the KHTP on a group of people with psychiatric disorders.

### Visual Patterns: Draw a House-Tree-Person | Psychology Today

The actual art therapy drawing technique of House-Tree-Person starts with three pieces of white paper. The art therapist would then direct the client to draw a house on one piece of paper, then a tree on the second piece of paper, and finally a person on the third sheet of paper.

This Kinetic House, Tree Person takes a little getting use to. Yet, once I practiced with the technique, it rendered more projective information about the person than the original HTP by John Buck. I love the action-oriented approach, and so do my clients. A great tool in a practitioner's arsenal.
