 \_\_\_\_\_ 'You do not leave a sick child alone to face the dark and you do not leave a child at a time like this.' Warsaw, 1940. The Jewish ghetto is under the Nazis' brutal control. Hundreds of thousands of men, women and children slowly starve within the walls. But while all around is darkness, one man brings hope, caring for the ever-increasing number of destitute orphans in the face of unimaginable conditions. And, torn apart as the noose tightens around the ghetto, how will one young couple's love survive the terrible tests of wartime? Half a million people lived in the Warsaw ghetto. Less than one percent survived to tell their story. This novel is based on the true accounts of Misha and Sophia, and on the life of one of Poland's greatest men, Dr Janusz Korczak. Janusz Korczak was an author, radio personality, teacher, and doctor. But above all else he was a hero. As the beloved director of a Jewish orphanage in Warsaw, Poland, during the years of the Nazi Party's rise to power, he cared for hundreds of children. They loved him as a father and affectionately called him their "Old Doctor." Korczak could not save his children, but even in the darkest days of the Warsaw ghetto, he strove to protect them. Fianlly, forced to lead his orphans from the ghetto to the Treblinka death camp, Korczak remained with them to the end. This moving account of Janusz Korczak's life provides a powerful introduction to the tragedies of the Holocaust, but also highlights a remarkable story of courage in its midst.

Kaytek is surprised to learn that he can perform magic and change reality, but when his magic results in chaos, he roams the world searching for a higher purpose for his abilities.

The huge number of victims of the Holocaust is emotionally incomprehensible. The real horror can only be apprehended on the individual level. In the case of the Holocaust, many such records exist, since, as Ruth Wisse has observed, "many of the

Jews in the ghettos and concentration camps . . . showed more concern for preserving a record of the incredible event they were witnessing than for their own survival." The studies presented in this volume survey this evidence--diaries, letters, oral histories, ghetto chronicles, rabbinic works, collections of photographs, songs--that originated in Warsaw, Lodz, Vilna, Auschwitz, and elsewhere. Together these documents allow us to gain some inkling of the experience of those who suffered in the ghettos and concentration camps--without the coloration and rethinkings of later recollections.

Winnie Foster is in the woods, thinking of running away from home, when she sees a boy drinking from a spring. Winnie wants a drink too, but before she can take a sip, she is kidnapped by the boy, Jesse Tuck, and his family. She learns that the Tuck family are blessed with - or doomed to - eternal life since drinking from the spring, and they wander from place to place trying to live as inconspicuously as they can. Now Winnie knows their secret. But what does immortality really mean? And can the Tucks help her understand before it's too late?A beautiful new hardcover gift edition of the unforgettable classic of children's writing about what it truly means to live forever

Warsaw, Poland, 1939. My mother and father named me Aron, but my father said they should have named me What Have You Done or What Were You Thinking. Aron is a nine-year-old Polish Jew, and a troublemaker. As the walls go up around the ghetto in Warsaw, as the lice and typhus rage, food is stolen and even Jewish police betray their people, Aron smuggles from the other side to survive. In a place where no one thinks of anyone but himself, the only exception is Doctor Korczak; children's rights activist and embattled orphanage director. They call the Doctor a hero. Aron is not a hero. He is not special or selfless or spirited. He is ordinary. He is willing to do what the Doctor will not.

A child king introduces reforms to give children the same rights as adults.

How to Love a Child and Other Selected Works is the first comprehensive collection

of Korczak's works translated into English. It contains his most important pedagogical writings, journal articles, as well as private texts. Volume 2 starts with extensive excerpts from two pedagogical treatises written for young readers. These are: Rules of Life, which explains the intricacies of human relationships and Humorous Pedagogy, reflections on everyday issues (disagreements, exaggerated demands) as well as the big questions of life, conveyed in a fun and approachable style. Next follows a selection of journal articles written by Korczak over a 40 year period. These articles, aimed at adults as well as children, have been published in pedagogical, social, and academic journals, and present a wide gamut of topics: from social problems, pediatrics, developmental psychology and special pedagogy, to child and childhood studies. This is followed by a collection of unpublished writing including private letters exchanged between him and his former wards, appeals and proclamations written during the early part of World War Two, his subtle but poignant sketches, as well as reports describing the harsh life of children in the ghetto. The final part of the volume is his diary - a unique documenting of Korczak's last weeks of life. Korczak's writing is characterized by uncompromising views, acute observations, subtle reflection, and, above all, love for children. All written in his distinctive style combining poetic metaphor with pedagogical reflection, a lofty turn of phrase with the mundanity of everyday life and humor with scholarly rigor.

For many of us, our earliest and most meaningful experiences with literature occur through the medium of a translated children's book. This volume focuses on the complex interplay that happens between text and context when works of children's literature are translated: what contexts of production and reception account for how translated children's books come to be made and read as they are? How are translated children's books adapted to suit the context of a new culture? Spanning the disciplines of Children's Literature Studies and Translation Studies, this book brings together established and emerging

voices to provide an overview of the analytical, empirical and geographic richness of current research in this field and to identify and reflect on common insights, analytical perspectives and trajectories for future interdisciplinary research. This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children's Literature Studies and related disciplines. It has a broad geographic and cultural scope, with contributions dealing with translated children's literature in the United Kingdom, the United States, Ireland, Spain, France, Brazil, Poland, Slovenia, Hungary, China, the former Yugoslavia, Sweden, Germany, and Belgium.

Offers the true story of Janusz Korczak, a writer and doctor, who established an orphanage for Jewish children in 1912 and, even in the most challenging times when living under Nazi rule, provided those in his care with the ideas, knowledge, and love they would need to grow into self-respecting adults.

"Korczak's words resonate across the years and have amazing modern-day relevance."—Jim Harding, director of the National Society for the Prevention of Cruelty to Children Born in Poland in 1878, educator, physician, and legendary child advocate Janusz Korczak believed that simply understanding children is the key to being able to take care of them. It's a basic premise too often overlooked. This collection of one hundred quotations and passages from Korczak's writings provides valuable advice on how to take care of, respect, and love every child. In an inviting gift-book format, this is a heartfelt and helpful reminder of who we were as children and who we might become as parents.

From National Book Award Finalist Albert Marrin comes the moving story of Janusz Korczak, the heroic Polish Jewish doctor who devoted his life to children, perishing with them in the Holocaust. Janusz Korczak was more than a good doctor. He was a hero. The Dr. Spock of his day, he established orphanages run on his principle of honoring children and shared his ideas with the public in books and on the radio. He famously said that "children are not the people of tomorrow, but people today." Korczak was a man ahead of his time, whose work ultimately became the basis for the U.N. Declaration of the Rights of the Child. Korczak was also a Polish Jew on the eve of World War II. He turned down multiple opportunities for escape, standing by the children in his orphanage as they became confined to the Warsaw Ghetto. Dressing them in their Sabbath finest, he led their march to the trains and ultimately perished with his children in Treblinka. But this book is much more than a biography. In it, renowned nonfiction master Albert Marrin examines not just Janusz Korczak's life but his ideology of children: that children are valuable in and of themselves, as individuals. He contrasts this with Adolf Hitler's life and his ideology of children: that children are nothing more than tools of the state. And throughout, Marrin draws readers into the Warsaw Ghetto. What it was like. How it was run. How Jews within and Poles without responded. Who worked to save lives and who tried to enrich themselves on other people's suffering. And how one man came to represent the conscience and the soul of humanity. Filled with black-and-white photographs, this is an unforgettable portrait of a man whose compassion in even the darkest hours reminds us what is possible.

This book investigates major linguistic transformations in the translation of children's literature, focusing on the English-language translations of Janusz Korczak, a Polish-Jewish children's writer known for his innovative pedagogical methods as the head of a Warsaw orphanage for Jewish children in pre-war Poland. The author outlines fourteen tendencies in translated children's literature, including mitigation, simplification, stylization, hyperbolization, cultural assimilation and fairytailization, in order to analyse various translations of *King Matt the First*, *Big Business Billy* and *Kaytek the Wizard*. The author then addresses the translators' treatment of racial issues based on the socio-cultural context. The book will be of use to students and researchers in the field of translation studies, and researchers interested in children's literature or Janusz Korczak.

'*King Matthew the First*' is firmly established in the canon of world classics for children. Written in 1922, this children's novel tells the adventures of a ten-year-old prince who suddenly inherits the throne from his father. At first the boy submits himself to old royal customs and to the influence of the incumbent ministers. However, he soon decides to prove to the world and to himself his independence and courage, reaching out to standards repeatedly set by his heroic ancestry. So, when war breaks out, with his friend Felix, Matthew disguises himself as a common soldier and joins the fight. The life at the front teaches him humility, resolve, emotional self-control, resourcefulness and the price of true friendship. After a triumphant return from the war, Matthew feels that has already acquired enough experience and wisdom to break free from the control of his mentors and advisors and...to govern. He chooses his allies and friends, including King Bum-Drum. In his dream of a fair state, he introduces many bold reforms. Yet, he commits the unfortunate mistake of bringing to life a governing assembly run by adults and children with equal prerogatives. This too far-reaching reform unites his enemies and weakens his country. Foreign powers take advantage of the situation and attack King Matthew's kingdom. This time, despite a brave defense, Matthew is defeated and judged. He is sentenced to death, but the punishment is mitigated at the last minute and turned in-

to an exile on a desert island. 'Little King Matthew' is one of the most famous children's novels in the world. It has been translated into dozens of languages and repeatedly adapted for movies. This limited series edition has been created in memory of the prestigious Polish publication from 1955, which was illustrated by George Srokowski—one of the best Polish graphic artists of the twentieth century. The author of this Polish novel, Janusz Korczak (the pen name of Henryk Goldszmit, 1878-1942), is a prominent Polish-Jewish writer. He was famous not only for his novels—he was also a pediatrician, educator and social activist. He became famous as a theoretician and practitioner in the field of Education. He was the inventor of an original system of working with children, which was based on partnership, self-governing institutions and procedures, and the promotion of self-education. As a researcher delving in the child's world, he pioneered the development of educational diagnostic activities and became a precursor of children's rights. Janusz Korczak was a co-founder and director of the orphanage for Jewish children in Warsaw (1912-1942) which was moved in 1940 to the Warsaw Ghetto. Until the last moment, he remained with the orphans. He died a martyr's death in the Treblinka extermination camp.

High Quality Content by WIKIPEDIA articles! King Matt the First (Polish: *Król Maciuś Pierwszy*) is a children's novel by Polish author, physician, and child pedagogue Janusz Korczak. In addition to telling the story of a young king's adventures, it describes many social reforms, particularly targeting children, some of which Korczak enacted in his own orphanage, and is a thinly veiled allegory of contemporary and historical events in Poland. The book has been described as being as popular in Poland as *Peter Pan* was in the English-speaking world. As of 2010, it is the only one of Korczak's novels to have been translated into English, although several of his pedagogical works have also been translated.

This is the tragic story of Janusz Korczak (as featured in the major motion picture *The Zookeeper's Wife*) who chose to perish in Treblinka rather than abandon the Jewish orphans in his care. Korczak comes alive in this acclaimed biography by Betty Jean Lifton as the first known advocate of children's rights in Poland, and the man known as a savior of hundreds of orphans in the Warsaw ghetto. A pediatrician, educator, and Polish Jew, Janusz Korczak introduced progressive orphanages, serving both Jewish and Catholic children, in Warsaw. Determined to shield children from

the injustices of the adult world, he built orphanages into 'just communities' complete with parliaments and courts. Korczak also founded the first national children's newspaper, testified on behalf of children in juvenile courts, and, through his writings, provided teachers and parents with a moral education. Known throughout Europe as a Pied Piper of destitute children prior to the onslaught of World War II, he assumed legendary status when on August 6, 1942, after refusing offers for his own safety, he defiantly led the orphans under his care in the Warsaw Ghetto to the trains that would take them to Treblinka. Introductions by Elie Wiesel, Curren Warf and Allison A. Eddy [Subject: Biography, Holocaust Studies, Jewish Studies, WWII, Children's Rights]

*The Man Who Knew How to Love Children* tells the story of young Itzchak Belfer, the author and artist, at a joyful and pleasant orphanage. It was a beautiful big four story building, and it had a great hall for performances and a black grand piano. There was no other house like it anywhere in the world. It was the children's empire. They had daily duties and chores, and yet enjoyed great freedom to decide and adjust the rules. Belfer is one of three living children from the famous Janusz Korczak orphanage in Warsaw, Poland. He allows us a rare glimpse into Korczak's innovative liberal methods of thinking and education, over a hundred years ago, by describing his daily life, the house arrangements, and the way conflicts were resolved. No doubt, Korczak's great personality and attitude during the most crucial eight years of Belfer's childhood had a powerful effect throughout his life, which radiates from his loving voice and all the colors of his description. During World War II, after the Nazis conquered Warsaw, Belfer escaped through the woods to Russia, and remains the only survivor of his family, who all perished in the Holocaust. Belfer realized his dream to leave Europe, establish a family and settle in Israel. Korczak, the legendary Polish pediatrician, author and educator, was murdered in 1942 by the Nazis when he refused to save himself and abandon his Jewish students. He was not able to betray his entire doctrine and life work, and desert his students. Instead, he marched with them, walking tall, into the Treblinka incinerators. Korczak is known as one of the pioneers of current multiple pedagogical streams. He truly understood children, loved them and had a revolutionary approach toward children. Teachers all over the world have adopted his ideas and practice.

The act of imagining lies at the very heart of children's engagements with literature

and with the plots and characters they encounter in their favorite stories. *The Courage to Imagine* is a landmark new study of that fundamental act of imagining. Roni Natov focuses on the ways in which children's imaginative engagement with the child hero figure can open them up to other people's experiences, developing empathy across lines of race, gender and sexuality, as well as helping them to confront and handle traumatic experience safely. Drawing on a wide range of theoretical approaches from the psychological to the cultural and reading a multicultural spectrum of authors, including works by Maya Angelou, Louise Erdrich, Neil Gaiman and Brian Selznick, this is a groundbreaking examination of the nature of imagining for children and re-imagining for the adult writer and illustrator.

A must-read for parents, new teachers, and classroom veterans, *Educating Esmé* is the exuberant diary of Esmé Raji Codell's first year teaching in a Chicago public school. Fresh-mouthed and free-spirited, the irrepressible Madame Esmé—as she prefers to be called—does the cha-cha during multiplication tables, roller-skates down the hallways, and puts on rousing performances with at-risk students in the library. Her diary opens a window into a real-life classroom from a teacher's perspective. While battling bureaucrats, gang members, abusive parents, and her own insecurities, this gifted young woman reveals what it takes to be an exceptional teacher. Heroine to thousands of parents and educators, Esmé now shares more of her ingenious and yet down-to-earth approaches to the classroom in a supplementary guide to help new teachers hit the ground running. As relevant and iconoclastic as when it was first published, *Educating Esmé* is a classic, as is Madame Esmé herself.

"This moving fable follows the adventures of Matt who becomes king when just a child and decides to reform his country according to his own priorities. Ignoring his grown-up ministers, he decrees that children should be given chocolate every day and builds the best zoo in the world. He fights in battles, braves the jungle, and crosses the desert, but perhaps the most life-altering thing of all is that the lonely boy king finds true friends. This timeless book shows us not only what children's literature can be, but what children can be." In the years between WWI and WWII, young Henryk Goldszmidt dreamed of creating a better world for children. As an adult, using the pen name Janusz Korczak,

he became a writer, doctor, and an enlightened leader in the field of education, unaware to what use his skills were destined to be put. Dr. Korczak established a Jewish orphanage in Warsaw where he introduced the world to his progressive ideas in child development and children's rights. When the Nazis occupy Warsaw, the orphanage is moved to the ghetto, and when the 200 children in his care are deported, Dr. Korczak famously refuses to be saved, marching with his charges to the train that will take them to their deaths. This biography of Janusz Korczak is a chapter book for elementary school readers and has full color illustrations

Young Matt learns that it's not easy to be king, but his innate abilities take him far! Matt was just ten years old when he had to ascend the throne and become king after his father's death. He discovered that being a king is not as much fun as one might think, with many restrictions that prevented him from being like other children, finding friends, and just playing. When three kings declare war on his kingdom, he decides to fight them and, although not an adult and perhaps because of this, he manages to make peace using his good nature and human compassion. King Matt shows us just how right Janusz Korczak was to believe in children! King Matt the First was originally written by Dr. Janusz Korczak, whose educational doctrine was belief in the power of children, as reflected in King Matt's thoughts and deeds. Artist Itzhak Belfer adapted and illustrated it to suit young children and to expose them to one of the most beloved works of 20th century literature. This approach provides a comprehensive discussion of the selected works from a variety of theoretical perspectives. The twentieth century left humanity in despair. Two World Wars caused the death of more than seventy million people. The Holocaust of the Jews and genocide against other groups left us the images of factories of death and names of unimaginable cruelty. Humanity learned about its unlimited ability to inflict suffering and death. Hell appeared as a human-made reality. Two educators, the Polish-Jewish educator and children's rights advocate Janusz Korczak (murdered in Treblinka in 1942), and Yitzhak Katzenelson, a Bible teacher, dramatist and a poet (murdered in Auschwitz in 1944), shared the same historical reality but responded in very different ways. A comparative study of their legacies leads explores questions of identity, leadership, and the educators' role in the face of totalitarianism, terror and genocide. The book may appeal to teachers in all disciplines who deal with their identity as educators, and to historians and civic rights activists in any society, culture or nationality.

November 1940. A circus parade walks through the streets of Warsaw, waving a flag and singing. They are 160 Jewish children, forced by the Nazis to leave their beloved orphanage. It's a sad occasion, but led by Doctor Korczak, their inspirational director, the children are defiantly joyful.

The Lost Mirror traces cultural patterns in which the interpretation of learning and education was developed against the backdrop of Hebrew thought. The appreciation of learning is deeply rooted in the Hebrew way of thinking. Learning is understood as an open and history-conscious engagement of man with culture. The consciousness of history is shaped by the motif of the unavailability of the "other" and the difference to this "other". This "other" is

traditionally remembered as "God", but may also be reflected in the motifs of the other person or the other society. The lost Mirror reminds us of a deficit, which is that in our everyday thinking and everyday action, we usually hide, forget and partly suppress the meaning and presence of the unavailable other. The book approaches this thinking through portraits of people such as Hannah Arendt, Leo Baeck, Walter Benjamin, Agnes Heller, Emanuel Levinas and others.

These two works belong to that group of books written by one of this century's fiercest and most devoted child advocates. In the first, Korczak uses fiction to reveal the joys and sorrows of a child, a ten-year-old, juxtaposing them against the feelings of an adult as they both react to two days of adventure spent together. Two prominent themes in his writing are the exploration of the place of children in an adult world and the examination of the treatment and regard children are accorded in that world. In his second book, Korczak spells out his 'Magna Charta Libertatis' in defense of the child's right to respect, right to be him or herself, and, most importantly, right to respect for the strenuous effort expended in the process of 'growing up.'

Winner of the Montreal Jewish Public Library's J. I. Segal Prize Originally published in 1991. In the eighteenth century, more than half of the world's Jewish population lived in Polish private villages and towns owned by magnate-aristocrats. Furthermore, roughly half of Poland's entire urban population was Jewish. Thus, the study of Jews in private Polish towns is central to both Jewish history and to the history of Poland-Lithuania. The Jews in a Polish Private Town seeks to investigate the social, economic, and political history of Jews in Opatów, a private Polish town, in the context of an increasing power and influence of private towns at the expense of the Polish crown and gentry in the eighteenth century. Hundert recovers an important community from historical obscurity by providing a balanced perspective on the Jewish experience in the Polish Commonwealth and by describing the special dimensions of Jewish life in a private town.

Peter is excited to be going to forest school with Benjamin Bunny, they can't wait to learn all about the woodland they live in. But when he learns that his sisters won't be there, the little bunny gets nervous. Luckily Mrs. Rabbit is there to reassure him and hold his paw on the first day. With new, humorous illustrations of Beatrix Potter's well-loved characters, this reassuring tale mirrors young children's early

experiences. This book is a perfect gift for children to prepare for their first days at school or nursery.
