Makes the case for a distinctly Sicilian American literature. In *The Heart and the Island*, Chiara Mazzucchelli explores the strong bond between Sicilian American writers and the island of Sicily. Self-contained yet connected to the mainland, geographically separated from yet politically united to the rest of Italy, Sicily occupies a unique position. Throughout the twentieth century, the sense of a distinct *sicilianità*—or *Sicilianness*—has manifested itself in a corpus of texts that, although subsumed under the broader context of Italian literature, have distinguished themselves as examples of an exquisitely Sicilian literary experience. Mazzucchelli argues that a parallel phenomenon—*sicilianamericanità*—has emerged in the United States. Focusing on the island’s geography, history, and culture, she examines how many American authors of Sicilian descent derive inspiration from their ethnic milieu and lay out a recognizable set of Sicilian culture markers in their works, thereby producing a literature that is distinctly Sicilian American. Drawing on both Italian and Italian American scholarship, *The Heart and the Island* is the first full-length study of Sicilian American literature, and it opens a space for new interdisciplinary discussions on what it means to be Italian on both sides of the ocean. —*The Heart and the Island* makes a distinctive contribution to the field of Italian American studies, provocatively extending it as well as continuing the invaluable work of providing reflection on a variety of narratives distinguished by generic innovation and distinctive responses to *sicilianità*. Chiara Mazzucchelli has beautifully advanced the field, interweaving with skill and poise the voices of Sicilian and Sicilian American writers. — Mary Jo Bona, author of *By the Breath of Their Mouths: Narratives of Resistance in Italian America*

This book comprehensively covers the history of Italian crime fiction from its origins to the present. Using the concept of "moral rebellion," the author examines the ways in which Italian crime fiction has articulated the country's social and political changes. The book concentrates on such writers as Augusto de Angelis (1888-1944), Giorgio Scerbanenco (1911-1969), Leonardo Sciascia (1921-1989), Andrea Camilleri (b. 1925), Lorian Macchiavelli (b. 1934), Massimo Carlotto (b. 1956), and Marcello Fois (b. 1960). Through the analysis of writers belonging to differing crucial periods of Italy's history, this work reveals the many ways in which authors exploit the genre to reflect social transformation and dysfunction.

Montalbano's First Case and Other Stories is a brilliant collection of short stories, personally chosen by Andrea Camilleri. It follows Inspector Montalbano from his very first case in Vigàta, in which he stumbles upon a young girl lurking outside a courthouse with a pistol in her handbag. When she is taken in for questioning and won't utter a single word, Montalbano must find another way to learn who she is trying to kill, and why . . . Other cases include a missing woman who has run away from the love of her life; an old married couple who appear to be rehearsing their suicides; and a crime so dark there's only one person the inspector can call for help. With twists and turns aplenty, these

short stories have all the wit, mystery and culinary gusto that Camilleri's fans have come to love him for.

The Cambridge Companion to the Italian Novel provides a broad ranging introduction to the major trends in the development of the Italian novel from its early modern origin to the contemporary era. Contributions cover a wide range of topics including the theory of the novel in Italy, the historical novel, realism, modernism, postmodernism, neorealism, and film and the novel. The contributors are distinguished scholars from the United Kingdom, the United States, Italy, and Australia. Novelists examined include some of the most influential and important of the twentieth century inside and outside Italy: Luigi Pirandello, Primo Levi, Umberto Eco and Italo Calvino. This is a unique examination of the Italian Novel, and will prove invaluable to students and specialists alike. Readers will gain a keen sense of the vitality of the Italian novel throughout its history and a clear picture of the debates and criticism that have surrounded its development.

The present volume is the first study in the English language to focus specifically on Italian crime fiction, weaving together a historical perspective and a thematic approach, with a particular focus on the representation of space, especially city space, gender, and the tradition of impegno, the social and political engagement which characterised the Italian cultural and literary scene in the post-war period. The 8 chapters in this volume explore the distinctive features of the Italian tradition from the 1930s to the present, by focusing on a wide range of detective and crime novels by selected Italian writers, some of whom have an established international reputation, such as C. E. Gadda, L. Sciascia and U. Eco, whilst others may be relatively unknown, such as the new generation of crime writers of the Bologna school and Italian women crime writers. Each chapter examines a specific period, movement or group of writers, as well as engaging with broader debates over the contribution crime fiction makes more generally to contemporary Italian and European culture. The editor and contributors of this volume argue strongly in favour of reinstating crime fiction within the canon of Italian modern literature by presenting this once marginalised literary genre as a body of works which, when viewed without the artificial distinction between high and popular literature, shows a remarkable insight into Italy's postwar history, tracking its societal and political troubles and changes as well as often also engaging with metaphorical and philosophical notions of right or wrong, evil, redemption, and the search of the self.

Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's Italian Literature before 1900 in English Translation, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature.

'Jeremy Black skilfully sketches social, cultural and political trends' - Christina Hardyment, Times audiobook of the week 'A remarkable mixture of cold history, wide culture and personal experience' Ciro Paoletti, Secretary General of the Italian Commission of Military History Despite the Roman Empire's famous 500-year reign over Europe, parts of Africa and the Middle East, Italy does not have the same long national history as states such as France or England. Divided for much of its history, Italy's regions have been, at various times, parts of bigger, often antagonistic empires, notably those of Spain and Austria. In addition, its challenging and varied terrain made consolidation of political control all the more difficult. This concise history covers, in very readable fashion, the formative events in Italy's past from the rise of Rome, through a unified country in thrall to fascism in the first half of the twentieth century right up to today. The birthplace of the Renaissance and the place where the Baroque was born, Italy has always been a hotbed of culture. Within modern Italy country there is fierce regional pride in the cultures and identities that mark out Tuscany, Rome, Sicily and Venice to name just a few of Italy's many famous regions. Jeremy Black draws on

the diaries, memoirs and letters of historic travellers to Italy to gain insight into the passions of its people, first chronologically then regionally. In telling Italy's story, Black examines what it is that has given Italians such cultural clout - from food and drink, music and fashion, to art and architecture - and explores the causes and effects of political events, and the divisions that still exist today.

The Academy Award's Best Picture of the year is now the New York Times-bestselling, must-read novel of 2018. "[A] phenomenally enrapturing and reverberating work of art in its own right...[that] vividly illuminates the minds of the characters, greatly enhancing our understanding of their temperaments and predicaments and providing more expansive and involving story lines." —Booklist Visionary storyteller Guillermo del Toro and celebrated author Daniel Kraus combine their estimable talent in this haunting, heartbreaking love story. It is 1962, and Elisa Esposito—mute her whole life, orphaned as a child—is struggling with her humdrum existence as a janitor working the graveyard shift at Baltimore’s Occam Aerospace Research Center. Were it not for Zelda, a protective coworker, and Giles, her loving neighbor, she doesn’t know how she’d make it through the day. Then, one fateful night, she sees something she was never meant to see, the Center’s most sensitive asset ever: an amphibious man, captured in the Amazon, to be studied for Cold War advancements. The creature is terrifying but also magnificent, capable of language and of understanding emotions...and Elisa can’t keep away. Using sign language, the two learn to communicate. Soon, affection turns into love, and the creature becomes Elisa’s sole reason to live. But outside forces are pressing in. Richard Strickland, the obsessed soldier who tracked the asset through the Amazon, wants nothing more than to dissect it before the Russians get a chance to steal it. Elisa has no choice but to risk everything to save her beloved. With the help of Zelda and Giles, Elisa hatches a plan to break out the creature. But Strickland is on to them. And the Russians are, indeed, coming. Developed from the ground up as a bold two-tiered release—one story interpreted by two artists in the independent mediums of literature and film—*The Shape of Water* is unlike anything you’ve ever read or seen. “Most movie novelizations do little more than write down what audiences see on the screen. But the novel that’s accompanying Guillermo del Toro’s new movie *The Shape of Water* is no mere adaptation. Co-author Daniel Kraus’ book and the film tell the same story, of a mute woman who falls in love with an imprisoned and equally mute creature, in two very different ways.” —io9 Praise for *The Shape of Water* directed by Guillermo del Toro Winner of the 2018 Academy Award for Best Picture Winner of the 2018 Academy Award for Best Director Winner of the 2018 Academy Award for Music (Original Score) Winner of the 2018 Academy Award for Production Design Winner of the 2018 Golden Globe Award for Best Director of a Motion Picture "With encouragement from critics and awards voters, discerning viewers should make Fox Searchlight’s December release the season’s classiest date movie—for perhaps the greatest of *The Shape of Water*’s many surprises is how extravagantly romantic it is.” —Variety "It is never less than magnificent." —TheDaily Beast "A visually and emotionally ravishing fantasy that should find a welcome embrace from audiences starved for imaginative escape." —The Hollywood Reporter Awarded the Golden Lion for Best Film at the74th Annual Venice International Film Festival

The first systematic account of crime fiction as a global genre, offering unprecedented coverage of distinct traditions across the world.

This volume is dedicated to Maurizio Gotti, in honour of his long and noteworthy academic career. Having served as Full Professor of History of the English Language and of English Language and Translation for more than two decades at the University of Bergamo, Italy, Gotti made significant contributions to multiple areas of study including specialized discourses, lexicography, history of the English language and language teaching. This wide-ranging collection brings together essays from these fields of enquiry authored by scholars whose academic input have interacted in various ways with ideas and topics introduced or extensively discussed by Gotti. The contributions are grouped into four theme-based sections representing the main threads in Gotti’s research, from the macro area of specialised discourse to the more specific fields of research in academic and le-

gal languages, while the fourth section includes contributions dealing with the history of English language, and is followed by a miscellaneous section which concludes the collection.

For over two decades, *Clues* has included the best scholarship on mystery and detective fiction. With a combination of academic essays and nonfiction book reviews, it covers all aspects of mystery and detective fiction material in print, television and movies. As the only American scholarly journal on mystery fiction, *Clues* is essential reading for literature and film students and researchers; popular culture aficionados; librarians; and mystery authors, fans and critics around the globe.

The crime genre entered Italy in the late nineteenth century, and if initially Italian authors followed models developed abroad—principally in the United States, England and France—a uniquely Italian brand began to emerge soon. Il giallo, as the crime genre has been known in Italy since the 1930s, proved to be the ideal instrument to confront pressing and often uncomfortable issues which were pertinent to the Italian context: it became a useful tool to restore, symbolically at least, the truth and justice that were, and still are, perceived by a large part of the Italian reading public to be systematically denied in reality. In today's Italy, the crime genre, and particularly its noir sub-genre, narrates so that readers might remember, so that they might take heed and action, turning cognition into an act of resistance against oblivion and of rebellion against injustice. *Uncertain Justice* explores three broad areas that contemporary Italian noir literature appears particularly keen to debate, retrieving them from the silence to which they might otherwise be consigned: unresolved historical and political legacies, the repercussions of which still inform and affect life and practices in the present times; the problematic institution of the family, considered as the bedrock of Italian culture and the founding principle of Italian society, with specific attendant questions of gender politics; and the justice system seen through some of its operators, nominally in charge of putting the wrongs right and frequently accused of preventing this from happening. These explorations are conducted through an analysis of texts published in the last twenty years, which represent an effort to expose and counter injustice through the power of the word. Crime literature authors often revisit recent Italian history in their novels, and genre fiction plays a prominent role in acts of resistance against cover-ups or revisionist views of history. The volume starts with an analysis of this role, through novels that look back at the years of the fascist regime and, more recently, at the period from the anni di piombo onwards. It then considers the contribution made to the giallo and noir genre by women writers, looking at the effects that female practitioners in Italy have had on the ethics and aesthetics of a genre that, in other cultures, has traditionally been firmly conservative. A further section examines novels set in a familial context and looks at a range of family dynamics, expressed in the relationships between mothers and sons, mothers and daughters, large extended families or small nuclear ones. If some of the texts expose the devastating effects of the violence perpetrated "in the name of love," others more positively offer hope, demonstrating how more desirable options do exist and can be pursued. Finally the volume looks at justice as a system and at its practitioners, as, in an interesting development peculiar to Italy, a significant number of judges, lawyers and senior police officers have recently become involved in crime fiction writing. The concluding chapter investigates the contribution that these "specialists," who have extensive theoretical and technical knowledge in a field which crime fiction routinely frequents, can make to the genre; it also analyses whether these authors, who bring together the moral function of unveiling the truth (prerogative of the investigator) and the social function of rectifying a wrong (prerogative of the upholders of the law), may have a role in forming a more ethically and socially aware Italian citizen.

Sicilian Elements in Andrea Camilleri's Narrative Language examines Camilleri's unique linguistic repertoire and techniques over his career as a novelist. It focuses on the intensification of Sicilian linguistic features in Camilleri's narrative works, in particular features pertaining to the domains of sounds and grammar, since these have been marginalized in linguistic-centered research on the evolution of Camilleri's narrative language and remain overall understudied. Through a systematic comparative analysis of the distribution patterns of selected Sicilian features in a selection of Camilleri's historical novels and novels of the Montalbano series, the author identifies the individual features that have become most widespread and the lexical items that are targeted with highest frequency and consistency. The results of the analysis show that in the earlier novels, Sicilian features are rather sparse and can be attributed to linguistic situational functionality; that is, they function as indices of salient, distinctive aspects of topics, settings, events/situations, and characters. Conversely, in the latest novels, Sicilian elements pervade the entire novels and the texts are written almost entirely in Camilleri's own Sicilian, vigatese, so that Sicilian is stripped of any linguistic situational functionality.

Over the last three decades, Italian crime fiction has demonstrated a trend toward a much higher level of realism and complexity. The origins of the New Italian Epic, as it has been coined by some of its proponents, can be found in the widespread backlash against the Mafia-sponsored murders of Sicilian magistrates which culminated with the assassinations of Judges Giovanni Falcone and Paolo Borsellino in 1992. Though beginning in the Italian language, this prolific, popular movement has more recently found its way into the English language and hence it has found a much wider international audience. Following a brief, yet detailed, history of the cultural and economic development of Sicily, this book provides a multilayered look into the evolution of the New Italian Epic genre. The works of ten prominent contemporary writers, including Andrea Camilleri, Michael Dibdin, Elena Ferrante, and Massimo Carlotto, are examined against the backdrop of various historical periods. This "past is prologue" approach to contemporary crime fiction provides context for the creation of these recent novels and enhances understanding of the complex moral ambiguity that is characteristic of anti-mafia Italian crime fiction.

Il primo omicidio letterario in terra di mafia della seconda repubblica - un omicidio eccellente seguito da un altro, secondo il decoro cui hanno abituato le cronache della criminalità organizzata - ha la forma dell'acqua ("Che fai?" gli domandai. E lui, a sua volta, mi fece una domanda. "Qual è la forma dell'acqua?". "Ma l'acqua non ha forma!" dissi ridendo: "Piglia la forma che le viene data"). Prende la forma del recipiente che lo contiene. E la morte dell'ingegnere Luparello si spande tra gli alambicchi ritorti e i vasi inopinatamente comunicanti del comitato affaristico politico-mafioso che domina la cittadina di Vigàta, anche dopo il crollo apparente del vecchio ceto dirigente. Questa è la sua forma. Ma la sua sostanza (il colpevole, il movente, le circostanze dell'assassinio) è più antica, più resistente, forse di maggior pessimismo: più appassionante per un perfetto racconto poliziesco. L'autore del quale, Andrea Camilleri, è uno scrittore e uno sceneggiatore che pratica il giallo e l'intreccio con una facilità e una felicità d'inventiva, un'ironia e un'intelligenza di scrittura che - oltre il divertimento severo del genere giallo - appartengono all'arte del raccontare. Cioè all'ingegno paradossale di far vedere all'occhio del lettore ciò che si racconta, e di contemporaneamente stringere con la sua mente la rete delle sottili intese.

Focusing on crime fiction and films that artfully combine comedy and misdeed, this book explores the reasons writers and filmmakers inject humor into their work and identifies the various comic techniques they use. The author covers both American and European books from the 1930s to the present, by such authors as Rex Stout, Raymond Chandler, Robert B. Parker, Elmore Leonard, Donald E. Westlake, Sue Grafton, Carl Hiaasen and Janet Evanovich, along with films from *The Thin Man* to the BBC's *Sherlock* series.

This is the first comprehensive reference work in English dedicated to the writing of world-famous Italian mystery writer Andrea Camilleri. It includes entries on plots, characters, dates, literary motifs, and themes from the bestselling author's detective stories and television crime dramas, with special attention given to the serialized policeman Inspector Salvo Montalbano, Camilleri's most famous character. It also equips the reader with background information on Camilleri's life and career and provides a guide to the writings of reviewers and critics.

For most of the twentieth century, the private eye dominated crime fiction and film, a lone figure fighting for justice, often in opposition to the official representatives of law and order. More recently, however, the police have begun to take centre stage - as exemplified by the runaway success of TV police procedurals like *Law and Order*. In *Crime Uncovered: Detective*, Barry Forshaw offers an exploration of some of the most influential and popular fictional police detectives in the history of the genre. Taking readers into the worlds of such beloved authors as P. D. James, Henning Mankell, Jo Nesbø, Ian Rankin and Håkan Nesser, this book zeroes in on the characteristics that define the iconic characters they created, discussing how they relate to their national and social settings, questions of class, and to the criminals they relentlessly pursue. Showing how the role of the authority figure has changed - and how each of these writers creates characters who work both within and against the strictures of official investigations - the book shows how creators cleverly subvert expectations of both police procedure and the crime genre itself. Written by a leading expert in the field and drawn from interviews with the featured authors, *Crime Uncovered: Detective* will thrill the countless fans of Inspector Rebus, Harry Hole, Adam Dalgliesh and the other enduring police detectives who define the genre.

Environmental law and governance are the cornerstones of global efforts to conserve the environment, protect resources and ensure fair and equitable outcomes for all of the planet's inhabitants. This book presents a series of thought-provoking chapters which consider the place of governance and law in the defence against imminent and ongoing threats to ecological, social and cultural integrity. Written by an international team of both established and early-career scholars from various disciplines and backgrounds, the chapters cover the most pressing and contemporary issues in environmental law and governance. These include access and benefit-sharing; the right to food and water; climate change coping and adaptation; human rights; the rights of indigenous communities; public and environmental health; and many more. The book has a general focus on environmental governance and law in the European Union and offers points of comparison with Canada and North and South America.

The Shape of Water is the first in Andrea Camilleri's wry, brilliantly compelling Sicilian crime series, featuring Inspector Montalbano. When the body of respected and prominent engineer Silvio Luparello is discovered in the Pasture, a rubbish-strewn site brimming with drug dealers and prostitutes, the coroner's verdict is death from natural causes - refreshingly unusual for Sicily. But Inspector Salvo Montalbano of the Vigàta police force, as honest as he is streetwise and as scathing to fools and villains as he is compassionate to their victims, is not ready to close the case, despite pressure from Vigàta's police chief, judge, and bishop. Picking his way through a labyrinth of high-comedy corruption, carefully planted false clues, trigger-happy Mafia members, and delicious Sicilian fare, Montalbano can be relied on, whatever the cost, to get to the heart of the matter. *The Shape of Water* is followed by the second in this phenomenal series, *The Terracotta Dog*.

Rising up from the heart of the Mediterranean, Sicily has a rich and ancient history spanning over 2,000 years. A bounty prized by invaders from the Greeks, Romans and Vandals to the Byzantines, Arabs and Normans, Sicily's violently beautiful landscapes are haunted by a vibrant mix of cultures and her soil has always been fertile ground for the literary and artistic imagination. This compelling guide uncovers the island's multi-faceted personality through those literary figures who have managed to get under her skin - from Pindar, Cicero and Aeschylus to Shakespeare and Cervantes; DH Lawrence, Coleridge and Oscar Wilde to Truman Capote, Tennessee Williams, Ezra Pound and Lawrence Durrell; as well as local writers who have defined the modern Italian novel - Giuseppe Tomasi di Lampedusa and Leonardo Sciascia. Through their words and lives we witness the beauty, pain and power of the Sicilian cultural landscape and discover how the potent mix of influences on the island's society has been preserved forever in literature.

The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

The first extended analysis of the relationship between Italian criminology and crime fiction in English, *Methods of Murder* examines works by major authors both popular, such as Gianrico Carofiglio, and canonical, such as Carlo Emilio Gadda. Many scholars have argued that detective fiction did not exist in Italy until 1929, and that the genre, which was considered largely Anglo-Saxon, was irrelevant on the Italian peninsula. By contrast, *Past* traces the roots of the twentieth-century literature and cinema of crime to two much earlier, diverging interpretations of the criminal: the bodiless figure of Cesare Beccaria's Enlightenment-era *On Crimes and Punishments*, and the biological offender of Cesare Lombroso's positivist *Criminal Man*. Through her examinations of these texts, *Past* demonstrates the links between literary, philosophical, and scientific constructions of the criminal, and provides the basis for an important reconceptualization of Italian crime fiction.

With its physical beauty and kaleidoscopic cultural background, Sicily has long been a source of inspiration for filmmakers. Twelve new essays by international scholars--and additional writings from directors Roberta Torre, Giovanna Taviani, and Costanza Quatriglio--seek to offset the near-absence of scholarship focusing on the relationship between the Mediterranean island and cinema. Touching on class relations, immigration, gender and poverty, the essays examine how Sicily is depicted in fiction, satire and documentaries. Situated between North and South, East and West, innovation and tradition, authenticity and displacement, Sicily acts as a microcosm of the world, a place to explore numerous narratives and develop intercultural dialogue. It is also the center of cinematographic discussions and events such as the Taormina Film Festival and the SalinaDocFest. The volume presents Sicily almost as a character and creator in its own right.

Serial Crime Fiction is the first book to focus explicitly on the complexities of crime fiction seriality. Covering definitions and development of the serial form, implications of the setting, and marketing of the series, it studies authors such as Doyle, Sayers, Paretsky, Ellroy, Marklund, Camilleri, Borges, across print, film and television.

A shadow, in its most literal sense, is the projection of a silhouette against a surface and the obstruction of direct light from hitting that surface. For writers and artists, the shadows cast by their precursors can be either a welcome influence, one consciously evoked in textual production via homage or bricolage, or can manifest as an intrusive, haunting, prohibitive presence, one which threatens to engulf the successor. Many writers and artists are affected by an anxious and ambiguous relationship with their precursors, while others are energised by this relationship. The role that intertextuality plays in creative production invites interrogation, and this publication explores a range of conscious and unconscious influences informing relations between texts and contexts, between predecessors and successors. The chapters revolve around intertextual influence, ranging from conscious imitation and intentional allusion to Julia Kristeva's idea of intertextuality. Do all texts contain references to and even quotations from other texts? Do such references help shape how we read? This multidisciplinary work includes chapters on the long shadows cast by Shakespeare, Dante, Scott, Virgil and Ovid, the shadows of colonial precursors on postcolonial successors, the shadows cast over Kipling and Murdoch, and chapters on other writers, dramatists and filmmakers and their relationships with precursor figures. With its focus on intertextual relationships, this book contributes to the thriving fields of adaptation studies and studies of intertextuality.

'The foreigner' is a familiar character in popular crime fiction, from the foreign detective whose outsider status provides a unique perspective on a familiar or exotic location to the xenophobic por-

trayal of the criminal 'other'. Exploring popular crime fiction from across the world, *The Foreign in International Crime Writing* examines these popular works as 'transcultural contact zones' in which writers can tackle such issues as national identity, immigration, globalization and diaspora communities. Offering readings of 20th and 21st century crime writing from Norway, the UK, India, China, Europe and Australasia, the essays in this book open up new directions for scholarship on crime writing and transnational literatures.

The enormous popularity of Stieg Larsson's Millennium trilogy has raised awareness of other contemporary European authors of crime fiction. As a result, several of these novelists now reach a receptive American audience, eager for fresh perspectives in the genre. This critical text offers an introduction to current European crime writing by exploring ten of the best new crime and mystery authors from Sweden (Stieg Larsson and Henning Mankell), Norway (Karin Fossum and Jo Nesbø), Iceland (Arnaldur Indridason), Italy (Andrea Camilleri), France (Fred Vargas), Scotland (Denise Mina and Philip Kerr), and Ireland (Ken Bruen), who are reshaping the landscape of the modern crime novel. This book aims at shifting the emphasis from a general vision of gender-based violence to a more opaque, yet equally destructive one, that related to "proximity violence". The first type of violence is exercised in multiple situations and in the generality of relationships experienced by people involving others who are both strangers to and intimate with each other. Proximity violence provides and includes a fiduciary kind of "proximity", of "dependent intimacy", where the trust that the victim places in the other (her tormentor) favours the exercise of violence itself, allowing it to take place, thus making it practically imperceptible when not actually normal, in extreme cases. In turn, this confidence is comparable to "a veil of Maja" which, in conditions of vulnerability typical of victims, attenuates the consequences of the violence undergone or the omens of what becomes violent action. The conceptual triad: proximity violence, vulnerability, resistance-resilience is explored here, in the three main chapters and in the details aimed at identifying, in the final chapter, the mutual interconnections. This book will be of particular interest and use to undergraduate and graduate students of sociology and gender studies

An analysis of the relationship between detective fiction and its setting, this book is the most wide-ranging examination of the way in which Italian detective fiction in the last 20 years has become a means to articulate the changes in the social landscape of the country.

This book is a collection of selected articles based on talks given by established academics and translators, as well as younger researchers, at the third postgraduate symposium organized by the School of Literature and Creative Writing at the University of East Anglia, UK. The objective of the third postgraduate translation symposium at the University of East Anglia was to explore the current relevance of theory to the practice of translation. This volume builds on the key ideas and discussion that arose from the symposium, bringing together, amongst others, the current debates concerning the complex relationship between theory and practice in the field of translation studies, taking into consideration a wide range of perspectives, both modern and traditional. A broad cross-section of research exploring the present relevance of translation theory to practice is presented by many of the individual contributors to this volume. These papers provide both current theoretical insights into the relevance of theory to translation and also, in some examples, offer first-hand experiences of applying appropriate strategies and methods to the practice and description of translation.
