Step-by-step guide to critiquing research. Part 1 ...

Critiquing is an approach that encourages students to consider their own work by drawing comparisons with the work of their peers. Traditionally, students will submit their work to be critiqued by fellow students and perform their own critique on the work of one or more peers.

Through this process the students get feedback on their work from their fellow students and, through the consideration of others' work, are stimulated to reflect on their own work and think about it in new ways.
