Winner of a 2019 International Book Award, Silver Medalist in the 2019 American Business Awards, Finalist for International Book of the Year at the 2019 Business Book Awards, and one of Forbes' Top Ten Business Books for 2018. A book for a different breed of business leader, one who looks beyond the moment to create a life of significance. Most of us are familiar with the traditional way of looking at legacy—something preserved in the past. Traditional legacy is all around us, evidenced by the steady churn of autobiographies, bequests, commemorations, and dedications we are forever leaving in our collective cultural wake. This is not the legacy you will find in this book. Legacy in the Making celebrates an active, dynamic form of "modern legacy," seen through the eyes of a select group of extraordinary men and women who are pursuing their enduring ambitions in the age of now. More than caretakers of the past, these modern legacy builders are also the authors of a vital today and tomorrow. Rather than leaving their legacies behind them, they are looking ahead to harness their long-term ambitions and inspire others to help carry them forward. These are not static, traditional legacies. These are legacies in the making. Statement of responsibility partially taken from cover.

Martin, and Sabaa Tahir, this savage series is not for the faint of heart. Behind the mask of duty and power, no one is who they seem... Every generation, a single haidren from each of the four Houses is appointed to this coveted chair. Upon her Ascension to adulthood, Luscia Tiergan takes her seat at court as al'haidren to the House of Boreal and is quickly drawn into a maze of political traps and dark secrets. As she adjusts to her new life, Luscia uncovers a pattern of forgotten children, slain in the streets of Bastiion. Raised on superstitious rumors about Boreal's penchant for sorcery, Zaethan Kasim, al'haidren to the House of Darakai, inevitably clashes with Luscia when she arrives in Bastiion. But when his position is threatened by an old rival, Zaethan is forced to set aside his hatred and form an uneasy alliance with the Boreali al'haidren to secure his claim. Following a disturbing stream of innocent bloodshed across Orynthia, Luscia and Zaethan discover their ideals are far more aligned than they might have imagined. But in a land of war and deceit, the path to peace should never be trusted. The Series Dive into the alluring world of Orynthia by exploring additional THL references online. #1 New York Times bestselling author Nora Roberts presents *Legacy*, a new novel of a mother and a daughter, of ambition and romance, and of a traumatic past reawakened by a terrifying threat... Adrian Rizzo was seven when she met her father for the first time. That was the day he nearly killed her—before her mother, Lina, stepped in. Soon after, Adrian was dropped off at her grandparents' house in Maryland, where she spent a long summer drinking lemonade, playing with dogs, making a new best friend—and developing the stirrings of a crush on her friend's ten-year-old brother. Lina, meanwhile, traveled the country promoting her fitness brand and turning it into a billion-dollar business. There was no point in dwelling on the past. A decade later, Adrian has created her own line of yoga and workout videos, following in Lina's footsteps but intent on maintaining creative control. And she's just as cool-headed and ambitious as her mother. They aren't close, but they're cordial—as long as neither crosses the other. But while Lina dismisses the death threats that Adrian starts getting as a routine part of her daughter's growing celebrity, Adrian can't help but find the vicious rhymes unsettling. Year after year, they keep arriving—the postmarks changing, but the menacing tone the same. They continue after she returns to Maryland and becomes reacquainted with Raylan, her childhood crush, all grown up and as gorgeously green-eyed as ever. Sometimes it even seems like the terrifying messages are indeed routine, like nothing will come of them. Until the murders start, and the escalation begins...

In this provocative book, leadership experts and authors of the best-selling *The Leadership Challenge*, Jim Kouzes and Barry Posner take on a unique challenge and explore the question of leadership and legacy. Kouzes and Posner examine in twenty-two chapters the critical questions all leaders must ask themselves in order to leave a lasting impact. These powerful essays are grouped into four categories: Significance, Relationships, Aspirations, and Courage. In each essay the authors consider a thorny and often ambiguous issue with which today's leaders must grapple issues—such as how leaders serve and sacrifice, why leaders need loving critics, why leaders should want to be liked, why leaders can't take trust for granted, why it's not just the leader's vision, why failure is always an option, why it takes courage to "make a life," how to liberate the leader in everyone, and ultimately, how the legacy you leave is the life you lead.

Building on a growing movement within developing countries in Latin America, Africa, and Asia-Pacific, as well as Europe and North America, this book documents cutting edge practice and builds theory around a rights based approach to women's safety in the context of poverty reduction and social inclusion. Drawing upon two decades of research and grassroots action on safer cities for women and everyone, this book is about the right to an inclusive city. The first part of the book describes the challenges that women face regarding access to essential services, housing security, liveability and mobility. The second part of the book critically examines programs, projects and ideas that are working to make cities safer. *Building Inclusive Cities* takes a cross-cultural learning perspective from action research occurring throughout the world and translates this research into theoretical conceptualizations to inform the literature on planning and urban management in both developing and developed countries. This book is in-

tended to inspire both thought and action.

LONGLISTED FOR THE BAILLIE GIFFORD PRIZE 'An incredible work of scholarship' Sathnam Sanghera Through the story of his own family's history as slave and plantation owners, Alex Renton looks at how we owe it to the present to understand the legacy of the past. When British Caribbean slavery was abolished across most of the British Empire in 1833, it was not the newly liberated who received compensation, but the tens of thousands of enslavers who were paid millions of pounds in government money. The descendants of some of those slave owners are among the wealthiest and most powerful people in Britain today. *Blood Legacy* explores what inheritance - political, economic, moral and spiritual - has been passed to the descendants of the slave owners and the descendants of the enslaved. He also asks, crucially, how the former - himself among them - can begin to make reparations for the past.

It is time to stop setting your alarm clock and waking up way too early, just to build someone else's dream. When did you get to this point? Living in a spiral of waking up, going to work, missing your children, go to sleep, repeat...? Jason lost over 200 pounds. He then told his story for the first time, which served as momentum on a path to speaking. This journey of self-realization led to his discovery using the very laws which bind our universe, and he consequently began changing the lives of everyone around him. After gaining some knowledge of the wealthiest 1%, Jason learned building multiple streams of passive is the only way to make it out of the employment/self-employment trap. His journey became even more exciting as a movement of prosperity began to grow nationwide. This led to Jason making many new friends along the way, and gave opportunity to learn from many leaders and mentors. Now, he not only helps people to find their true "self," by sharing his own experiences, he also shows them a path to building their own success through taking a different approach to business and life. Success, belief, and happiness must go hand in

hand to achieve the greatest version of your "self." Warning: you may read a particular chapter or sentence; or possibly the entirety of this book, over and over again, just to catch something new, so you may want to have a highlighter, pen, and notepad handy. "I find it a little silly that we will watch a movie 30 times, which will fill our minds with negativity. Then, we will read a book, that will completely change our lives, once. I know - I did it for most of my life. And you know what? As soon as I stopped doing it, I set myself up to become a millionaire before my very next birthday. Any entrepreneur can recreate what I have done. Many people want to be happy, prosperous, rich, famous, wealthy... but, no one wants to put in the work or break out of their routine. In order to make that first million, you must take drastic action to change your mind. You must show the universe you deserve it by getting out of your own way. You have to be willing to show the world that you actually can change your inner self." - Jason Criddle
