Say it with chalk! Learn the art of hand-drawn chalk lettering from an Etsy superstar in a book complete with chalkboards! Ubiquitous at boutiques and cafés, on Etsy and Pinterest, in stationery and home decor, the art of chalk lettering is hotter than ever. Valerie McKeehan, an Etsy standout, teaches us everything we need to know to create gorgeous hand-drawn chalk designs. In over 60 lessons, learn the ABCs of lettering (literally) and basic styles: serif, sans serif, and script. Next, how to lay out a design, combine various styles into one cohesive piece, and add shadows and dimension. Master more advanced letter styles, from faceted to ribbon to “vintage circus.” Use banners, borders, flourishes. And finally, 12 projects to show off your newfound skills, including a Winter Wonderland Snow Globe; a smart-

phone-themed birthday card to text friends and family; a one-of-a-kind party invitation to create, photograph, and mail; and a bake sale sign guaranteed to put everyone who sees it in the mood for a cupcake! The book is also a practice space, with three foldout “chalkboards”—the inside cover and foldout back cover are lined with blackboard paper. We are all type consumers and interact with type in our everyday lives. Typefaces in all shapes and sizes evoke an emotional response and trigger associated memories before we’ve even read the words. How to Draw Type and Influence People shows how we use type to understand different messages. Each typeface is introduced and explained and then creative exercises show the reader how to draw each font and invite them to explore the associations evoked by the styles, to reveal why they have come

about and how to create their own versions. Ideal for all those who work with type daily, this book provides an accessible way in to the world of typefaces, for the general reader, but also graphic designers who want to explore fonts in more detail and design their own letterforms.

Paris is a city of pure enchantment, and everyone who loves the City of Light has a Parisian muse, from the Tour Eiffel to crème caramel. For celebrated graphic designer and incessant flâneur Louise Fili, it's the city's dazzling signage. For more than four decades, Fili has strolled picturesque Parisian rues and boulevards with map and camera, cataloging the work of generations of sign craftsmen. *Graphique de la Rue* is Fili's photographic diary of hundreds of Paris's most inventive restaurant, shop, hotel, street, and advertising signs. Classic neon café signs are juxtaposed with the dramatic facades of the Moulin Rouge and the Folies Bergère. Colorful mosaics cheerfully announce hotel entrances, department stores, fishmongers, even public toilets. Hector Guimard's legendary entrances to the Paris Métro stations brush elbows with graceful gold-leaf and dimensional Art Deco, Futurist, or Art Nouveau architectural lettering, as well as whimsical pictorial signs (giant eyeglasses announce optiques, and oversized hanging shears indicate a knife and scissors maker). A major influence on Fili's own work, many of these masterpieces of vernacular design, now destroyed, live on solely in this book, a typographic love letter to Paris sure to inspire designers and armchair travelers alike.

Challenge: Create an image out of a word, using only the letters in the word itself. Rule: Use only the graphic elements of the letters without adding outside elements. Enhanced with entertaining and

surprising animations for each word, *Word as Image* invites you to see letters beyond their utilitarian dullness. It's about discovering the magic behind the unique shapes and infinite possibilities of letters and words. This fully animated enhanced edition showcases nearly 100 of Ji Lee's head-scratching word images, along with tips to help you create your own and share them at [www.wordasimage.com](http://www.wordasimage.com).

Spirited history and comprehensive instruction manual covers 13 styles (ca. 4th–15th centuries). Excellent photographs; directions for duplicating medieval techniques with modern tools. "Vastly rewarding and illuminating." — American Artist.

Renowned graphic designer and author Louise Fili takes us on a personal tour through her most famous brands, books, and packaging. This peek behind-the-scenes shows how research and vintage typography give rise to her unique and ingenious designs. She explains how her work--still done by hand--transforms from early sketches to final design. Her instantly recognizable style, elegant and timeless, takes shape on the page before our eyes. Also included are Fili's copyright pages, which are works of art in their own right. All content appears in print for the first time.

Dr Montessori's revolutionary method of education began early this century. In this classic work she expounds her conviction that in the child there are laws of growth in character and disposition as marked as those in his physical life. This book will be of great interest and impor-

tance to all those who care for the young.

For more than three decades, renowned graphic designer and self-described Italophile Louise Fili has traveled the cities and countryside of Italy cataloging the work of sign craftsmen in whose hands type takes on new life with a tantalizing menu of styles. Classical, eclectic, or Futurist; in gold leaf, marble, brass, wood, wrought iron, enamel, ceramic, or neon; painted, carved, inlaid, etched, tiled, or stenciled—the creative possibilities are endless. *Grafica della Strada* is Fili's photographic diary of hundreds of Italy's most inventive restaurant, shop, hotel, street, and advertising signs. A major influence on Fili's own work, many of these marvels of vernacular design live on solely in this book, a typographic love letter to Italy that will be an inspiration to designers and Italophiles everywhere.

Recently, technology and aging have been key research areas in human cognition. The Research Topic "Digital Skills and Life-long Learning: Digital Learning as a New Insight of Enhanced Learning by the Innovative Approach Joining Technology and Cognition" investigated technology's impact on cognitive and intellectual processes, highlighting how intensively technology can change and/or enhance the cognitive functioning throughout one's lifespan. The aim of this Research Topic was to provide an outlook through multidisciplinary research and development while addressing the dynamic intersection of cognition, mind, and technology. Our scope was 1) to favor the cognitive technology debate, 2) to overcome the dichotomies of technology and psychology, 3) to emphasize the advances in knowledge and well-being. This Research Topic comprises review

studies and original articles, focused on digital skills that enhance human potential. Transversal approaches and cross-sectorial analysis were encouraged, leading to investigation areas related to cognitive and mental processing—in educational, rehabilitation, clinical settings—across aging. Articles of high relevance to the Research Topic were submitted on the subjects of a) research in human performance and human factors, b) new research and technologies addressing the needs of a growing populace, and c) cognitive aging and cognitive rehabilitation research.

Find your way around the New York City subway! This book introduces the idea of graphic design as a way to solve problems and challenges, such as creating a map that can be understood by all New Yorkers and out-of-towners. Author and illustrator Emiliano Ponzi uses depictions of trains, subway stations, and the NYC skyline to create a love letter to the city. A groundbreaking work of information design, the subway map, designed by Massimo Vignelli, is an iconic work used by over a billion people every year. The Museum of Modern Art acquired the original 1972 diagram, along with the 1970 graphics standards manual Vignelli created for signage and station information, in 2004. The map is intimately tied to MoMA's history, as it was a MoMA curator, Mildred Constantine, who recommended that New York City's Metropolitan Transit Authority commission the map from the Italian designer.
