Recent decades have seen significant shifts in biblical scholarship opening up a range of ways of engaging the biblical narrative - both methodologically (the tools and techniques for engaging the text) and hermeneutically (the perspectives that inform an interpreter's approach to the text and to the interpretative task). It is these shifts that give shape to this introduction and study guide, so that students encounter not only the text of Matthew itself but also its rich lode of recent interpretation. Among aspects of 1st-century life brought

to the fore by current social-scientific methodology are kinship, the honor and shame culture, and masculinity. Gender is another interpretative lens that has characterized the study of the Gospel of Matthew in recent decades and the Guide provides pathways through this rich literature. The guide to Matthew concludes with the most recent turn of the hermeneutical lens, namely an ecological perspective on what is perhaps the best-known text in Matthew, the Beatitudes. This final chapter is an example of how we can enter an old and familiar text like the Gospel of Matthew from yet another new critical direction.

"'Lewis's Medical-Surgical Nursing, 11th Edition' gives you a solid foundation in medical-surgical nursing. This thoroughly revised text includes a more conversational writing style, an increased focus on nursing concepts and clinical trends, strong evidence-based content, and an essential pathophysiology review. Content covers all aspects of nursing care including health promotion, acute intervention, and ambulatory care. Helpful boxes and tables make it easy for you to find essential information, and a building-block approach makes even the most complex concepts simple to grasp. Key topics such as interprofessional care, delegation, safety, and prioritization are integrated throughout. Additionally, extensive drug therapy information and diagnostic studies tables give you a full picture of care. Get the solid foundation you need to pass the NCLEX-PN? exam and succeed in practice! deWit's Medical-Surgical Nursing: Concepts and Practice, 4th Edition builds on the fundamentals of nursing with complete coverage of adult medical-surgical conditions, including roles, settings, health care trends, and all body systems and their disorders. It provides special attention to care of older adults, those with chronic illnesses, and residents in long-term care settings. Written by nursing educator Holly Stromberg, deWit's Medical-Surgical Nursing makes exam prep easier with NCLEX-PN? review questions, and reflects national LPN/LVN standards with an emphasis on evidence-based practice and patient safety.

With just the right level of information to equip you to effectively care for adults and older adults, Linton's Introduction to Medical-Surgical Nursing, 5th Edition is the leading LPN/LVN text in its field. Covering both med-surg and psychiatric mental health conditions and disorders, it addresses your role in a variety of care settings, emphasizes culturally competent care and holistic nursing, and thoroughly covers all relevant NCLEX-PN Test Plan content. Abundant real-life case studies clearly show how to apply what you've learned to clinical practice. Features separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), providing an in-depth understanding for patient care. Offers foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and

many more essential topics, avoiding repetition later in the text. Includes a separate, comprehensive unit on the older adult and related disorders — no other LPN/LVN med-surg text has as much coverage of this primary patient group. Includes a separate, comprehensive unit on psychosocial responses to illness, psychiatric disorders, and substance abuse — eliminating the need for a separate psychiatric mental health nursing text. Emphasizes content related to the NCLEX-PN Test Plan, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Offers in-depth pharmacology coverage: the Pharmacology Tutorial covers drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes provide medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables in body systems chapters include classification, use/action, side/adverse effects, and nursing interventions — all with the goal of reducing medication errors on the job and equipping you to pass the NCLEX exam. Assists with assignment and supervision, helping you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and making sure you understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. Features Diagnostic Tests and Procedures tables for a quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Highlights timely information with Health Promotion boxes, Cultural Considerations boxes, Nutrition Considerations boxes, and Complementary and Alternative Therapies boxes. Provides bulleted lists of nursing instructions for Patient Teaching Plans, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Provides consistent Nursing Care Plans that reinforce the nursing process and focus on critical thinking, and Put on Your Thinking Cap Critical Thinking boxes encourage you to pause and consider the practical implications of what you have just read.

Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX® test plan

with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy, postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter. Nursing Care Plans with critical thinking questions help you understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination.

With chapters corresponding to the chapters in Linton and Matteson's Medical-Surgical Practical Nursing in Canada, this study guide provides a variety of questions and exercises to help you master the PN's role in Canadian medical-surgical care. Review exercises include fun activities, multiple-choice questions, alternate format questions, and more, all divided by level of difficulty. In the chapters on medical conditions, practical questions help you apply your knowledge directly to real-world patient care. This study guide provides the review and practice you need to prepare for the REx-PN® or CPNRE® licensure exams! Comprehensive review reflects the latest Canadian Council for Practical Nurse Regulators (CCPNR) national PN competencies (including Ontario and British Columbia). Variety of exercises reinforces learning with matching, multiple-choice, multiple-response, labelling, diagram reading, fill-in-the-blank questions, case studies, and more. Consistent format in each chapter: Part I: Mastering the Basics focuses on basic knowledge and comprehension of medical-surgical nursing. Part II: Putting it All Together integrates chapter content related to basic pathophysiology and basic nursing content, and focuses on comprehension and application levels. Part III: Challenge Yourself! Getting Ready for PN Examinations focuses on the application or analysis levels of cognitive ability, and can include case studies, nursing care plans, and nursing assessment.

Questions arranged by level of difficulty move from simple recall to more difficult exercises designed to help you apply, analyze, and synthesize basic concepts. Alternate format questions include multiple response, labelling, prioritizing, ordering, and calculation questions to help you practice for the REx-PN® and CPNRE® licensure examinations. Review questions on care for older adults focus on long-term care and community-based settings, asking you to apply content to real-world practice. Additional review questions are provided on the Evolve website for the textbook.

Prioritization activities provide practice in prioritizing (deciding what to do first) and assignment (giving specific tasks to health care providers who may be supervised by LPNs, including nurse aids and nurse assistants). **NEW!** Completely revised content matches the most up-to-date nursing diagnoses.

Designed for portability, this clinical companion provides at-a-glance access to the information you need for more than 200 medical-surgical conditions and procedures. Completely updated content mirrors the revisions in the new 11th edition of Lewis's main text: *Medical-Surgical Nursing: Assessment and Management of Clinical Problems*. This clinical companion is organized alphabetically for quick reference and includes a variety of full-color illustrations, summary tables, and a handy reference appendix full of laboratory values, Spanish translations of key phrases, and other information commonly used in nursing practice. Consistent and practical information covers definitions and descriptions, pathophysiology, clinical manifestations, complications, diagnostic studies, interprofessional care and drug therapy, and nursing management. Treatments and Procedures section summarizes the need-to-know content about common medical-surgical treatments and procedures such as basic life support, enteral nutrition, and artificial airway management. Handy reference appendix contains information commonly used in nursing practice, including laboratory values, commonly used formulas, Spanish translations of key phrases, and much more. Patient and caregiver teaching content is highlighted with a special icon to identify appropriate information to share with patients and caregivers about the care of various conditions. Cross-references to the Lewis main text identify how to access more in-depth information. Attractive four-color design makes it easy to locate specific information within the clinical companion. **NEW!** Updated content reflects the revisions and updates in Lewis's *Medical-Surgical Nursing, 11th Edition* main text.

The leading medical-surgical text for LPN/LVN students, Linton's *Introduction to Medical-Surgical Nursing, 6th Edition* offers just the right level of information to equip today's students to effectively care for

adults and older adults. Covering both medical-surgical and psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings, including acute care and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN test plan content. No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. Foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoid repetition later in the text and create a foundation to build your understanding of disorders by body system. Safety alerts are highlighted throughout the text with a Safety Considerations icon. A separate unit on psychiatric mental health nursing covers psychosocial responses to illness, psychiatric disorders, and substance abuse - eliminating the need for a separate psychiatric mental health nursing text. Content related to the NCLEX-PN test plan is emphasized throughout the text, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), provide an in-depth understanding for patient care. Focus on assignment and supervision helps you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and makes sure they understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. **UNIQUE!** In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. A separate unit on gerontologic nursing provides comprehensive coverage of the care of the older adult and related disorders. No other LPN/LVN med-surg text offers as much coverage of this primary patient group. Diagnostic Tests and Procedures tables offer quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Health Promotion Consid-

erations boxes highlight timely wellness and disease prevention topics. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education.
