"You can keep the change"--Sumguyen to cashierSumguyen and Bimisi made the fiscally responsible decision to call in sick for a couple days and take advantage of the coveted free passes to the Las Vegas Adult Expo they were given by a scantily clad marketing rep in an Apache Junction bar the night before.They stopped in Wikiup, AZ for \$14 worth of gas and a road soda. Sumguyen watched as a biker chick reached deep into the jar of pickles displayed on the counter. She was in elbow deep and was fishing for the largest of those brined beauties. As she clutched the winning pickle in her teeth she started counting out bills with her still dripping hand. Sumguyen knew those bills would be in his change, he slapped down a twenty and walked out the door.The treasures he might encounter at the Adult Expo and that monster Gherkin in a biker chick's mouth made for a strange and conflicting combination of thoughts...the fourth book of Season Two was conceived over the next 28 miles.

Betty Bard MacDonald (1907-1958), the best-selling author of The Egg and I and the classic Mrs. Piggle-Wiggle children's books, burst onto the literary scene shortly after the end of World War II. Readers embraced her memoir of her years as a young bride operating a chicken ranch on Washington's Olympic Peninsula, and The Egg and I sold its first million copies in less than a year. The public was drawn to MacDonald's vivacity, her offbeat humor, and her irreverent take on life. In 1947, the book was made into a movie starring Fred MacMurray and Claudette Colbert, and spawned a series of films featuring MacDonald's Ma and Pa Kettle characters. MacDonald followed up the success of The Egg and I with the creation of Mrs. Pig-

gle-Wiggle, a magical woman who cures children of their bad habits, and with three additional memoirs: The Plague and I (chronicling her time in a tuberculosis sanitarium just outside Seattle), Anybody Can Do Anything (recounting her madcap attempts to find work during the Great Depression), and Onions in the Stew (about her life raising two teenage daughters on Vashon Island). Author Paula Becker was granted full access to Betty MacDonald's archives, including materials never before seen by any researcher. Looking for Betty MacDonald, a biography of this endearing Northwest storyteller, reveals the story behind the memoirs and the difference between the real Betty MacDonald and her literary persona. "Mackoff's strategies for enhancing girls' self-esteem and creating equal opportunity are clear, practical, and most important, achievable."—Peggy Orenstein, author of School Girls: Young Women, Self-Esteem, and the Confidence Gap "IS THAT YOUR DAUGHTER? ISN'T SHE PRETTY?" Like parents of girls everywhere, psychologist Barbara Mackoff often heard her young daughter Hannah dismissed with those words. So often that she started to reply: "And she's smart too." Hoping to counter the culture that she feared would stereotype her daughter and diminish her confidence, Dr. Mackoff spent three years searching for strategies to nurture Hannah's growing sense of self. The result is Growing a Girl. Offering hundreds of specific suggestions and tools for fostering a daughter's independence and individuality, Growing a Girl encourages parents to act now by exploring seven practical paths. Based on clinical research and Dr. Mackoff's highly acclaimed Growing a Girl workshop, this extraordinary book offers parents the skills to shatter stereotypes that can stunt a daughter's growth while giving her the tools to nourish her strength, spirit, and capacity to care. YOU WILL DISCOVER:

- How gender stereotyping starts at birth—and how you can prevent it
- Why she can wear a velvet dress to the ballet and still climb to the treetops
- What to do about Barbie dolls and traditional fairy tales—without spoiling your daughter's fun
- How to discover and honor her feelings
- How to counteract our culture's emphasis on physical beauty
- How to bring home heroines—in books, magazines, movies, and in her community
- How to recognize and strengthen your daughter's learning style—and build on her natural interesting science and math
- And more.

Serious illness and mortality, those most universal, unavoidable, and frightening of human experiences, are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times. As modern medicine has become more scientific and dispassionate, a new literary genre has emerged: pathography, the personal narrative concerning illness, treatment, and sometimes death. Hawkins's sensitive reading of numerous pathographies highlights the assumptions, attitudes, and myths that people bring to the medical encounter. One factor emerges again and again in these case studies: the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease. Pathography allows the individual person a voice - one that asserts the importance of the experiential side of illness, and thus restores the feeling, thinking, experiencing human being to the center of the medical enterprise. Recommended for medical practitioners, the clergy, caregivers, students of popular culture, and the general reader, *Reconstructing Illness* demonstrates that only when we hear both the doctor's and the patient's voice will we have a medicine that is truly human.

A middle grade novel about a 12-year-old girl dealing with loss, who uncovers a rather grisly scam involving a crematorium. After her brother, sister, and father die in a plane crash, Daralynn Oakland receives 237 dolls from well-wishers, resulting in her nickname: Dolly. But dolls are little comfort to a twelve-year-old girl whose world is rocked by the dramatic changes in her life, including her angry, grieving mother's new job as a hairstylist at the local funeral home. Dolly gets a job, too, where she accidentally invents a fashionable new haircut. But in *Grounded* by Kate Klise, her real work begins when a crematorium comes to town, and someone has to save a dying business, solve a burning mystery, and resuscitate the broken hearts in Digginsville, Missouri, population 402.
