UQ9WRG - CHACE ROBERTS

Useful for UG and PG students

Collin looks at all the major commercial on-line providers, including Compuserve and Microsoft Network, shows how to set up a PC or Mac, and explains available options. He covers basic product research, marketing, selling and obtaining payment.

As E-Commerce refers to the paperless exchange of business information using Electronic Data Interchange (EDI), electronic funds transfer and other network-based technologies, companies have to look at integrating their backend and front office processes and activities. This book presents the technology and non-technology aspects of e-commerce and takes it to a level that gives a clear understanding of the basic building blocks for its implementation. The book begins with the basics in the first and second part, and describes the Internet and Intranets. The third part describes EDI, the UN/EDIFACT Standards, Extranets and tracking tools. Part four comprises security - a critical component of e-commerce. Different cryptographic systems and Public Key Certification method based on X.509 standards have been covered. Part five delves into reengineering and management of change and legal issues.

Facebook, blogs, texts, computer games, instant messages... The ways in which we make meanings and engage with each other are changing. Are you a student teacher trying to get to grips with these new digital technologies? Would you like to find ways to make use of them in your classroom? Digital technologies are an everyday part of life for students and Understanding Digital Literacies explores the ways in which they can be used in schools. Carrington and Robinson provide an insight into the research on digital technologies, stressing its relevance for schools, and suggest ways to develop new, more relevant pedagogies, particularly for social learning, literacy and literate practices. With a practical focus, the examples and issues explored in this book will help you to

analyse your own practice and to carry out your own small-scale research projects. Explaining the theoretical issues and demonstrating their practical implementation, this topical book will be an essential resource to new student teachers on undergraduate and PGCE courses, and those returning to postgraduate study.

Dealing with the nuts and bolts of computer graphics, this book explains the mathematical theory that underlines computer graphics applications. The numerous examples are accompanied by exercises to test understanding.

The ninth edition of this well known text continues to integrate theory with practice. As in the previous editions, the systems model serves as the framework and integrates five constituent management functions - Planning, Organizing, Staffing, Leading, and Controlling. This new edition comes with a greater emphasis on leadership while retaining the international view of managing. The learner would find examples from top companies and renowned individuals which would not only help them deliberate upon but explore new vistas in management.

The authors have observed and analysed the components of social abilities and how they influence, through language and literacy the likely outcome of the lives and identities of individuals and groups.

The 14th Revised Edition of the book "Corporate Accounting" includes the provision of the Companies Act, 2013, SEBI rules and regulations and Accounting Standards, wherever applicable. The whole book has been updated and corrections made wherever required. Theory and accounting treatment has been revised as per Accounting Standards - 4 (Revised) and Companies (Amendment) Act, 2019. Each aspect of a chapter has been discussed in detail in order to meet the requirements of the syllabus prescribed by different universities and professional institutes. Salient Features of the Book The following features are worth nothing in the present text: • The illustrations and assignment material has been made to conform to the

requirements of Schedule III of the Companies Act, 2013. The relevant problems/ solutions has also been revised. • The revised revision of Paragraph 14 of Accounting Standards — 4 concerning Financial Statements regarding Proposed final dividend has been incorporated at relevant pages and the illustrations amended accordingly. • The relevant provisions of Ind AS — 7: Statements of Cash Flows dealing with Bank Overdraft and Proposed Dividend have also been taken care of in this book. • In the chapter of Redemption of Debentures, the treatment of interest on Debenture Redemption Funds Investments or Profit (or Loss) on the sale of DRFI have been also summerised in the chapter. • All chapters have been revised and udapted. A new text of the Apologies of Justin Martyr with introduction, translation, and commentary. An emphasis is placed on distinguishing the original text from later edits and understanding the complex history of the text in manuscript and print tradition. The introduction explores the second-century socio-historic context of the work. (For the Students of MBA, PGDBM, M.COM. And Other Management Courses)

REVISED AS PER UGC MODEL CURRICULUM FOR B.Sc. (PASS/HONS.) OF ALL INDIAN UNIVERSITIES

One of our nation's most prolific and widely discussed political theorists, Ian Shapiro speaks with a distinctive voice. His work is Deweyan in its inspiration, cosmopolitan in its concerns, and practical in its referents. In this book, he provides his first extended statement on contemporary democratic politics. Democracy's Place includes seven essays in which Shapiro carefully integrates the theoretical and the applied. Four deal principally with democratic theory and its link to problems of social justice;

the other three detail applications in the United States, the postcommunist world, and the author's native South Africa. All advance a view of democratic politics which rests on principled, yet nuanced, suspicion of hierarchical social arrangements and of political blueprints. Shapiro's writing is unified as well by a pervasive concern with the relations between the requirements of democracy and those of social justice. These themes, substantiated by complex yet accessible arguments, offer a constructive democratic perspective on contemporary debates about liberalism, communitarianism, and distributive justice.

A comprehensive and up to date text developed according to the current curriculum needs in India, it is an ideal course book for students of DCA, MCA, BSc (Computer Science) and B Tech.

A 1920 selection of extracts that are mainly characteristic of their authors.

The book is unique -it admirably combines the theory, law and practice of banking in India. The book is divided into two parts. The first part on 'Banking theory' gives a detailed analysis of commercial banking: functions, asset distribution, credit creation, recent trends in commercial banking

in India, Narasimhan committee reports, reforms, role and management of central banks, RBI - monetary policy, control of money market, evolution of bill market scheme, development banking, agricultural banking as well as capital market. Part 2 on Banking Law and practice explains relationship between banker and customer, negotiable instruments, employment of bank funds, investment in securities... Lastly some landmark judgements by Supreme Court relevant to Banking sector.

Macro economics examines the events and forces that effects one's economy but which originates from outside of one's defined geo-economic area. Macro events may be financial events such as the faltering of an economy of another country as well as non financial events such as the effects on a societies economy as a result of a major nature event such as a flood or earthquake. A chart would help outline the key factors in a macro economic society.

Includes a short biographical introduction to each person, followed by excerpts from their writings.
