This book presents the first critical edition of the "Syncategoreumata" by the thirteenth-century philosopher Peter of Spain (Petrus Hispanus Portugalensis), accompanied by a facing-page English translation to make its contents accessible to modern readers. The introduction gives an account of all the manuscripts used for the edition. Extensive indexes have been added to facilitate the reader's orientation in the book. The treatise on syncategorematic words is a detailed discussion on all kinds of linguistic expressions that do not have a complete meaning by themselves, but only in combination with categorematic terms, e.g. nouns, adjectives. The so-called "syncategoreumata" include prepositions, conjunctions, modal words, and the verbs 'is' ("est"), 'begins' ("incipit") and 'ceases' ("desinit"). The work is an indispensable source-book for understanding theories on the philosophy of language and logic thinking in the thirteenth century. Moreover, the treatise throws considerable light on the author's views concerning ontological and metaphysical matters.

A five-volume translation of the classic sixteenth-century Chinese novel on the domestic life of a corrupt merchant.

"Rifles, handguns, shotguns, muzzleloaders, ammo, optics"--Cover.

"These three stories, set during the summer of 1940, draw on Italo Calvino's memories of his own adolescence during the Second World War, too young to be forced to fight in Mussolini's army but old enough to be conscripted into the Italian youth brigades. The callow narrator of these tales observes the mounting unease of a city girding itself for war, the looting of an occupied French town, and nighttime revels during a blackout. Appearing here in its first English translation, *Into the War* is one of Calvino's only works of autobiographical fiction. It offers both a glimpse of this writer's ex-

traordinary life and a distilled dram of his wry, ingenious literary voice."--from cover, page [4].

1st August 1937. A parade of red flags marches through Paris. It is the funeral procession for Gerda Taro, the first female photographer to be killed on a battlefield. Robert Capa, who leads the procession, is devastated. They have been happy together: he taught her how to use the Leica before they left together to fight in the Spanish Civil War. Other figures from Gerda's past are in the crowd: Ruth Cerf, her friend from Leipzig, who shared the hardships of their first years in Paris after feeling from Germany; Willy Chardack, who resigned himself to the role of loyal companion after Gerda snubbed him for Georg Kuritzkes, a fighter in the International Brigades. For all of them, Gerda will remain a stronger and more vivid presence than her image of anti-fascist heroine. It is her who binds together a narrative spanning distant times and places, bringing back to life the snapshots of these young people and the challenges they faced in the 1930s, from economic depression to the rise of nazism, to the hostility towards refugees in France. But for those who loved her, those young years would remain a time when, as long as Gerda was alive, everything seemed possible.

This text explores the Colosseum's construction, architecture, uses and administration. Over 200 images, ranging from coins to paintings, sketches and contemporary photographs illustrate how the building has been seen throughout the ages.

Lady Snowblood is a woman born with a singular purpose, revenge. Revenge for the death of her father at the hands of greedy criminals. Revenge for the life of her mother, who birthed her in a prison to continue this demon's path of death. Sometimes this path is odd, sometimes sexy, often painful, and always violent. By means of a world's worth of skills, Lady Snowblood will find her revenge. But who knows what lies at the end of this path. • Skillfully written by Kazuo Koike of Lone Wolf and Cub fame and master-drafted by Kazuo Kamimura, Lady Snowblood is a sexy story of a woman bound by dire desires.

This is a dystopic coming-of-age graphic novel about two brothers trying to discover the secret of their father's diary. Two pre-adolescent brothers scavenge a post-apocalyptic landscape for anything that might help each other and their father exist for one more day. Although their survival hangs in the balance, the boys are obsessed with only one thing—the diary their father keeps. They've never been taught to read or write, but they have a hunch that the scribbles might answer their questions. Land of the Sons is Gipi's most artistically accomplished work to date.

A stunningly illustrated metaphysical thriller by the European titan.

Before his remarkable *Little Nemo in Slumberland*, McCay created two strips starring young children. Today, Winsor McCay (1867-1934) is universally acknowledged as the first master of both the comic strip and the animated cartoon. Although invented

by others, both genres were developed into enduring popular art of the highest imagination through McCay's innovative genius. From the publishers of the widely-acclaimed deluxe reprint *Little Nemo In Slumberland: So Many Splendid Sundays*, this book features all of the Little Sammy Sneeze color pages (1904-05) plus *Hungry Henrietta*, McCay's other comic, which appeared on the back of Sammy in the Sunday New York Herald. The unique style of this book presents two other flipside comics of 1904: *The Woozlebeasts* and *The Upside Downs*, along with the complete 27-chapter saga of *Hungry Henrietta*. All comics are digitally restored in the original size and colors.

By Richard Evans Schultes, Harvard University, Cambridge, Massachusetts, and Albert Hofmann, Basel, Switzerland. With Forewords by I. Newton Kugelmass and Henrich Kluver. The Second Edition of this book encompasses all of the advances that have been made in this field since publication of the original text. Newly discovered hallucinogenic plants have been incorporated into the discussions along with new information on some well-known drugs. The authors continue to focus on the botany and chemistry of hallucinogens, although they also consider ethnobotanical, historical, pharmacological and psychological aspects. Initial chapters delineate definition, botanical distribution, and structural types of hallucinogenic plants. Plants of known, possible and dubious hallucinogenic potential are then covered in separate sections. The bibliography for this new edition has been enlarged to accommodate all of the recent activity in botanical and chemical investigation of psychoactive plants. Readers will also appreciate the excellent illustrations that accompany the text.

The diversity crisis in paleontology refers not to modern biota or the fossil record, but rather how our discipline lacks significant representation of individuals varying in race, ethnicity, and other aspects of identity. This Element is a call to action for broadening participation through improved classroom approaches as described in four sections. First, a brief review of the crisis and key concepts are presented. Next, culturally responsive pedagogy and related practices are introduced. Third, specific applications are offered for drawing cultural connections to studying the fossil record. Finally, recommendations including self-reflection are provided for fostering your own cultural competency. Our discipline offers much for understanding earth history and contributing new knowledge to a world impacted by humans. However, we must

first more effectively welcome, support, and inspire all students to embrace meaning and value in paleontology; it is critical for securing the future of our field.

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of *Korean: A Comprehensive Grammar* makes it an essential reference source on the Korean language.

This classic study remains the best single introduction to the Egyptian mythological world. The Egyptians lived apart from the rest of the ancient world, and it is this isolation that makes their ideas so difficult to appreciate and interpret. Egyptian thought was presented in terms of mythology: myth was used to convey insights into the workings of nature and the ultimately indescribable realities of the soul ...

Through a thoughtful consideration of the complexity of the religious landscape of the Atlantic basin, the collection provides an enriching portrayal of the intriguing interplay between religion, gender, ethnicity, and authority in the early modern Atlantic world.

This volume of the "Documentary History of the Jews in Italy" is the ninth of the second series, illustrating the history of the Jews in Sicily based on notarial and court records. It is the sequel to the eight volumes of the first series. Notarial deeds drawn up by public notaries in Palermo and elsewhere and cases brought before the Pretorian Court in Palermo present a kaleidoscopic picture of the private lives of the Jews of Sicily during the last three centuries of their presence on the island. They illustrate the economic, social and religious history of the Jewish minority and the relations with the Christian majority. Much information is provided on trade and commerce, crafts and professions, religious and family life. Some light is thrown also on the internal life of the communities, particularly the larger ones, including organization and institutions, the synagogue, education, customs and traditions. Although the surviving legal deeds present only a fraction of the total drawn up in those years, they are copious and abundant. Over 30,000 documents of this group were selected for publication, most appearing here for the first time. While some documents are discussed at length, the majority are only presented in summary form. The volume is provided with additional bibliography and indexes, while the introduction will appear at the end of the series. When civil war erupts in Somalia, cousins Domenica Axad and Barni are separated and forced to flee the country. Barni manages to eke out a living in Rome, where she works as an obstetrician. Domenica wanders Europe in a painful attempt to reunite her broken family and come to terms with her past. After ten years, the two women reunite. When Domenica gives birth to a son, Barni, also known as Little Mother, is at her side. Together with the new baby, Domenica and Barni find their Somali roots and start to heal the pain they have suffered in war and exile. This powerful yet tender novel underscores the strength of women, family, and community, and draws on the tenacious yearning for a homeland that has been denied.

Who Will Usher in Earth's Final Days? Are we living in the end times? Is it possible that the players depicted in the book of Reve-

lation could be out in force today? And if they are, would you know how to recognize them? In *Agents of the Apocalypse*, noted prophecy expert Dr. David Jeremiah does what no prophecy expert has done before. He explores the book of Revelation through the lens of its major players—the exiled, the martyrs, the elders, the victor, the king, the judge, the 144,000, the witnesses, the false prophet, and the beast. One by one, Dr. Jeremiah delves into their individual personalities and motives, and the role that each plays in biblical prophecy. Then he provides readers with the critical clues and information needed to recognize their presence and power in the world today. The stage is set, and the curtain is about to rise on Earth's final act. Will you be ready?

Dark moments seem like sweetness and light to lovers who dance to the beat of a dying heart. Ugly is beauty to them, horror is their laughter, and souls, dark or bright need not apply.

Bacon published this interesting little work in 1609. It contains thirty-one fables abounding with a union of deep thought and poetic beauty. In most fables he explains the common but erroneous supposition that knowledge and the conformity of the will, knowing and acting, are convertible terms.

The "Gothic" style was a key trend in Italian cinema of the 1950s and 1960s because of its peculiar, often strikingly original approach to the horror genre. These films portrayed Gothic staples in a stylish and idiosyncratic way, and took a daring approach to the supernatural and to eroticism, with the presence of menacing yet seductive female witches, vampires and ghosts. Thanks to such filmmakers as Mario Bava (*Black Sunday*), Riccardo Freda (*The Horrible Dr. Hichcock*), and Antonio Margheriti (*Castle of Blood*), as well the iconic presence of actress Barbara Steele, Italian Gothic horror went overseas and reached cult status. The book examines the Italian Gothic horror of the period, with an abundance of previously unpublished production information drawn from official papers and original scripts. Entries include a

complete cast and crew list, home video releases, plot summary and the author's analysis. Excerpts from interviews with filmmakers, scriptwriters and actors are included. The foreword is by film director and scriptwriter Ernesto Gastaldi.

Are we all at the mercy of our brain chemistry? Do you think that the amygdala and the hippocampus are fantastical sea monsters? What can an MRI scan tell us? Could you explain to dinner-party guests why we don't giggle when we tickle ourselves? *30-Second Brain* is here to fill your mind with the science of exactly what's happening inside your head. Using no more than two pages, 300 words and an illustration, this is the quickest way to understand the wiring and function of the most complex and intricate mechanism in the human body. Discover how the networks of 90 billion nerve cells work together to produce perception, action, cognition and emotion. Explore how your brain defines your personality, and what it gets up to while you are asleep. Illustrated with mind-bending graphics and supported by biographies of pioneers in the field of neuroscience, it's the book to get your grey matter thinking about your grey matter.

Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

Reminiscent of *Scheherazade* and *One Thousand and One Nights*, Gianni Rodari's *Telephone Tales* is many stories within a story. Every night, a traveling father must finish a bedtime story in the time that a single coin will buy. One night, it's a carousel that adults cannot comprehend, but whose operator must be some sort of magician, the next, it's a land filled with butter men who melt in the sunshine. Awarded the Hans Christian Anderson Award in 1970, Gianni Rodari is widely considered to be Italy's most important children's author of the 20th century. Newly re-illustrated

by Italian artist Valerio Vidali (*The Forest*), *Telephone Tales* entertains, while questioning and imagining other worlds.

Just when you thought Garth Ennis had gone too far, just when you thought it was safe to walk the streets, just when you thought no one would go near the idea of the world's first superhero prostitute... here comes *The Pro*.

1927: The first talkie ended the silent film era, the first man completed a solo transatlantic flight, and... a zombie virus decimated the human race.
