A Review of Makita's Best Impact Drivers - Best Tools Reviews

As world leaders in cordless technology, Makita have taken charge. At Makita we innovate for the good of our industry, always including features and technology which give definite benefits to our users. Our new Lithium-ion Technology with faster charge times and longer run times, keep you working for longer, and at 40% lighter reduce fatigue.

The Makita DTD152 is an excellent impact driver for general use. It has more than enough power for most jobs, with 165Nm torque, up to 2900 rpm and up to 3500 ipm, there are not many jobs this impact driver can not do. Building decking, fencing, unscrewing stubborn screws, no problem for this little heavy duty power tool.

The best Makita impact driver is the DTD171Z. It currently has the most torque at 180Nm, brushless motor and has adjustable 4 speed settings for different applications. The DTD171 is the newest impact driver from Makita. Previous models do not have as much torque and lack the adjustable 4 speed settings for different applications. Product Rating: (4.7 / 5) New Makita Impact Driver For 2020?
