Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular inter-

est to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

The great English Renaissance tragedy—violent, powerful, unforgettable—in a freshly edited and annotated student edition. “Neill’s edit of the play is very well done. ... If there’s a more knowledgeable or erudite unraveling of the play, I haven’t seen it.” —Steve Sohmer, *Comitatus* This Norton Critical Edition of John Webster’s 1612–13 tragedy offers a newly edited and annotated text together with a full introduction and illustrative materials intended for student readers. The Duchess of Malfi’s themes of love, loyalty, and betrayal have resonated through the centuries, making this a perennially popular play with audiences and readers alike. This volume includes a generous selection of supporting materials, among them Webster’s likely sources for the play (William Painter, George Whetstone, Simon Goulart, and Thomas Beard) as well as related works by Webster and George Wither on widows, funerals, and memorializing death. A generous selection from Mark H. Curtis’s classic essay, “The Alienated Intellectuals of Early Stuart England,” tells readers as much about the character of Bosola as it does about his creator. Henry Fitzgeffrey (1617) and Horatio Busino (1618) provide early responses to the play. “Criticism” is thematically organized to provide readers with a clear sense of The Duchess of Malfi’s central themes of dramaturgy; the politics of family, court, and religion; and gender. Also included are essays on contemporary re-imaginings of the play and its critical reception over time. Contributors include Don D. Moore, Inga-Stina Ewbank, Christina Luckyj, Barbara Correll, D. C. Gunby, Lee Bliss, Rowland Wymer, Brian Chalk, Theodora Jankowski, and Pascale Aebischer. A selected bibliography is also included.

When in 1821, the Greeks rose in violent revolution against the rule of the Ottoman Turks, waves of sympathy spread across Western Europe and the United States. More than a thousand volunteers set out to fight for the cause. The Philhellenes,

whether they set out to recreate the Athens of Pericles, start a new crusade, or make money out of a war, all felt that Greece had unique claim on the sympathy of the world. As Byron wrote, ‘I dreamed that Greece might Still be Free’; and he died at Missolonghi trying to translate that dream into reality. William St Clair’s meticulously researched and highly readable account of their aspirations and experiences was hailed as definitive when it was first published. Long out of print, it remains the standard account of the Philhellenic movement and essential reading for any students of the Greek War of Independence, Byron, and European Romanticism. Its relevance to more modern ethnic and religious conflicts is becoming increasingly appreciated by scholars worldwide. This new and revised edition includes a new Introduction by Roderick Beaton, an updated Bibliography and many new illustrations.

In 1683, two empires - the Ottoman, based in Constantinople, and the Habsburg dynasty in Vienna - came face to face in the culmination of a 250-year power struggle: the Great Siege of Vienna. Within the city walls the choice of resistance over surrender to the largest army ever assembled by the Turks created an all-or-nothing scenario: every last survivor would be enslaved or ruthlessly slaughtered. The Turks had set their sights on taking Vienna, the city they had long called ‘The Golden Apple’ since their first siege of the city in 1529. Both sides remained resolute, sustained by hatred of their age-old enemy, certain that their victory would be won by the grace of God. Eastern invaders had always threatened the West: Huns, Mongols, Goths, Visigoths, Vandals and many others. The Western fears of the East were vivid and powerful and, in their new eyes, the Turks always appeared the sole aggressors. Andrew Wheatcroft’s extraordinary book shows that this belief is a grievous oversimplification: during the 400 year struggle for domination, the West took the offensive just as often as the East. As modern Turkey seeks to re-orient its relationship with Europe, a new generation of politicians is exploiting the residual fears and tensions between East and West to hamper this change. The Enemy at the Gate provides a timely and masterful account of this most complex and epic of

conflicts.

"In the past century, few have done more to establish the Air Force and its logistics enterprise as we know it today than Maj Gen Hugh J. Knerr; fewer still are as unique. An early aviator, Knerr established the first airlift mission and led the procurement effort for the B-17 with Gen Frank Andrews before WWII. After which he led a campaign for the autonomous air force that put him at odds with the War Dept and the White House. During WWII, Knerr led logistics planning efforts to mobilize the Eighth Air Force in European Theatre of Operations (ETO) and later amassed theatre-wide authority of logistics, aligning the entire logistics effort of the Army Air Forces (AAF) in the ETO. Amongst many career accomplishments, Knerr ended his career as the USAF's first Inspector General establishing the Office of Special Investigations (OSI) and is accredited with designing the USAF's dress blue uniform. Little known fact, Knerr began aviation interests as a child at the mouth of the wellspring, building kites and scrubbing toilets for the Wright Brothers at their bicycle shop. His memoirs penned in the months preceding his death in 1971, now published, give a personal insight into this formative period of the Air Force and offer the perspective only one of its architects could tell. Further, his pursuit of innovation, disruption of barriers, and challenges to the status quo are exceptionally relevant to present day Air Force as it seeks to accelerate change"--

Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and

market efficiency.

Jason, Piper, and Leo, three students from a school for "bad kids," find themselves at Camp Half-Blood, where they learn that they are demigods and begin a quest to free Hera, who has been imprisoned by Mother Earth herself. Suggested level: intermediate, junior secondary.

One of the Verge's Best Books of 2017 Captain Ronaldo Aldo has committed an unforgivable crime. He will ask for forgiveness all the same: from you, from God, even from himself. Connected by ansible, humanity has spread across galaxies and fought a war against an enemy that remains a mystery. At the edge of human space sits the Citadel—a relic of the war and a listening station for the enemy's return. For a young Ensign Aldo, fresh from the academy and newly cloned across the ansible line, it's a prison from which he may never escape. Deplorable work conditions and deafening silence from the blackness of space have left morale on the station low and tensions high. Aldo's only hope of transcending his station, and cloning a piece of his soul somewhere new is both his triumph and his terrible crime. The Fortress at the End of Time is a new science fiction novel from Joe M. McDermott. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Location: Our galaxy, at a time set far in our future ... Every 50,000 years, a race of machines returns to harvest the galaxy's organic life forms. In the first MASS EFFECT game, it is the year 2183, and the machines are about to return once again. This book will be a bridging novel set between the first and second MASS EFFECT games.

This booklet helps Adult Children of Alcoholics groups provide an adequate atmosphere of safety where ACAs can go to express their stored shame and blame, their fear and excitement, and their disappointments and successes.

This novel continues the all-new, completely original story begun in the first three MASS EFFECT stories. The heroine, Gillian, was once the subject of horrifying scientific experiments, but now, after her rescue, she is beginning to master her amazing powers. But when she falls under the sway of a radical group who believes their powers make them superior to ordinary humans, she finds herself faced with a choice between her destiny . . . and her humanity.

in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Ken Kesey's bracing, insightful novel about the meaning of madness and the value of self-reliance, and the inspiration for the new Netflix original series *Ratched* Boisterous, ribald, and ultimately shattering, Ken Kesey's *One Flew Over the Cuckoo's Nest* has left an indelible mark on the literature of our time. Turning conventional notions of sanity and insanity on their heads, the novel tells the unforgettable story of a mental ward and its inhabitants, especially tyrannical Big Nurse Ratched and Randle Patrick McMurphy, the brawling, fun-loving new inmate who resolves to oppose her. We see the story through the eyes of Chief Bromden, the seemingly mute half-Indian patient who witnesses and understands McMurphy's heroic attempt to do battle with the powers that keep them all imprisoned. Hailed upon its publication as "a glittering parable of good and evil" (*The New York Times Book Review*) and "a roar of protest against middle-brow society's Rules and the invisible Rulers who enforce them" (*Time*), Kesey's powerful book went on to sell millions of copies and remains as bracing and insightful today as when it was first released. This new deluxe hardcover edition commemorates the fiftieth anniversary of the original publication of the novel on February 1, 1962, and will be a must have for any literature lover.

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scot-

land, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Whether you're an armchair tourist, are visiting Rome for the first time, or are a veteran of the city's charms, travelers of all ages and stages will benefit from this fascinating guidebook to Rome's ancient city. Aicher's commentary orients the visitor to each site's ancient significance. Photographs, maps, and floorplans abound, all making this a one-of-a-kind guide. A separate volume of sources in Greek and Latin is available for scholars who want access to the original texts.

Canadian War Trophies describes the captured weapons and equipment of former adversaries on display in Canada, including war prizes from the Crimean War, the Fenian Raids, the Boer War, the Great War, the Second World War, the Korean War, the Cold War, the Yugoslav Wars and Afghanistan.

The New York Times bestseller from the author of *The Bullpen Gospels*. "A humorous, candid and insightful memoir . . . Grade: Home Run."—Cleveland Plain Dealer After six years in the minors, pitcher Dirk Hayhurst hopes 2008 is the year he breaks into the big leagues. But every time Dirk looks up, the bases are loaded with challenges—a wedding balancing on a blind hope, a family in chaos, and paychecks that beg Dirk to ask, "How long can I afford to keep doing this?" Then it finally happens—Dirk gets called up to the Majors, to play for the San Diego Padres. A dream comes true when he takes the mound against the San Francisco Giants, kicking off forty insane days and nights in the Bigs. Like the classic games of baseball's history, *Out of My League* entertains from the first pitch to the last out, capturing the gritty realities of playing on the big stage, the comedy and camaraderie in the dugouts and locker rooms, and the hard-fought, personal journeys that drive our love of America's favorite pastime. "A rare gem of a baseball book."—Tom Verducci, *Sports Illustrated* "Observant, insightful, human, and hilarious."—Bob Costas "A fun read . . . This book shows why baseball is so often used as a metaphor for life."—Keith Olbermann "Entertaining and engaging . . . reminiscent of Jim Bouton's

Ball Four."—Booklist "The book is a terrific read. If you loved *Bullpen Gospels* (I'd have a hard time believing you are a baseball fan if you didn't) you will love *Out of My League* too."—Bluebird Banter

Honor Frost has written a travel book with this difference: her journeys have extended below the surface of the sea. Her accounts of these regions can be compared with the writings of early travellers who, unhampered by overspecialization, recorded a variety of observations on completely unknown places. In setting down her direct experience she has thrown new light on the much discussed subject of underwater archaeology. This book contains 22 colour and 28 monochrome photographs by well known divers, also 52 plans and drawings by the author illustrating her arguments. It is addressed to travellers.

"Early to bed, early to rise, work like hell and advertise!" These words of fatherly advice helped shape Ted Turner's remarkable life, but they only begin to explain the colorful, energetic, and unique style that has made Ted into one of the most amazing personalities of our time. Along the way - among his numerous accomplishments -- Ted became one of the richest men in the world, the largest land owner in the United States, revolutionized the television business with the creation of TBS and CNN, became a champion sailor and winner of the America's Cup, and took home a World Series championship trophy in 1995 as owner of the Atlanta Braves. An innovative entrepreneur, outspoken nonconformist, and groundbreaking philanthropist, Ted Turner is truly a living legend, and now, for the first time, he reveals his personal story. From his difficult childhood to the successful launch of his media empire to the catastrophic AOL/Time Warner deal, Turner spares no details or feelings and takes the reader along on a wild and sometimes bumpy ride. You'll also hear Ted's personal take on how we can save the world...share his experiences in the dugout on the day when he appointed himself as manager of the Atlanta Braves....learn how he almost lost his life in the 1979 Fastnet sailing race (but came out the winner)...and discover surprising details about his dealings with Fidel Castro, Mikhail Gorbachev, Jimmy Carter, Bill Gates, Jack Welch, Warren Buffett, and many more of the most influential people of the past half century. Ted also doesn't shrink from the darker and more intimate details of his life. With his usual frankness, he discusses a childhood of loneliness (he was left at a boarding school by his parents at the tender age of four), and the emotional impact of devastating losses (T-

ed's beloved sister died at seventeen and his hard-charging father committed suicide when Ted was still in his early twenties). Turner is also forthcoming about his marriages, including the one to Oscar-winning actress, Jane Fonda. Along the way, Ted's friends, colleagues, and family are equally revealing in their unique "Ted Stories" which are peppered throughout the book. Jane Fonda, especially, provides intriguing insights into Ted's inner drive and character. In *CALL ME TED*, you'll hear Ted Turner's distinctive voice on every page. Always forthright, he tells you what makes him tick and what ticks him off, and delivers an honest account of what he's all about. Inspiring and entertaining, *CALL ME TED* sheds new light on one of the greatest visionaries of our time.

A history of Africa from the 16th to the 18th centuries, this study concentrates on the continuing evolution of African states and cultures, the increase in external trade, and the consequences of the slave trade. The series is co-published in Africa with seven publishers, in the United States and Canada by the University of California Press, and in association with the UNESCO Press.

Currently Updating for Legendary Edition This guide for Mass Effect 2 Legendary Edition features all there is to see and do including a walkthrough containing coverage of all the main campaign Missions, Assignments, as well as a detailed breakdown of all the important choices, class builds and much more! - Full details on all possible Romances.
- In-depth class builds for Shepard with an emphasis on Insanity difficulty strategies.
- Details on every Power.
- Builds for all squad mates.
- Trophy/Achievement guide.

From ancient Egypt through the nineteenth century, *Sexual Personae* explores the provocative connections between art and pagan ritual; between Emily Dickinson and the Marquis de Sade; between Lord Byron and Elvis Presley. It ultimately challenges the cultural assumptions of both conservatives and traditional liberals. 47 photographs.

Currently Updating for Legendary Edition For years, a lone soldier has told tales of the Reapers, of their return, of these sen-

tient machines reaching out across the vastness of space, to harvest all sentient life. But the warnings were all for nothing. Until now. The Reapers have at last come to Earth and these warnings can no longer be ignored. You are Commander Shepard, the first human spectre and elite soldier of the Alliance, tasked with uniting the galaxy in the fight to stop the Reapers destroying everything you hold dear. In your hands lies the fate of the entire Milky Way but luckily, this time, you are no longer alone. - Strategies guaranteed to get you through this epic story in one piece. - All side missions completed. - Fool-proof boss tactics. - Find every single weapon mod tucked away in the game. - The location of every war collectible, solar system, hidden fuel station and war asset uncovered in detail. - Full coverage of all three DLC packs Leviathan, Omega and Citadel.

Humanity has reached the stars, joining the vast galactic community of alien species. But beyond the fringes of explored space lurk the Reapers, a race of sentient starships bent on 'harvesting' the galaxy's organic species for their own dark purpose. The Illusive Man, leader of the pro-human black ops group Cerberus, is one of the few who know the truth about the Reapers. To ensure humanity's survival, he launches a desperate plan to uncover the enemy's strengths - and weaknesses - by studying someone implanted with modified Reaper technology. He knows the perfect subject for his horrific experiments: former Cerberus operative Paul Grayson, who wrested his daughter from the cabal's

control with the help of Ascension project director Kahlee Sanders. But when Kahlee learns that Grayson is missing, she turns to the only person she can trust: Alliance war hero Captain David Anderson. Together they set out to find the secret Cerberus facility where Grayson is being held. But they aren't the only ones after him. And time is running out.

Teaching Christianity is the most original book Augustine ever wrote. It is not so much a treatise or scholarly work but an instruction manual on how to teach Christianity. He wrote this how to book for those who would be preaching and explaining Christianity. It is entirely based on the bible and helps the reader express its truths of faith with soundproof methodology. It is a book that will help readers to communicate their message in a clear and effective way. Edmund Hills new translation of Augustines treatise On Christian Doctrine is superb. His early and mature thought on how to understand scripture and how to communicate that understanding to others is set forth clearly and attractively. The translator has shown great discernment in his choice of words and in their placement. This makes for a smooth reading. Extremely valuable are the scholarly endnotes provided after each of the four books. The new title chosen by Edmund Hill, namely, Teaching Christianity indicates that Augustine is here instructing the African clergy, probably the bishops, how to preach effectively to their congregations. The treatise is not focused on doctrine. Sr. Mary T. Clark, RSCJ Manhat-

tanville College President, Society for Medieval and Renaissance Philosophy

Every advanced society in the galaxy relies on the technology of the Protheans, an ancient species that vanished fifty thousand years ago. After discovering a cache of Prothean technology on Mars in 2148, humanity is spreading to the stars, the newest interstellar species struggling to carve out its place in the greater galactic community. On the edge of colonized space, ship commander and Alliance war hero David Anderson investigates the remains of a top secret military research station: smoking ruins littered with bodies and unanswered questions. Who attacked this post, and for what purpose? And where is Kahlee Sanders, the young scientist who mysteriously vanished from the base hours before her colleagues were slaughtered? Sanders is the prime suspect, but finding her creates more problems for Anderson than it solves. Partnered with a rogue alien agent he can't trust and pursued by an assassin he can't escape, Anderson battles impossible odds on uncharted worlds to uncover a sinister conspiracy - one he won't live to tell about. Or so the enemy thinks.

"Del Rey book." Battling the Taurans in space was one problem as Private William Mandella worked his way up the ranks to major. In spanning the stars, he aged only months while Earth aged centuries.

Nero was negligent, not tyrannical. This allowed others to rule, remarkably well, in his name until his negligence became insupportable.
