Maven Build Customization

Maven is built with a plugin-based architecture; the core architecture provides a set of features that can be extended through a set of official or custom plugins downloadable from

repositories. Maven comes with the convention over configuration philosophy. The origin of this philosophy resides in the idea that accepting conventions resulting from a set of past experiences leads to advantages such as saving time, reuse, and maintenance simplification.

Roberto Baldi is the author of Distributorship, Franchising, Agency (4.00 avg rating, 1 rating, 0 reviews, published 1988) and Maven Build Customization ...
