Warranty does not cover materials that are subject to natural consumption. Cooling towers used with the chillers have to be selected according to 24°C ÷ 32°C as maximum condenser inlet water temperature values. If the chillers have to be stored prior to installation, the following warnings have to be observed.

McQuay water cooled PROXIMUS [EVOLUTION] is a new range of chillers using the last generation of McQuay StarGate TM single screw compressors. They are manufactu red by McQuay to satisfy the requirements of the consultants and the end users.

R-134a refrigerant has no ozone depletion potential and no phase-out schedule. Most efficient full load and part load operation, up to COP 6.0. Quietest sound levels published, as low as 79 dBA with no attenuation. Largest capacity water-cooled screw chiller, up to 530 tons. Small footprint to optimize space.
