One approach that we hope can help bring further advances for both scholars and practitioners is the provision of a set of empirical tools for measuring social capital. The purpose of this paper is to introduce such a tool-the Integrated Questionnaire for the Measurement of Social Capital (SC-IQ)-with a focus on applications in developing countries.

Measuring Social Capital : An Integrated Questionnaire

Measuring Social Capital: An Integrated Questionnaire is part of the World Bank Working Paper series. These papers are published to communicate the results of the Bank's ongoing research and to stimulate public discussion.

Measuring Social Capital: An Integrated Questionnaire ...

The idea of social capital has enjoyed a remarkable rise to prominence in both the theoretical and applied social science literature over the last decade. While lively debate has accompanied that journey, thereby helping to advance our thinking and clarifying areas of agreement and disagreement, much still remains to be done. One approach that could help bring further advances for both ...

Integrated Reporting Council (IIRC). 1.2 The capitals identified by the IIRC are: financial capital, manufactured capital, intellectual

capital, human capital, social and relationship capital, and natural capital. Together they represent stores of value that are the basis of an organization's value creation.

CAPITALS - Integrated Reporting

Social capital cannot be measured directly, but can be inferred from its determinants or manifestations. The determinants are factors that have an impact on social interactions and therefore allow social capital to come about (read more). Manifestations are the outcomes of social capital (read more) for example lower crime rates.

Measuring Social Capital An Integrated Questionnaire World ...

Callahan (1996) supported this, identifying that while it is hard to measure social capital directly, it can be inferred from its powerful effects. The choice of indicators to measure social capital is also guided by the scope of the concept and the breadth of the unit of observation used (Collier 2002) [11]. Social capital is such a complex concept that it is not likely to be represented by any single measure or figure.
