Chief Data Officer, Meet Generation Z Welcome to the first truly post-Christian generation. Move over Boomers, Xers, and Millennials; there's a new generation--making up more than 25 percent of the US population--on the scene that represents a seismic cultural shift. Born approximately between 1993 and 2012, Generation Z is poised to challenge every church to rethink its role in light of a rapidly changing culture.

As with every new generation, "Gen Z" will profoundly affect not only the world, but how companies must do business. Chief Data Officers, in particular, will want to take note of this new generation as they begin to grow up, because many of their attitudes and behavior toward data are shifting from that of previous generations.

Generation Z, also known as the iGeneration, was born after 1995, which means the eldest among them will start graduating from college in the next year and may already be part of the workforce or internship programs. In India, they represent roughly 20.1% million people, and while many of

Overview. Move over Boomers, Xers, and Millennials; there's a new generation—making up more than 25 percent of the US population—that represents a seismic cultural shift. Born approximately between 1993 and 2012, Generation Z is the first truly post-Christian generation, and they are poised to challenge every church to rethink its role in light of a rapidly changing culture.

Emma Spagnuolo: Gen Z is our latest generation. It's not super clear today where they end; it hasn't been defined. But they started out in 1996, and they're up to 24 years old. When you think about millennials, you're looking more at a 20- to a 40-year-old, so roughly 1980 to 2000.

Generation Z, on the other hand, was raised by Generation X, a relatively small generation characterized by grunge music, slasher films, and the post-Vietnam disillusion.

sionment of the 1970s.
