The R-Series BMW MINI had a lot to live up to. Launched in 2001, it was riding in the wake of the classic 1959-2000 Mini. At the time, BMW were going to have to create something as special and innovative as its

longstanding predecessor in order to silence the naysayers. And they did. Since its launch in 2001, BMW's modern MINI has become the pinnacle of small yet funky family cars in the premium small (and sometimes not so small) car segment. Now in its third generation, having unveiled the new F-Series in 2014, BMW MINI offers 3- and 5-door hatchback models and convertibles, the estate Clubman, the five-door Countryman, the Coupe, the Roadster and the three-door crossover Paceman. MINI enthusiast and motoring journalist Sophie Williamson-Stohtert explores the journey from 1959 to the present day, covering design and development of the new MINI, launch and reception by the press, its many model variations and special editions, and an owner's and buyer's guide. Superbly illustrated with 170 colour photographs.

Of particular interest to present day owners, registration authorities, car club officials, as well as motoring and engineering historians, is a record of what BMC/Leyland passenger vehicles were produced and the means by which they were identified. Our aim in this book is to provide an authoritative reference to this end.

No car has had such a profound impact on the motoring scene as the original Mini. De-

signed in response to petrol shortages in the late 1950s, it was introduced in 1959 in both Austin and Morris guises, with either basic or De Luxe trim levels. Success came swiftly, and before long its makers at BMC were introducing van, pick-up and estate versions, high-performance Mini Coopers, and higher equipment levels on the Mini Super. Right through the 1960s, the success story continued, and the original formula proved so right that the updated Mk II models of 1967 were instantly recognisable as versions of the original and much-loved car. These early Minis are as much admired and sought-after today as ever, offering their own unique blend of nimble driving pleasure with readily affordable running costs. They are also increasingly the subject of detailed, part-number-perfect restorations, and this book is designed to help all those who aim to restore one of these early British-built Minis to their correct specification. Within these pages, respected classic car historian James Taylor gives each major model of Mini its own section. These sections provide full details of specifications and examine individual areas of each model in depth. They are backed up by colour photography

of outstanding examples that illustrate the way these cars looked when they were new. Body panels, external trim and badging, paint colours, interior trim, dashboard, instruments and controls, under-bonnet components, engine and transmission, lights -- all this and more is comprehensively covered for both Mk I and Mk II Minis. For rapid reference to vital information, this formula has proved to be the most useful one for restorers. With more than 300 specially commissioned colour photographs, Factory-Original Mini will delight and enthral the restorer and the more casual Mini enthusiast alike.

Filled with everything restorers are looking for including Mini history, buying information, specs, bodywork, mechanics, interiors, electrics, mods, tools, color schemes, clubs and more. Clear, step-by-step photographs and instructions make this the book for renovating your bodywork and interiors, giving new life to mechanical and electrical components, plus improved performance and appearance. Covers all models including Mini Cooper. Strongly recommended. For those who love Minis, or are thinking about buying.

The idea of "The Green Book" is to give

the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind

of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
