How after a long uphill struggle to get help and recognition, finding every cloud has a silver lining when Nicky is diagnosed as bordering on genius. She later goes on to discuss his bizarre behaviour, his humour and eccentricities. Digging deeper into the family for a possible genetic/hereditary link, Georgie's humorous look at her colourful family and friends, not to mention thieving ex-husbands, cheating boyfriends, no-one is excluded. Even Ellwood Blues the dog that ran off with her Xmas turkey and disgraced himself. Told in Georgie's northern gritty humour, this is a refreshingly honest account of her life so far, and the rollercoaster of emotion she'd found herself on.

International Standard Banking Practice (ISBP) for the examina-

tion of documents under documentary credits, answers the most relevant questions practitioners have concerning how UCP 500, ICC's universally used rules on documentary credits, are to be integrated into day-to-day practice. The product of more than two years of work by the ICC Banking Commission, ISBP is based on the official Opinions issued by the Banking Commission in response to queries submitted by users of UCP 500. The text provides responses to the key questions relating to the examination of drafts, multimodal transport documents, insurance documents, certificates of origin and a range of other documents associated with letters of credit. This publication reflects international standard banking practice for all parties to a documentary credit. Figures show that 60%-70% of credits are rejected for discrepancies on first presentation. The new ISBP, by encouraging a uniformity of practice worldwide, is expected to cut these figures dramatically and, by doing so, to facilitate the flow of world trade.

Projects and programmes should achieve a return on the investment made by the owner or sponsor. This return is now thought of as the benefits that accrue from the investment: some financial, others perhaps harder to define, but nonetheless just as important in justifying the investment. Making sure that they are realised, and that unanticipated benefits are maximised, is as important as the initial justification, and without that many projects have earned a bad name for project management. This publication provides comprehensive guidance on how to manage delivery of the benefits used to justify investment in change. It provides guidance for all involved in successful change delivery from senior responsible owners and directors through to portfolio, programme and project managers. The guidance is the source material for an accredited qualification from APMG-International
