About the Aprilaire Humidifier Digital Humidistat Controller White The Aprilaire 65 Humidistat is an automatic digital control that works like the Aprilaire 58 but has an added feature that can turn your HVAC blower on when humidification is needed, even if there is no need for heat at the time.

RH levels on your Humidifier Control, therefore, is an important safeguard. Condensation of water on inside windows in the form

of fogging or frost is usually an indication of too much relative humidity.

The Aprilaire 65 Automatic Humidistat Controller is designed for use with any Aprilaire humidifier requiring an ON/OFF signal for a 24 volt circuit. The control allows you to set the RH (Relative Humidity) level for your home and will control your humidifier to maintain the setting.

For use with Aprilaire Humidifier model 400, 500, 600 and 700 Series. The Model 60 digital humidistat can turn on your HVAC blower when there's no need for humidification or heat. The control will accurately control the humidity in your home based on outdoor temperature to maintain the maximum comfort.
