learning, and they use the school's surrounding facilities in full; for example, they take the children to the London Museum and have a variety of local play areas that they visit. On a monthly basis the Montessori co-ordinator and key persons write an Individual Development Plan for each child based on observations and photographic evidence from

is a family-run childcare business based in London. As a small family-run company with over two decades of Early Years experience, we agree that you should not have to compromise your child's need for an intimate, homely, and safe environment if you choose childcare in central London. Our nursery settings have been carefully designed to offer you just that.

Children develop gross motor skills as they climb, jump and swing, and also social skills as they take turns on equipment and play hide and seek. Montessori believed strongly that children should be in touch with the substance of their world, encouraging work with clay, gardening and growing activities, and even building little houses.

Montessori saw that children learn best by doing and that happy self-motivated learners form positive images of themselves as confident, successful people. She created specially designed resources to foster independence and a love for learning from an early age. The Montessori approach is holistic and aims to develop the whole child.

Playful Learning and Montessori Education.

s. Angeline S. Lillard. Although Montessori

education is often considered a form of

playful learning, Maria Montessori herself

spoke negatively about a major

component of playful learning—pretend

play, or fantasy—for young children. In this

essay, the author discusses this apparent

contradiction: how and why Montessori

education includes elements of playful

learning while simultaneously eschewing

fantasy.
