Moonshine is actually a big part of American history. After the Revolutionary War the government imposed a tax on liquors and other alcoholic drinks, a lot of people at this time could not or did not want to pay this extra cost for liquor so they started making their own. That was the beginning of "moonshining" or homemade liquors.

Urban Drinks - Moonshine

MOONSHINE | meaning in the Cambridge English Dictionary

Taking inspiration from the night sky, Moonshine has been designed and fitted out to the highest of standards creating the perfect romantic luxury bolthole with spectacular, rolling Cornish countryside views of the nearby valley. Ideally placed to explore the surfing beaches and hidden country villages of North Cornwall.

The first 5% of the moonshine flowing from your still is known as the foreshots. This is a lethal product that contains methanol. It has been known to cause blindness and shouldn't be consumed. The next 30% of the moonshine flowing from your still is known as the heads.

Moonshine was originally a slang term for high-proof distilled spirits that were and continue to be produced illicitly, without government authorization. Distilling such spirits outside a registered distillery remains illegal in the United States and most countries around the world.
