This book provides a framework for translating ideas from the academic laboratory to commercial ventures. The book is designed for academic researchers (advanced PhD students, post-doctoral fellows, university faculty and staff) who believe their research ideas could be the basis for a commercial venture. The book contains a complete program to create their entrepreneurial ecosystem by enabling scientist entrepreneurs to drive their discoveries to commercial impact. The authors from MIT and SMART have been working with academic researchers in Singapore for over ten years to help them de-risk an idea for an early-stage technology-based venture to prepare them to raise capital and initiate a NewCo. We developed a set of best practices during this work by teaching over 300 scientists, researchers, and postdocs in our Bootcamp for academic researchers and providing them with the tools to be scientist entrepreneurs. These teams have gone on to start over 44 companies. Through our real-time experience in working with academic researchers, supplemented with our personal experience in technology start-ups, we developed the Adaptive Innovation™ Framework. It is a must-read for any researcher, scientist, or engineer in the deep-tech area who wants to drive their discovery to commercial success and achieve societal impact.

The Lost Science of Synchrony is the Lankavatara Sutra's thesis. An ancient text, based on an outlawed teaching, gathered from the ruins of an obliterated dynasty, it is heretical and revolutionary concerning doctrine and religion. Hidden away as an esoteric treasure for 1600 years, the single translation from Sanskrit to English required computer analysis to understand. This book minimizes the esoteric and explains the limitations and challenges of human potential, its relevance is life changing. The ancients gave us a basis to understand who we are and how to go beyond our animal limitations, into a wellbeing beyond our wildest dreams. This challenging book reveals a whole new paradigm beyond imagination and discrimination. Like Everest it's not for the faint hearted, but man what a view. Effortless belonging is the greatest desire of sentient awareness and the pinnacle of consciousness, driven by destiny and nature, as something we are called to experience. In this book, a vocabulary and basis to understand our authentic nature is revealed in a spiraling staircase of logic without esoteric obscurity. It's as simple as the pause between thoughts and as profound as a surprise, which keeps you awake at night.

Cleanliness is next to enlightenment. In this Japanese bestseller a Buddhist monk explains the traditional cleaning techniques that will help cleanse not only your house - but your soul. 'We remove dust to sweep away our worldly desires. We scrub dirt to free ourselves of attachments. We live simply and take time to contemplate the self, mindfully living each moment. It's not just monks that need to live this way. Everyone in today's busy world today needs it. The Zen sect of Buddhism is renowned for the cleanliness of its monks, but cleaning is greatly valued in Japanese Buddhism in general as a way to cultivate the mind. In this book, I introduce everyday cleaning methods typically employed in temples, while sharing what it's like to be a monk in training. This book will improve the condition not just of your own mind, but also the people around you. I hope readers will discover that cleanliness is an opportunity to contemplate oneself.'

"The real cycle you're working on is a cycle called 'yourself.'" One of the most important and influential books of the past half-century, Robert M. Pirsig's *Zen and the Art of Motorcycle Maintenance* is a powerful, moving, and penetrating examination of how we live and a meditation on how to live better. The narrative of a father on a summer motorcycle trip across America's Northwest with his young son, it becomes a profound personal and philosophical odyssey into life's fundamental questions. These hilarious essays on life inside and outside a Zen monastery make up the spiritual memoir of Shozan Jack Haubner, a Zen monk who didn't really start out to be one. Raised in a conservative Catholic family, Shozan went on to study philosophy (becoming de-Catholicized in the process) and to pursue a career as a screenwriter and stand-up comic in the clubs of L.A. How he went from life in the fast lane to life on the stationary meditation cushion is the subject of this laugh-out-loud funny account of his experiences. Whether he's dealing with the pranks of a juvenile delinquent assistant in the monastery kitchen or defending himself against claims that he appeared in a porno movie under the name "Daniel Reed" (he didn't, really) or being surprised in the midst of it all by the compassion he experiences in the presence of his teacher, Haubner's voice is one you'll be compelled to listen to. Not only because it's highly entertaining, but because of its remarkable insight into the human condition.

What does it mean to interact with sound? How does interactivity alter our experience as creators and listeners? What does the future hold for interactive musical and sonic experiences? For Jews, Zen students, "JuBus," and other open-minded seekers--a guide to authentic Jewish and Zen practice and how they illuminate, challenge, and enrich each other. Books like the Jew in the Lotus have helped to define the intersection of Jewish and Zen experience and custom. Now, in the first guide to the practice of both Judaism and Zen, Dr. Brenda Shoshanna, a long-time practitioner and student of both, shares her insights with over one million people who identify as "JuBus," as well as Jews, Zen students, non-Jews, and everyone in the interfaith community who seeks understanding, meaning, and a life grounded in these authentic faiths. Each chapter of Jewish Dharma focuses on common issues that introduce disorder to our lives, using personal narrative, parables, quotations from both Jewish and Zen scriptures, anecdotes, and exercises. Specific guidelines and exercises help readers integrate both practices into their everyday lives--and thereby gain deeper understanding and happiness. A long term Zen student and practicing Jew (who cannot let go of either), Dr. Shoshanna explores the ways in which Zen and Judaism practice illuminate and enrich one another. Zen deepens Jewish experience and Jewish practice provides the warmth and relationships that can get lost in the Zen. Zen is based on radical freedom, individuality, being in the present and nonattachment. Judaism comes rooted in relationships, family, love, prayer to a Higher power and the instruction to always remember. A Jewish heart is warm, giving, human, and devoted to family and friends. A Zen eye is fresh, direct, spontaneous and planted in the present moment. Together they are like two wings of a bird, both are needed to be able to fly. The book includes stories, discussion, information and wonderful exercises. It has been highly endorsed by Rabbis, Zen teachers, and others. "I couldn't put it down. ...Dr Brenda Shoshanna guides us into the heart of Jewish and Zen practice which enrich one another in ways that enhance....A must read for anyone who wishes to explore Zen meditation and Jewish life." --Rabbi Marcia Prager, author The Path of Blessing "Brenda Shoshanna's book tells a story of a woman's coming to terms with the deepest part of each tradition - she is creating a unique path. I highly recommend this book to anyone." --Rodger Kamenetz, author The Jew in The Lotus "Dr Shoshanna's vision embraces both traditions with fidelity and beauty." --Robert Kennedy, S.J. Roshi, author Zen Gifts for Christians "Her good heart and wisdom mind shine through in this delightful, interesting, psychologically astute and practical book. Anyone interested in finding deeper understanding and meaningful purpose in life will be rewarded by reading any one of the pages." --Lama Surya Das, author Awakening the Buddha Within
