9E8YJ9 - MICHAEL DECKER

Stunning photos of whales, dolphins, sharks, octopuses, clown fish, and other appealing sea animals introduce the very youngest explorers to the wonders of Earth's ocean, from its depths to its shores. These sturdy pages showcase ocean life with amazing photographs, sim-

ple facts, and lively, age-appropriate language to keep babies and toddlers-and their grown-ups-fascinated by every colourful page. Designed to be the steppingstone to the best-selling National Geographic Little Kids First Big Book series, the Little Kids First Board Book series takes similar subjects and distils them down to the simplest non-fiction concepts for the

youngest audience. Not only will readers learn about the ocean and its creatures, they can also find recurring shapes and patterns in the design. Occasional callouts add humour for adults, and sidebar text offers additional learning for older siblings or those ready for more complex information. With their square shape, bright and playful design, amazing photography,

clear text, and cues to encourage interactive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun. I design, amazing photography, clear text, and cues to encourage interactive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun.

A fact-filled introduction to the wild and wonderful world of weather. You'll discover how a rainbow forms; learn why some places are hot and others cold; and even play some games!

"Pictures and information about birds for very young children"--

Following the bestseller "Little Kids First Big Book of Why," this second entry features even more of the endless "Why?" questions preschoolers love to ask! This charming reference answers some of kids' most burning "Why?" questions and includes more than 200 colorful photos.

National Geographic spins off its best-

selling Little Kids First Big Book series into engaging new board books to introduce even the littlest kids to high-quality nonfiction. These sturdy pages explore the basics of the solar system with amazing photographs, super-simple facts, and lively, age-appropriate language to keep babies and toddlers--and their grown-ups--fascinated by every colorful page. With stunning photos of the Earth and other planets, this beautiful book introduces the very youngest explorers to the wonders of the space, beginning right here on Earth and expanding into the universe beyond. Designed to be the stepping stone to the Little Kids First Big Book series, the National Geographic Little Kids First Board Books take similar subjects and drill them down to the simplest nonfiction concepts for the youngest audience. Not only will readers learn about planets and our solar system, they can also find recurring shapes and patterns in the design; occasional callouts will add humor for adults, and sidebar text offers additional learning for older siblings or those ready for more complex information. With their square shape, bright and playful design, awesome photography, clear text, and cues to encourage interac-

tive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun.

From cats to dogs to guinea pigs to birds to fish to snakes and more, this adorable reference book introduces kids to a wide variety of family-friendly pets. Readers learn which kinds of animals make good pets and which ones are better off staying in the wild, along with how each type of pet eats, sleeps, and plays. Packed with more than 200 colorful photos, the book also provides information on animal breeds, characteristics, and behavior and includes tips for training pets. Filled with fun facts and designed for interactive learning, this book will quickly become a favorite at storytime, bedtime, and any time.

Introduce preschoolers to the wonders of

the world with this beginner atlas, created with the map experts at National Geographic. Simple, colorful maps, bold pictures, and accessible text present basic geography, continent by continent, to spark kids' curiosity about the planet we inhabit. They'll learn elementary mapping skills and concepts such as the difference between a globe and a map. They'll learn answers to questions, like what is a compass rose? What features make up the land? Where is the ocean? And what are the countries where people (and animals) live? Reviewed by geography and early childhood consultants, this delightful atlas makes our world accessible to even the most junior explorers.

Introduces dinosaurs, describing popular species and how to pronounce their names.

Introduces several of the ocean's species, provides profiles of creatures, from dolphins and sharks to sea otters and penguins, while sharing facts about their characteristics, diets, and habitats.

This lively introduction to the fascinating world of science explores the different kinds of science, what scientists do, and

the amazing things that scientists study: animals and plants; oceans and space; earthquakes and volcanoes; sound and light; inventions and more! Make sure kids' first experience of the wonders of science is a thrilling eye-opener with this fun reference book. Fun activities, games, and simple experiments encourage interactive learning, showing kids that anyone can use scientific observation and experimentation to be a scientist and discover new things. With bright images and age-appropriate text, this book inspires kids to be curious, ask questions, and explore the world around them and maybe even grow up to be a scientist one day, too! Topics include astronomy, botany, paleontology, malacology (that's the science of clams, snails, and other animals with shells!), zoology, and more.

This charming reference introduces young readers to the wider world by exploring languages, landscapes, weather, animals, capital cities, mountains, deserts, and other landscapes and landforms, and more. It encourages kids to get play with activities such as creating a mini-rainforest in a bottle and singing a simple song in Spanish. More than 100 colorful photos are paired

with kid-friendly and age-appropriate maps along with basic facts about each continent. This book will quickly become a favorite at storytime, bedtime, or any other time. From the Hardcover edition.

National Geographic spins off its best-selling Little Kids First Big Book series into engaging new board books to introduce even the littlest kids to high-quality nonfiction. These sturdy pages showcase animals and how they move, with amazing photographs, super-simple facts, and lively, age-appropriate language to keep babies and toddlers--and their grown-ups---fascinated by every colorful page.
