Memorias 2013 - 5a Conferencia Científica Anual sobre Síndrome Metabólico NCEP ATP IV Guideline S: 2013 Update * Dr. Marcelo Ramírez Mendoza.

The NCEP has predicted that the new ATP III guidelines will increase the number of Americans requiring treatment for elevated cholesterol levels (from 52 million to 65 million) and nearly triple the number of Americans who will need to take cholesterol lowering drugs (from 13 million to 36 million Americans).

Overview of Clinical Guidelines in Lipid Management

The National Cholesterol Education Program's (NCEP) recommendations for cholesterol management identify elevations in LDL cholesterol (LDL-C) as the primary rationale for cholesterol-lowering therapy. 1 Dietary therapy is the first line of treatment of high blood cholesterol, and drug therapy is reserved for patients at elevated risk for coronary heart disease (CHD). The guidelines consider additional cardiovascular risk factors, such as age, family history of premature CHD, current ...

I cannot remember practice guidelines more delayed,

groundbreaking, and controversial than the 2013 American College of Cardiology/American Heart Association cholesterol guidelines . They are groundbreaking for using a new race-specific estimator to generate both 10-year and lifetime cardiovascular risk, for considering both stroke and coronary heart disease risk, and especially for replacing low-density lipoprotein (LDL) cholesterol goals with specific drug and dose treatment targets.

The New Cholesterol Guidelines | JACC: Journal of the ...

In contrast to previous expert consensus guidelines, the 2013 cholesterol guideline used the more rigorous approach to avoid bias recommended by the US Institute of Medicine in its report 'Clinical Practice Guidelines We Can Trust'. 12 Convened by the National, Heart, Lung, and Blood Institute as the ATP IV, the panel was charged with developing a guideline for drug treatment of blood cholesterol to reduce atherosclerotic cardiovascular disease (ASCVD) risk, based on fair to good quality ...

2013 ACC/AHA guideline on the treatment of blood ...

Abstract. The 2013 American College of Cardiology/American Heart Association (ACC/AHA) cholesterol guideline advocated several changes from the previous Adult Treatment Panel III guidelines. Assuming full implementation, the 2013 ACC/AHA guideline would identify ≈13 million Americans as newly eligible for consideration of statin therapy.
