"Illuminating . . . 24 academic essays covering Wiesel's interpretations of the Bible, retellings of Talmudic stories . . . his post-Holocaust theology, and more." —Publishers Weekly Nobel Peace Prize recipient Elie Wiesel, best known for his writings on the Holocaust, is also the accomplished author of novels, essays, tales, and plays as well as portraits of seminal figures in Jewish life and experience. In this volume, leading scholars in the fields of Biblical, Rabbinic, Hasidic, Holocaust, and literary studies offer fascinating and innovative analyses of Wiesel's texts as well as enlightening commentaries on his considerable influence as a teacher and as a moral voice for hu-

man rights. By exploring the varied aspects of Wiesel's multifaceted career—his texts on the Bible, the Talmud, and Hasidism as well as his literary works, his teaching, and his testimony—this thought-provoking volume adds depth to our understanding of the impact of this important man of letters and towering international figure. "This book reveals Elie Wiesel's towering intellectual capacity, his deeply held spiritual belief system, and the depth of his emotional makeup." —New York Journal of Books "Close, scholarly readings of a master storyteller's fiction, memoirs and essays suggest his uncommon breadth and depth . . . Criticism that enhances the appreciation of readers well-versed in the author's work." —Kirkus Reviews

"Navigating deftly among Wiesel's varied scholarly and literary works, the authors view his writings from religious, social, political, and literary perspectives in highly accessible prose that will well serve a broad and diverse readership." —S. Lillian Kremer author of *Women's Holocaust Writing: Memory and Imagination* *Palliative Care Nursing: Caring for Suffering Patients* explores the concept of suffering as it relates to nursing practice. This text helps practicing nurses and students define and recognize various aspects of suffering across the life span and within various patient populations while providing guidance in alleviating suffering. In addition, it examines spiritual and ethical perspectives on suffering and discusses how wit-

nessing suffering impacts nurses' ability to assume the professional role. Further, the authors discuss ways nurses as witnesses to suffering can optimize their own coping skills and facilitate personal growth. Rich in case studies, pictures, and reflections on nursing practice and life experiences, *Palliative Care Nursing: Caring for Suffering Patients* delves into key topics such as how to identify when a patient is suffering, whether they are coping, sources of coping facades, what to do to ease suffering, and how to convey the extent of suffering to members of the healthcare team.

Collection of critical essays about Elie Wiesel's Holocaust memoir, *Night*. What, exactly, does one mean when idealizing tolerance as a solution to cultural conflict? This book examines a wide range of young adult texts, both fiction and memoir, representing the experiences of young adults during WWII and the Holocaust. Author Rachel Dean-Ruzicka argues for a progressive reading of this literature. *Tolerance Discourse and Young Adult Holocaust Literature* contests the modern discourse of tolerance, encouraging educators and readers to more deeply engage with differ-

ence and identity when studying Holocaust texts. Young adult Holocaust literature is an important nexus for examining issues of identity and difference because it directly confronts systems of power, privilege, and personhood. The text delves into the wealth of material available and examines over forty books written for young readers on the Holocaust and, in the last chapter, neo-Nazism. The book also looks at representations of non-Jewish victims, such as the Romani, the disabled, and homosexuals. In addition to critical analysis of the texts, each chapter reads the discourses of tolerance and cosmopolitanism against present-day cultural contexts: ongoing debates regarding multicultural education, gay and lesbian rights, and neo-Nazi activities. The book addresses essential questions of tolerance and toleration that have not been otherwise considered in Holocaust studies or cultural studies of children's literature.

In 2005, Bob and Sallie Solis of the Phoenix area took their life savings to start a home for orphaned children in South Africa. After seeing so much suffering caused by AIDS on a

family mission trip, they felt called to do something to ease the pain of children they encountered. In this book, Bob Solis movingly recalls some of the most poignant stories from an incredible journey which has given 55 children a home to call their own. Bob's strong Christian faith and commitment to service gives him deep insight into the wonderful journey that led to the founding and growth of Open Arms Home for Children. Praise for *From the Darkest Places Come the Brightest Lights* "Bob Solis has written a book from the depths of his heart with imagination, humor, wit, compassion and unwavering trust in Divine Providence. I highly recommend this book. Reading it will enrich your life." -Father Joe Corpora, C.S.C. University of Notre Dame "Coach Jim Valvano said 'there are three things we should do every day. Number one is laugh. Number two is think. Number three is have your emotions moved to tears.' I did all three by the sixth page of this book!" -Duane Kuiper, Major League Broadcaster and former big leaguer "This is a beautiful book about life, love and faith. While they are too humble to admit it, Bob (aka 'Bobo') and

Sallie are heroes ... at least for the children who are blessed to live at Open Arms. We have been there and it is heaven on earth for these kids. If you want to be inspired to listen carefully to your own calling, read this book. I loved it. " -Addison "Tad" Piper, Former Chairman of the Board, Piper Jaffray Inc. "This powerfully moving book is like observing a master songwriter craft his Magnum Opus - it will inspire you, encourage you and most profoundly cause you to ask yourself, 'How can I sit in my rocking chair when the house is on fire?'" -Rev. Dale Hopely, Jr., Senior Pastor, The Church at Litchfield Park With Foreword by Randall McDaniel, Member of the Pro Football Hall of Fame

A New Translation From The French By Marion Wiesel Born in Sighet, Transylvania, Elie Wiesel was a teenager when he and his family were taken from their home in 1944 and deported to the Auschwitz concentration camp, and then to Buchenwald. Night is the terrifying record of Elie Wiesel's memories of the death of his family, the death of his own innocence, and his despair as a deeply observant Jew confronting the absolute evil of man. This new

translation by his wife and most frequent translator, Marion Wiesel, corrects important details and presents the most accurate rendering in English of Elie Wiesel's seminal work.

'There are no stupid questions, nor any forbidden ones, but there are some questions that have no answer.' Hédi Fried was nineteen when the Nazis snatched her family from their home in Eastern Europe and transported them to Auschwitz, where her parents were murdered and she and her sister were forced into hard labour until the end of the war. Now ninety-four, she has spent her life educating young people about the Holocaust and answering their questions about one of the darkest periods in human history. Questions like, 'How was it to live in the camps?', 'Did you dream at night?', 'Why did Hitler hate the Jews?', and 'Can you forgive?'. With sensitivity and complete candour, Fried answers these questions and more in this deeply human book that urges us never to forget and never to repeat.

Elie Wiesel has given hundreds of interviews. Yet his fame as a human rights advocate often directs such conversations

toward non-literary issues. Indeed, many of Wiesel's questioners barely address the writer's role that has defined him since the 1950s. Unlike previous volumes in which he speaks with interviewers, Elie Wiesel: Conversations collects interviews which set in relief the writer at work. This book focuses on Wiesel the literary artist instead of Wiesel the Holocaust survivor or the 1986 Nobel Peace Prize laureate. Beyond highlighting Wiesel's literary significance, these interviews also correct many faulty assumptions about his achievement. Few American readers know that he writes in French, that he has been favorably compared to André Malraux and Albert Camus. Not many realize that the Holocaust has been the subject of only a few of his forty books. Particularly in his nonfiction, Wiesel's scope is wide, addressing Jewish life in all its religious and historical complexity. Though most of Wiesel's books do not focus on the Holocaust, they are written against the backdrop of what he has come to term "The Event." Always, the presence of Auschwitz can be felt, always the author "lives in the shadows of the flames that once illu-

minated and blinded him." These interviews are reminders that the writing life is both solitary and public, interior and social. The writer must venture beyond his study and speak out against the world's traumas and outrages. Robert Franciosi is an associate professor of English at Grand Valley State University in Allendale, Mich. He is the editor of *Good Morning: A Holocaust Memoir*. His work has appeared in *American Poetry*, *Contemporary Literature*, *Modern Jewish Studies*, and the *William Carlos Williams Review*.

Provides the most complete listing available of books, articles, and book reviews concerned with French literature since 1885. The bibliography is divided into three major divisions: general studies, author subjects (arranged alphabetically), and cinema. This book is for the study of French literature and culture.

Fantasies of Witnessing explores how and why those deeply interested in the Holocaust, yet with no direct, familial connection to it, endeavor to experience it vicariously through sites or texts designed to make it "real" for nonwitnesses. Gary Weissman

argues that far from overwhelming nonwitnesses with its magnitude of horror, the Holocaust threatens to feel distant and unreal. A prevailing rhetoric of "secondary" memory and trauma, he contends, and efforts to portray the Holocaust as an immediate and personal experience, are responses to an encroaching sense of unreality: "In America, we are haunted not by the traumatic impact of the Holocaust, but by its absence. When we take an interest in the Holocaust, we are not overcoming a fearful aversion to its horror, but endeavoring to actually feel the horror of what otherwise eludes us." Weissman focuses on specific attempts to locate the Holocaust: in the person of Elie Wiesel, the most renowned survivor, and his classic memoir *Night*; in videotaped survivor stories and Lawrence L. Langer's celebrated book *Holocaust Testimonies*; and in the films *Shoah* and *Schindler's List*. These representations, he explains, constitute a movement away from the view popularized by Wiesel, that those who did not live through the Holocaust will never be able to grasp its horror, and toward re-creating the Holocaust as an

"experience" nonwitnesses may put themselves through. "It is only by acknowledging the desire that gives shape to such representations, and by exploring their place in the ongoing contest over who really 'knows' the Holocaust and feels its horror, that we can arrive at a more candid assessment of our current and future relationships to the Holocaust," he says.

Eight prominent philosophers and theologians confront the problems posed by natural and human evil for theistic belief. Each thinker sets out his or her theodicy and its connections to current social and philosophical debates. The other contributors then offer critiques of each theodicy, to which its author subsequently responds. The result is a valuable introduction to philosophical and theological perspectives on contemporary evil and to the nature of discourse in the philosophy of religion.

Elie Wiesel is an internationally known author, human rights advocate, and lecturer. *Night*, his first book (1956 in Yiddish, 1958 in French, 1960 in English; a new English translation appeared in 2006), has become a classic memoir of a Jewish survivor of the Holocaust.

The seventeen essays of this volume in the MLA series Approaches to Teaching World Literature examine the historical, cultural, and literary contexts of Wiesel's book as well as strategies for teaching it in the classroom. Part 1, "Materials," provides resources on the Jewish ghettos and concentration camps of World War II, on the Jewish faith and religious practices, on the genre of victims' diaries, on the critical reception of *Night*, on Wiesel's other work, and on available audiovisual materials. Part 2, "Approaches," addresses many subjects—among them, Wiesel's narrative techniques, the representation of Auschwitz, the use of different languages, the comparison of Wiesel with Primo Levi, the problems of memory and bearing witness, the Christian response to the Holocaust, and the challenge of teaching a grim and painful text to students.

Johann Baptist Metz is one of the most important Roman Catholic theologians in the post-Vatican II period, however there is no comprehensive overview of his theological career. This book fills that gap. It offers careful analyses and summaries of Metz's

work at the various stages of his career, beginning with his work on Heidegger and his collaboration with Karl Rahner. It continues with his work in the nineteen-sixties when he moved off in a radically different direction to found a "new political theology" culminating in his seminal work, *Faith in History and Society*. Metz addresses themes ranging from the situation of the Church "after Auschwitz," the future of religious life in the Church, and the relationship between religion and politics after the end of the cold war. J. Matthew Ashley covers all of Metz's writings along with his crucial relationships to figures like Karl Rahner, Martin Heidegger, Ernst Bloch, Walter Benjamin and the social critics of the early Frankfurt School. *Interruptions* shows that despite the dramatic turn in the nineteen-sixties there is an underlying continuity in Metz's thought. Ultimately, however, the underlying continuity in Metz's career is defined by a spirituality, a spirituality that is painfully yet hopefully open to the terrible suffering that characterizes our century, a spirituality founded in the Prophets, in Lamentations, and in the figures of Job and the Jesus of

Mark's Gospel. This book shows how Metz has tried to find theological concepts adequate for expressing this spirituality—which he calls a "Mysticism of open Eyes" or of "suffering unto God"—and to work out its political implications. To this end the book has an opening chapter on the relationship between spirituality and theology, and a closing chapter that shows that the most fundamental difference between Rahner and Metz is rooted in the different Christian spiritual traditions out of which the two operate. *Interruptions* is essential reading for anyone interested in Spirituality and Mysticism and in their relation to political philosophy.

Elie Wiesel is a master storyteller with the ability to use storytelling as a form of activism. From his landmark memoir *Night* to his novels and numerous retellings of Hasidic legends, Wiesel's literature emphasizes storytelling, and he frequently refers to himself as a storyteller rather than an author or historian. In this work, essays examine Wiesel's roots in Jewish storytelling traditions; influences from religious, folk, and secular sources; education; Yiddish background; Holo-

caust experience; and writing style. Emphasized throughout is Wiesel's use of multiple sources in an effort to reach diverse audiences.

A veteran hockey writer takes on hockey culture and the NHL--addressing the games most controversial issue Whether its on-ice fist fights or head shots into the glass, hockey has become a nightly news spectacle--with players pummeling and bashing each other across the ice like drunken gladiators. And while the NHL may actually condone on-ice violence as a ticket draw, diehard hockey fan and expert Adam Proteau argues against hockey's transformation into a thugish blood sport. In *Fighting the Good Fight*, Proteau sheds light on the many perspectives of those in and around the game, with interviews of current and former NHL stars, coaches, general managers, and league executives, as well as medical experts. One of the most well-known media figures on the hockey scene today, famous for his funny, feisty observations as a writer for the *Toronto Star* and *The Hockey News* and commentator on CBC radio and TV, Adam Proteau is also one of the few main-

stream media voices who is vehemently anti-fighting in hockey. Not only is his book a plea to the games gatekeepers to finally clamp down on the runaway violence that permeates the sport even at its highest level, he offers realistic suggestions on ways to finally clean the game up. • Includes interviews with medical experts on head injuries and concussions, as well as with other members of the media • The author not only wages an attack on the value of fighting in hockey--but also on the establishment hockey culture Covering the most polarizing issue in hockey today, *Fighting the Good Fight* gives hockey fans and sports lovers everywhere a reason to stamp their feet and whistle--at a rare display of eloquence and common sense. A man seriously injured when hit by a car is taken to the hospital where a doctor, the woman who loves him, and his artist friend lead him to yearn for life rather than death.

Developing Faithful Ministers aims to support the work of all those involved in supervision and training relationships within the Church. The Church recognising its call to serve God and the nation seeks to equip and develop its ministers to face the challenge of ministry in a society at the threshold of Christendom that is in a mission context. It is a context where both the general public and the institutional church have significant expectations of those in ministry. Indeed, there is now an expectation of 'demonstrable capability' prior to being licensed to any form of permanent tenure. The demand for more professional, demonstrably capable, mission able and collaborative licensed ministers places particular weight on the efficacy of the initial training relationship. "Developing Faithful Ministers" seeks to support those who find themselves in these relationships by offering both models of good practice and sustained theological reflection on what these drivers mean for developing ministry.

A six-day series of interviews between Nobel Peace Prize Laureate Elie Wiesel and French journalist Michaël de Saint

Cheron, *Evil and Exile* probes some of the most crucial and pressing issues facing humankind today. Having survived the unspeakable evil of the Holocaust, Wiesel remained silent for ten years before dedicating his life to the memory of this tragedy, witnessing tirelessly to remind an often indifferent world of its potential for self-destruction. Wiesel offers wise counsel in this volume concerning evil and suffering, life and death, chance and circumstance. Moreover, the dialogue evokes candid and often surprising responses by Wiesel on the Palestinian problem, Judeo-Christian relations, recent changes in the Soviet Union as well as insights into writers such as Kafka, Malraux, Mauriac, and Unamuno.

Upon presenting the 1986 Nobel Prize for Peace to Elie Wiesel, Egil Aarvick, chairman of the Norwegian Nobel Prize Committee, hailed him as "a messenger to mankind--not with a message of hate and revenge but with one of brotherhood and atonement." Elie Wiesel: Messenger to All Humanity, first published in 1983, echoes this theme and still affirms that message, a call to both Christians and Jews to face the

tragedy of the Holocaust and begin again.

Discusses the characters, plot and writing of *Night* by Elie Wiesel. Includes critical essays on the novel and a brief biography of the author.

Contains a literary criticism of the work of Elie Wiesel and presents a contemporary analysis of the Jewish response to the Holocaust of World War Two.

Beginning with Marcel Ophus's documentary *The Sorrow and the Pity* (1970) there has been an attempt to question the idea of a totally unified, courageous and resistant wartime France. Even more startling have been the increasingly shocking revelations that the politics of collaboration were a mere extension of a deep-seated French anti-semitic tradition. In the shadow of these developments French writers and philosophers today are reflecting on the meaning of Jewish identity in the contemporary world. *Auschwitz and After* analyses for the first time how the memory of Auschwitz and the collaboration continue to haunt the French. These critical evaluations are accompanied by provocative essays on the "Jewish Question" and the

politics of race as they have been studied by writers, historians, philosophers and film makers in postwar France.

Deals with the conflicts and thoughts of a young Jewish concentration-camp veteran as he prepares to assassinate a British hostage in occupied Palestine.

Back to Earth is the powerful, personal journey of a man in his middle years who senses that he has drifted away from the ideals of his youth and who must now search for coherence, belief, and a renewed spirituality following the breakup of his marriage and family. Living alone in a cabin in the woods, Temple searches his past and tells tales of experiences backpacking in Colorado, Dakota, New Mexico and Alaska. His reflections focus on the spiritual and redemptive qualities of nature, the American character, and the dilemmas of the split between matter and spirit, body and soul, God and creation. As an "earnest pilgrim with a short attention span", Temple's story chronicles his journey from an intimacy with the earth to an alienation from it, and the need of all humans to find a redemptive reunion. The

book is a kind of pilgrimage as the author tries to get back home, to find God, to learn what our species once knew, and to rediscover the heart and soul of creation.

An important work on the Holocaust by a concentration camp survivor.

She was a young German Jew. He was an ardent member of the Hitler Youth. This is the story of their parallel journey through World War II. Helen Waterford and Alfons Heck were born just a few miles from each other in the German Rhineland. But their lives took radically different courses: Helen's to the Auschwitz extermination camp; Alfons to a high rank in the Hitler Youth. While Helen was hiding in Amsterdam, Alfons was a fanatic believer in Hitler's "master race." While she was crammed in a cattle car bound for the death camp Aushchwitz, he was a teenage commander of front-line troops, ready to fight and die for the glory of Hitler and the Fatherland. This book tells both of their stories, side-by-side, in an overwhelming account of the nightmare that was WWII. The riveting stories of these two remarkable people must stand as a powerful lesson to us all.

How are Holocaust events remembered and narrated, and why? What knowledge can Holocaust testimony convey? Christine June Wunderli explores these questions as she examines four works by Holocaust survivor Elie Wiesel. Guided by Bourdieu's theory of literary field as well as Young's theory of literary representation, she traces Hasidic influences in Wiesel's writing. Her conclusions are telling: Wiesel's narratives are born as memory is pulled towards both Auschwitz and the shtetl, caught up in the tension between the two. Still, the emerging trajectory is one of hope, led by a new categorical imperative.

No philosopher in the second half of the twentieth century or the opening decade of the twenty-first did more to recover the voice of philosophy in the conversation of humankind than John Edwin Smith (1921–2009). From *The Social Infinite* (1950), his landmark study of Josiah Royce, to "Niebuhr's Prophetic Voice" (2009), he has shown in compelling detail how philosophical reflection is relevant to contemporary life. Indeed, virtually all of the eventual developments within contemporary philo-

sophy in recent decades worthy of our unqualified support (above all, the acknowledgment of history, the abiding importance of the religious dimension of human experience, the hermeneutic character of all our intellectual understandings, including those of experimental inquirers, the irreducibility of persons, the ubiquity of symbols, and the cutting edge of philosophical critique) were ones to which Smith was committed at the outset of his career. He not only anticipated these developments but also pointed the way forward beyond the stultifying impasses of so much contemporary thought. In particular, his conceptions of subjectivity, symbolization, interpretation, experience and philosophy itself provide invaluable resources for twisting free from our present impasses. The essays in this volume make the salience and implications of Smith's writings on these and other topics manifest. The authors assembled here bear eloquent witness to the wit of the man no less than the depth of the philosopher from whom they learned how to take up the urgent task of philosophical reflection in a world riven by seemingly intractable conflicts and

characterized by mutual misunderstanding. John E. Smith was a widely learned man; he was also a deeply wise one. Hence, it should be no surprise that he aids us in creating ways to address such conflicts and to counter such misunderstanding. Guaranteed success for the co-taught classroom For the increasing number of teachers working in co-taught classrooms, this book provides practical ideas for defining teacher roles, planning lessons, providing effective instruction, and maximizing the value of each team member. Former co-teacher and national presenter Anne Beninghof shares stories, and real-life co-taught lesson examples that emphasize creative yet time-efficient instructional strategies that lend themselves beautifully to the co-taught classroom. Teachers and instructional leaders at all levels and in a wide variety of content areas will find this book replete with valuable co-teaching guidance so that success is guaranteed. Offers tips for effective teaching strategies for every type of team teaching situation imaginable Includes guidelines for successful team-teaching with specialists in technology; literacy; occupation-

al/physical therapy; special education; speech-language therapy; ELL; gifted The author is an internationally recognized consultant and trainer This user-friendly, comprehensive book is filled with concrete ideas teachers can implement immediately in the classroom to boost student learning and engagement.

In the late 1980s, Holocaust literature emerged as a provocative, but poorly defined, scholarly field. The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books, fiction, film, and poetry, as well as the more traditional diaries, memoirs, and journals. Ten contributors from four countries engage issues of authenticity, evangelicalism, morality, representation, personal experience, and wish-fulfillment in Holocaust literature, which have been the subject of controversies in the US, Europe, and the Middle East. Of interest to students and instructors of antisemitism, national and comparative literatures, theater, film, history, literary criticism, religion, and Holocaust studies, this book also con-

tains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context.

This is the story of Dr. Murray Haar's odyssey from Jewish tradition to Christianity and back again. As the child of Holocaust survivors, he struggled with questions of God and faith and finally left the religious tradition of his youth behind. He became an ordained Lutheran pastor and professor at a midwestern Lutheran College. Ultimately, through the influence of Elie Wiesel, he found the way back home to the Jewish tradition and community of his birth.

Engaging media has been an ongoing issue for American Jews, as it has been for other religious communities in the United States, for several generations. *Jews, God, and Videotape* is a pioneering examination of the impact of new communications technologies and media practices on the religious life of American Jewry over the past century. Shandler's examples range from early recordings of cantorial music to Hasidic outreach on the Internet. In between he explores mid-twentieth-century ecumenical radio and televi-

sion broadcasting, video documentation of life cycle rituals, museum displays and tourist practices as means for engaging the Holocaust as a moral touchstone, and the role of mass-produced material culture in Jews' responses to the American celebration of Christmas. Shandler argues that the impact of these and other media on American Judaism is varied and extensive: they have challenged the role of clergy and transformed the nature of ritual; facilitated innovations in religious practice and scholarship, as well as efforts to maintain traditional observance and teachings; created venues for outreach, both to enhance relationships with non-Jewish neighbors and to promote greater religiosity among Jews; even redefined the notion of what might constitute a Jewish religious community or spiritual experience. As *Jews, God, and Videotape* demonstrates, American Jews' experiences are emblematic of how religious communities' engagements with new media have become central to defining religiosity in the modern age.

Teaching "Night" interweaves a literary analysis of Elie Wiesel's powerful and poignant memoir with

an exploration of the relevant historical context that surrounded his experience during the Holocaust.

Gives the traditional meanings of theological terms before expanding upon the meanings from a feminist perspective

Sources of Holocaust Insight maps the odyssey of an American Christian philosopher who has studied, written, and taught about the Holocaust for more than fifty years. What findings result from John Roth's journey; what moods pervade it? How have events and experiences, scholars and students, texts and testimonies—especially the questions they raise—affected Roth's Holocaust studies and guided his efforts to heed the biblical proverb: "Whatever else you get, get insight"? More sources than Roth can acknowledge have informed his encounters with the Holocaust. But particular persons—among them Elie Wiesel, Raul Hilberg, Primo Levi, and Albert Camus—loom especially large. Revisiting Roth's sources of Holocaust insight, this book does so not only to pay tribute to them but also to show how the ethical, philosophical, and religious rever-

berations of the Holocaust confer and encourage responsibility for human well-being in the twenty-first century. Seeing differently, seeing better—sound learning and teaching about the Holocaust aim for what may be the most important Holocaust insight of all: Take nothing good for granted.

The ideal? Newly minted high school graduates all across the nation, each one a complex text genius, a writer and analytic thinker beyond compare. All on to glorious colleges and careers, thanks to the Common Core. The reality? The 1.3 million students who fail to graduate from high school each year and the hundreds of thousands more who either gave up or lost interest long ago . . . The reality is why Common Core CPR is needed. Urgently. Because if we continue to insist that all students meet expectations that are well beyond their abilities and mindsets, these kids will only decline faster. We must be brave enough-and trained enough-to cast aside what we know harms students and apply with renewed vigor the teaching methods we know work. Releah Lent and Barry Gilmore rise to the challenge, and

there are no two authors better equipped to do so. They embrace what is best about the standards-their emphasis on active, authentic learning-and then explicitly show teachers how to connect these ideal outcomes to practical classroom strategies, detailing the day-to-day teaching that can coax reluctant learners into engagement and achievement. You'll learn how to: Consider choice and relevance in every assignment Plan and spot opportunities for success Scaffold students' comprehension of complex fiction and nonfiction texts Model close reading through thoughtful questioning Teach students to use evidence in reading, writing, speaking, and reflection . . . And so much more It's not the big sweeping formulas for achievement that will win the day; it's the incremental growth that teachers need to make happen: that one book, that one writing assignment, to help a student turn a corner. "If we can get that one transformational moment to occur, and follow it up by designing more opportunities for success, that's the ideal," say Lent and Gilmore.

Abraham Joshua Heschel said that, "We are closer

to God when we are asking questions than when we have the answers." He believed that to be a Christian is not to be a person who knows all the answers but one who "lives in the part of the self where the question is constantly being born." Most of us don't think very much about our questions. In our culture, we are accustomed to being able to find out answers to nearly any question just by typing it into Google search or asking Siri. But behind any answer, there is always a question. Sometimes, the question isn't clear to us; sometimes, it is not very well articulated, even to ourselves. But it is always there. In over thirty years as a psychotherapist and spiritual director, Peter C. Wilcox has seen how the questions people ask themselves have shaped their lives in some very important ways. This book is an invitation to see how important it is to learn how to ask the right questions about our lives. This is because our choice of questions leads us on a path of discovery towards answers that help us to grow spiritually and psychologically. Our questions orient our lives and give direction to us. We will see that they enable us to make fif-

teen choices that have a tremendous impact on the kind of person we become.

The gripping tale about two boys, once as close as brothers, who find themselves on opposite sides of the Holocaust. "A novel of survival, justice and redemption...riveting." —Chicago Tribune, on *Once We Were Brothers* Elliot Rosenzweig, a respected civic leader and wealthy philanthropist, is attending a fundraiser when he is suddenly ac-

costed and accused of being a former Nazi SS officer named Otto Piatek, the Butcher of Zamosc. Although the charges are denounced as preposterous, his accuser is convinced he is right and engages attorney Catherine Lockhart to bring Rosenzweig to justice. Solomon persuades attorney Catherine Lockhart to take his case, revealing that the true Piatek was abandoned as a child and raised by Solomon's own family only to betray them during the Nazi occupation. But has

Solomon accused the right man? *Once We Were Brothers* is Ronald H. Balson's compelling tale of two boys and a family who struggle to survive in war-torn Poland, and a young love that struggles to endure the unspeakable cruelty of the Holocaust. Two lives, two worlds, and sixty years converge in an explosive race to redemption that makes for a moving and powerful tale of love, survival, and ultimately the triumph of the human spirit.
