This book constitutes the proceedings of the 13th International Conference on Transport Systems Telematics, TST 2013, held in Katowice-Ustron, Poland, in October 2013. The 58 papers included in this volume were carefully reviewed and selected for inclusion in this book. They provide an overview of solutions being developed in the field of intelligent transportation systems, and in-

clude theoretical and case studies in the countries of conference participants.

Nineteenth Century Collections Online: European Literature, 1790-1840: The Corvey Collection includes the full-text of more than 9,500 English, French and German titles. The collection is sourced from the remarkable library of Victor Amadeus, whose Castle Corvey collection was one of the most spectacular discoveries of the late 1970s. The Corvey Collection comprises one of the most important collections of Romantic era writing in existence anywhere -- including fiction, short prose, dramatic works, poetry, and more -- with a focus on especially difficult-to-find works by lesser-known, historically neglected writers. The Corvey library was built during the last half of the 19th century by Victor and his wife Elise, both bibliophiles with varied interests. The collection thus contains everything from novels and short stories to

belles lettres and more populist works, and includes many exceedingly rare works not available in any other collection from the period. These invaluable, sometimes previously unknown works are of particular interest to scholars and researchers. European Literature, 1790-1840: The Corvey Collection includes: \* Novels and Gothic Novels \* Short Stories \* Belles-Lettres \* Short Prose Forms \* Dramatic Works \* Poetry \* Anthologies \* And more Selected with the guidance of an international team of expert advisors, these primary sources are invaluable for a wide range of academic disciplines and areas of study, providing never before possible research opportunities for one of the most studied historical periods. This book focuses solely on the cars derived from the classic Mini. Small GTs, sports cars, roadsters and fun cars: Mini-derivatives that changed the specialist motoring market completely in the early sixties, and new designs kept it busy for nearly four decades. from the well known Mini Marcos and Unipower GT that raced at Le Mans, to the very obscure but as exciting Coldwell GT or Sarcon Scarab, almost 60 cars are thoroughly researched, described and photographed in this book.

Globality primarily involves large western corporations expanding their operations and moving aggressively into new overseas markets. GLOBALITY radically defines a 'post-globalization' world,

where companies from India, China, Russia, eastern Europe, Brazil and Mexico are expanding beyond their home base, entering and building new markets, creating whole industries, and competing for customers, resources, market share and attention. In short, the tide has turned. As a result, western companies need to understand these emerging new businesses and the economies they come from in order to stay ahead and stay alive. Emma Holly turns up the heat in this sinfully sensuous story of a family plagued by scandal—and a shy young woman who discovers a passion beyond her wildest dreams... When her beloved father passes away, Florence Fairleigh finds herself alone in the world. All she wants is a man who will treat her kindly and support her financially—and she's come to London to find him... Edward Burbrooke thinks marriage is the only way to save his brother Freddie—and their family—from scandalous ruin. As head of the family, Edward has vowed to find Freddie a bride—and fast... Thrown together by Edward, Florence and Freddie make a

perfect pair—until Edward realizes he has feelings for his brother's betrothed. The sight of her nubile young body makes his blood burn with lust. The sound of her voice makes his heart warm with love. And the sweet taste of her kiss makes him wonder if he isn't making a terrible mistake....

She is a petite, innocent-looking young woman with fantasies of skinning and flaying human skin. He is a diagnosed schizophrenic who fantasises about committing cold-blooded murder. When they meet, they will plan and execute one of the most horrific crimes ever documented in this country. In April 2011, the sleepy gold-mining town of Welkom was deeply shocked when the dismembered, decapitated body of Michael van Eck was discovered buried in a shallow grave on the outskirts of the local cemetery. Was this a muti murder, the work of a deranged madman or part of a satanic ritual? For the investigators and psychologists involved, the mystery only deepened when a seemingly unlikely arrest was made: a soft-spoken girl next door and her intelligent, devoted fiancé. Joining forces with some of the country's most specialised experts in the occult and psychopathy, Lieutenant Ogies Nel of the Welkom Detective Unit and her colleagues in the South African Police Service unravelled one of the most brutal psychologically motivated murders ever committed in South Africa's crime history. As they uncovered the evidence, they exposed a most heinous deed, alarmingly similar to the crimes committed by serial killer Ed Gein, who had a preference for flaying his victims' skin. Grave Murder is the chilling account of how appearances can be very deceptive - how those who might seem innocent and harmless on the outside may hide some dark, disturbing secrets that are just waiting to be revealed.

Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was

new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0C-S), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system, foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work, fittings and sizes, the compressor, the evaporator assembly and expansion valve or orifice tube, the condenser and fan, the receiver/drier or accumulator, electrical connections and compressor cycling, connecting and using manifold gauges, the basic steps for a/c rejuvenation, from-scratch a/c retrofit, making and installing hoses, flushing the system, pressure-testing and leak detection, evacuating and charging the system troubleshooting, and other things that heat up the cabin.
