This essential handbook is a must-have reference for nurse practitioners in all areas of practice! Designed for fast and simple access, the book's step-by-step format outlines diagnosis, appropriate therapy, indications for consultation, referral, and follow-up for nearly 150 common problems.

“When a nurse practitioner sees a patient, they don't see a medical diagnosis or a procedure. They see the whole patient, to include the physical, the mental, the emotional and the social, and they bring it in all together, and truly treat the patient.” —Brandon L., MSN, FNP-C Indiana Member since 2006 Clinical Resources by Therapeutic Area

A guideline for primary care clinicians to follow when treating adult patients for chronic pain in outpatient settings. Includes clinical tools, patient/partner fact sheets, graphics, and a decision-making checklist for clinicians. Rx Event - Adverse Event Reporting System An option

for practitioners to report adverse drug events.
