BJB900 - ZAVIER DECKER

This examination and revision guide comprehensively tests knowledge at all levels in obstetrics and gynaecology. The wide-ranging sample questions have detailed answers to provide proper explanation and aid understanding, and the variety of question formats prepares students for all possibilities in the examination. The best of five question format is ideal for DRCOG candidates, the EMQs prepare the MRCOG candidates, and the MCQs will test both DRCOG and MRCOG candidates. The book is also highly recommended for undergraduates preparing for their finals, who will welcome the sample best of fives and EMQs now that essays and short answer questions are becoming a thing of the past.

This is a new and substantially improved edition of Dr. Harrison Sheld's popular board-like question-and-answer review of key articles recently published in the American Journal of Obstetrics and Gynecology and Obstetrics and Gynecology (the "Gray" and "Green" journals), now expanded to include Primary Care Up-

date for Ob/Gyns and practical solutions of challenging clinical problems from Internet discussions with practitioners from around the world. The book contains 131 questions on gynecology in primary care, general gynecology, reproductive endocrinology, and gynecologic oncology. It contains 153 questions in obstetrics covering general obstetrics and maternal-fetal medicine. It uses a convenient side-by-side format in which the question is derived from a recent journal article with a referenced answer next to it highlighting pertinent basic science or clinical information. This edition also includes-for the first time-a section of 135 current clinical problems publicized on the Internet with an impressive array of practical solutions from the clinical experiences of practitioners world-wide.

Multiple Choice Questions Questions: Obstetrics Questions: Gynaecology Answers: Obstetrics Answers: Gynaecology Short Answer Questions Questions: Obstetrics Questions: Gynaecology Answers: Obstetrics Answers: Gynaecology.

A collection of over 450 tried and tested multiple choice questions comes com-

plete with reasoned answers. Published in association with the Royal College of Obstetricians and Gynaecologists, the pattern of questions follows that of the MRCOG Part 1 providing essential revision material and MCQ practice for this examination.

This book is a compact question-based review of the most critical topics an obstetrician will come across in practice. Each chapter includes 10-30 multiple-choice questions designed to test the readers understanding surrounding one obstetric topic. Based on all 45 obstetric based practice bulletins by ACOG, this text is designed to keep practitioners up-to-date with the latest evidence based medicine. Sample topics include: anemia in pregnancy, screening for fetal chromosomal abnormalities, and vaginal birth after previous cesarean delivery. This is an ideal tool for attendings and clerkship directors who frequently test residents and medical students during rounds and in the classroom. This review also proves useful for practicing physicians and physicians-in-training who want to self-evaluate their comprehension and study for board examinations.

The Part 1 MRCOG covers basic science knowledge as it applies to obstetrics and gynaecology. There are two papers, both of which contain a mixture of single best answer questions (SBAs) and multiple choice questions (MCQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.

This comprehensively updated new edition provides a thorough and dynamically-illustrated overview of the female reproductive organs, care of the female

during pregnancy, childbirth and the postnatal period. It is clinically relevant, with a focus on diagnosing, managing and treating disorders and abnormalities and is fully aligned with medical school curricula. *Obstetrics and Gynecology at a Glance*: • Recaps basic history taking, anatomy and endocrinology and focuses on clinically relevant information • Covers each topic in a double-page spread, packed with charts, graphs, photographs and visuals • Includes thoroughly updated sections on reproductive endocrinology, infertility and urogynecology The companion website at www.ataglanceseries.com/obgyn features interactive flashcards, case studies and multiple-choice questions (MCQs). *Obstetrics and Gynecology at a Glance* is the perfect guide for medical students, junior doctors and midwives, and is ideal for those embarking on clinical rotations and the clerkship.

This new review guide contains approximately 500 multiple choice questions on obstetrics and gynecology. Each question is followed by the correct answer and an explanation of the answer. A PC disk accompanies the book, enabling the reader to take several practice tests under exam conditions.

Previously entitled *MCQs in Gynaecology & Obstetrics 3rd Edition*, this text has been expanded to include Short Answer Questions (SAQs), in line with new assessments used in many medical schools. 'Self-Assessment in O&G' contains 300 MCQs and 60 SAQs, all of which are closely referenced to the 17th editions of 'Ten Teachers in Obstetrics' and 'Ten Teachers in Gynaecology'. Detailed explanatory answers ensure that the title can be used on its own or in conjunction with other texts. *Ten Teacher's Self Assessment in Obstetrics and Gynaecology*

ology is a comprehensive revision aid that will help medical students prepare for exams during clinical attachments and medical finals. The self-test format allows assessment of learning in obstetrics and gynaecology with multiple choice and short answer questions. The questions and explanatory answers are referenced to the appropriate chapter in the well-known volumes Gynaecology by Ten Teachers and Obstetrics by Ten Teachers to enhance learning and revision.

This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of the curricular elements highlighted within the RCOG trainee logbook.

This book is intended as a constant revision tutor and should help you to revise your obstetrics and gynaecology in preparation for examinations. It is particularly aimed at helping you to identify areas where your knowledge and understanding needs to be improved. The answers and clinical notes in this book are presented so that you can commit yourself in written opinion and can then confirm correct information and identify errors. The answers should reinforce your knowledge when you are correct and your reference textbooks explain why you were mistaken if your answer is wrong.

Basic Sciences for Obstetrics and Gynaecology - MCQs presents sample multiple choice questions and answers dealing with the basic sciences in obstetrics and gynaecology. The aim of the volume is to give those candidates studying for exami-

nations such as the MRCOG Part 1 a flavour of the examination itself. -- book cover.

Further to PasTest's 'Essential MCQs' range, here is a book specific to medical students studying for their Obstetrics and Gynaecology examinations. Three practice papers provide mixed questions and revision checklists that cover all areas.

"MCQs in Gynaecology and Obstetrics will help medical students prepare for exams during clinical attachments and medical finals. This comprehensive self-assessment text accompanies the well-known volumes, Gynaecology by Ten Teachers and Obstetrics by Ten Teachers. Questions and answers are referenced to appropriate chapters in these texts."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

"1500 multiple choice questions and referenced answers"--T.p.

Springer-Verlag's study guides have already helped thousands of candidates prepare for the examinations of the prestigious Royal Colleges. MRCOG, Part 1 is designed specifically for candidates sitting Part 1 of the Members of the Royal College of Obstetricians and Gynaecologists's examination and lets students taste the flavor of the real examination. The multiple choice questions have been updated and brief comments have been added for all the answers, whether true or false. MRCOG, Part 1 can be used as a companion volume to the successful "Basic Sciences for Obstetrics and Gynaecology" by the same authors. Both volumes cover the same material in the same order, and the answer to each question includes a reference to the appropriate page numbers in the textbook.

MCQs for Medical Students and Doctors

is an unusual multiple-choice question book on three accounts: • It covers thirteen of the specialties in medicine that every medical student has to face and every first-contact physician has to deal with in encounters with their patients irrespective of the doctor's field of specialization; • Unlike many MCQ books, this book goes further by providing comments that accompany >99% of the answers as explanations or additional information. This makes this book an MCQ book with "short notes"; • It is different from most, if not all, MCQ books in medicine for the others are usually specialty-specific. This MCQ book successfully covers fundamental topics in three selected pre-clinical subjects viz.: anatomy, pharmacology and therapeutics, and

parasitology as well as ten clinical specialties viz.: obstetrics and gynecology, dermatology, anesthesia, mental health, ophthalmology, otorhinolaryngology, general surgery, orthopedics/trauma, internal medicine, and general pediatrics. Detailed material is provided in "Book Reviews" and "How to Use" for the reader's guidance.

The Part 2 MRCOG consists of three question formats: multiple choice questions (MCQs), extended matching questions (EMQs) and short answer questions (SAQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.
