In the main dashboard, click on the + Create a resource button: Then, search the marketplace

for “WordPress”. You’ll then see a bunch of different results. Each result is a different setup/server configuration for running WordPress. As most of you know by now, WordPress is far more than a blogging platform. It is a full-blown content management system that is capable of handling of being used for everything from large enterprise sites to high-traffic magazine publications. WordPress is now used by over 38.8% of all websites on the internet (up from 32% in 2017) and shows no signs of slowing down.

WordPress will now use the page titled ‘Home’ as your site’s front page and ‘Blog’ page to display your blog posts. Change Site Title and Tagline. During the installation you get to choose your site’s title. WordPress automatically adds a tag line to your site title that says ‘Just another WordPress site’.

WordPress.com and WordPress.org are two ways of hosting a WordPress site. The thing that varies with these two methods is the actual host . By using WordPress.org, you may download the script free of charge and host it yourself on a local machine or with a hosting provider (

such as Hostinger).
