This book is the first book-length study on the Swedish present perfect. It provides an in-depth exploration of the present perfect in English, German and Swedish. It is claimed that only a discourse-based ExtendedNow-approach fully accounts for the present perfect. The main claim is that the length of the Extended-Now-interval varies cross-linguistically. The book is couched within the framework of the Discourse Representation Theory and also within Distributed Morphology. It is shown that Swedish pro-

vides empirical evidence against all previous research in the field. The following questions are investigated: Is it possible to assign a single uniform meaning to the present perfect? How can we account for the different readings of the perfect? How can we account for the cross-linguistic variation? These issues are addressed from a comparative perspective by integrating previous research on the present perfect. This book is of interest to all those working in the field of tense and aspect.

Ronald Reagan's first great victory, in the 1966 California governor's race, seemed to come from nowhere and has long since confounded his critics. Just two years earlier, when Barry Goldwater lost to Lyndon Johnson by a landslide, the conservative movement was pronounced dead. In California, Governor Edmund "Pat" Brown was celebrated as the "Giant Killer" for his 1962 victory over Richard Nixon. From civil rights, to building the modern California system of higher education, to reinventing the state's infrastructure, to a vast expansion of the welfare state, Brown's liberal agenda reigned supreme. Yet he soon found himself struggling with forces no one fully grasped, and in 1966, political neophyte Reagan trounced Brown by almost a million votes. Reagan's stunning win over Brown is one of the pivotal stories of American political history. It marked not only the coming-of-age of the conservative movement, but also the first serious blow to modern liberalism. The campaign was run amidst the drama of the Berkeley Free Speech Movement, terrible riots in Watts, and the first anti-Vietnam War protests by the New Left. It featured

cameo appearances by Mario Savio, Ed Meese, California Speaker Jesse "Big Daddy" Unruh, and tough-as-nails Los Angeles Police Chief William Parker. Beneath its tumultuous surface a grassroots conservative movement swelled powerfully. A group that had once been dismissed as little more than paranoid John Birchers suddenly attracted a wide following for a more mainstream version of its message, and Reagan deftly rode the wave, moving from harsh anticommunism to a more general critique of the breakdown of social order and the failure of the welfare state. Millions of ordinary Californians heeded his call. Drawing on scores of oral history interviews, thousands of archival documents, and many personal interviews with participants, Matthew Dallek charts the rise of one great politician, the demise of another, and the clash of two diametrically opposing worldviews. He offers a fascinating new portrait of the 1960s that is far more complicated than our collective memory of that decade. The New Left activists were offset by an equally impassioned group on the other side. For every SDS organizer there was a John Birch activist; for every civil rights marcher there was an anticommunist rally-goer; for every antiwar protester there were several more who sympathized with American aims in Southeast Asia. Dallek's compelling history offers an important reminder that the rise of Ronald Reagan and the conservatives may be the most lasting legacy of that discordant time.

A story that starts with the main character's death by hanging, and works backward to chronicle the ironic circumstances of his life. This becomes a conduit for the reader to explore how myth and reality set free the worst in mankind, only to have it rebound and survive.

"The most trusted opinion in rock music" (Billy Corgan, The Smashing Pumpkins), Matt Pinfield offers the ultimate music fan's memoir, an "entertaining and insightful" (Clive Davis) chronicle of the songs and artists that inspired his improbable career alongside some of the all-time greats, from The Beatles to KISS to U2 to The Killers. Matt Pinfield "makes rock 'n' roll fandom sound like a lifelong heroic quest—which it is" (Rob Sheffield). He's the guy who knows every song, artist, and musical riff ever recorded, down to the most obscure band's B-side single on its vinyl-only import EP. As a child, Pinfield made sense of the world through music. Later, as a teenager, Pinfield would approach his music idols after concerts and explain why he loved their songs. As an adult, rock music inspired his career, fueled his relationships, and, at times, became a life raft. In this "charming, rambling account of a life saved by rock 'n' roll...Pinfield is a disarmingly likable guide" (Kirkus Reviews) through his lifelong music obses-

sion—from the heavy metal that infused his teenage years, to his first encounters with legends like Lou Reed and the Ramones and how, through his MTV years, he played a major role in bringing nineties alt rock mainstream. Over his long career Pinfield has interviewed everyone from Paul McCartney to Nirvana to Jay-Z, earning the trust and admiration of artists and fans alike. Now, for the first time, he shares his five decades of stories from the front lines of rock 'n' roll, exploring how, with nothing more than passion and moxy, he became a sought-after reporter, unlikely celebrity, and the last word in popular music. Featuring a rousing collection of best-of lists, favorite tracks, and artist profiles, *All These Things That I've Done* "is an excellent read" (Publishers Weekly) about how a born outsider wound up in the inner circle.
